### **Products Covered:**

All Cisco products containing only a lithium metal button cell installed in equipment (including printed circuit board)  
See list of products in Annexure I

### **Safety Data Sheet (SDS)**

The products addressed in this document are generally viewed as fully-encased, manufactured “articles” that are exempted from requirements for Material Safety Data Sheets (MSDSs) under the Hazard Communication Standard (29 C.F.R. Part 1910, Subpart Z) of the U.S. Occupation Safety and Health Administration (OSHA) and may be exempted from similar standards in other countries. In particular, these products are manufactured according to a specific design and have an end use dependent upon such design, which under specified operating conditions does not expose users to hazardous substances. Cisco Systems is nevertheless providing information in this document about these products as a service to its customers.

### **Transportation**

Cisco also represents that all covered products listed in Annex-I are not considered to be Dangerous Goods and are unregulated for the purpose of transportation by the US Department of Transportation (DOT), International Civil Aviation Administration (ICAO), International Air Transportation Association (IATA), International Maritime Dangerous Goods regulations (IMDG), US Department of Transportation (DoT) and International road transport agreement (ADR). The covered products only contain a lithium metal button cell battery. According to IATA/IMDG/DoT regulations, button cell installed in equipment does not need to be considered. Therefore, the covered product(s) should be shipped as **Non-Restricted**.

These models may occasionally be installed with an optional RAID Controller Unit with a Super Capacitor (UCSC-SCAP-M5) as energy storage component. This part does not contain any battery and it is not charge at the time of shipping. It is a Non-Restricted part.

### **Disposal**

As for all electronic waste, end-users are encouraged to observe their relevant applicable local, state and federal e-waste law for information technology equipment.
