Vantec NexStar DX

Model: NST-536S3-BK

USB 3.0 External Enclosure for SATA Blu-Ray/CD/DVD Drive

NexStar DX converts a 5.25" desktop optical drive to an external enclosure. Just install your internal optical drive and turn it into a portable USB 3.0 enclosure that fits with desktops or laptops. This enclosure supports a 5.25" SATA Optical drive like a Blu-Ray drive, DVD, and CD. The aluminum case keeps the device cool and operating at optimum conditions. The NexStar DX external 5.25" enclosure is the smart way to optimize and share your optical drive with all your system.

IMPORTANT NOTE: Enclosure will need to be fully connected to a working system before powering ON the enclosure. The enclosure will not power ON if stand-alone without connecting to a working system. If not connected it assume in sleep mode and often user think the enclosure is defective but it is not.

- Design for 5.25" Blu-Ray/DVD/CD drive
- Super Speed USB 3.0 transfer rate
- Plug and Play: add your optical drive to the case, no drivers to needed
- Hot swappable for system equipped with USB port
- Power switch on enclosure for easy on/off
- Aluminum case for reduced noise and vibration
- Note: Will not power ON, if not fully connected to working system.

Please fully connected to working system before powering ON enclosure.

Energy Saving Function: Enclosure will not power ON (in sleep) if not connected to working system.

Specifications:

Model: NST-536S3-BK

Device Support: 5.25" Blu-Ray / DVD / CD SATA drives

HDD Interface: Standard SATA

External Data Interface: Super Speed USB 3.0

Power Supply: Universal Switching AC adapter, 12V/2A
