

Heavy-Duty Wallmount Frames

Swing mounted equipment out of the way for easy cable access.

FEATURES

- » Hold up to 150 pounds (68 kg).
- » Solid 11-gauge steel construction ensures structural integrity.
- » Feature pivoting points instead of hinges.
- » Frame pivots out smoothly, so you can easily manage cables and equipment.
- » Interior tie points coupled with cable loops tame unruly cable clusters.

OVERVIEW

Looking for an inexpensive, yet sturdy and secure frame to wallmount your patch panels and manage your cable? This steel wallmount frame holds up to 150 pounds of equipment. And because the frame pivots instead of swinging on hinges, it still maintains its structural integrity.

You'll like the convenient access, too. The front panel swings out, so you can move equipment out of your way and get to those cables. Built-in cable management points help you organize cable. And you can even punch down cable while the frame is fully open.

Choose from two heights to accommodate 12 or 20 rackmount units. Hook and loop cable tie loops and rack screws are included.

Technically Speaking

Rack Units.

A Rack Unit is abbreviated as U. One Rack Unit (1U) is equal to 1.75" (4.44 cm).

Item

Heavy-Duty Wallmount Frames, 18"D (45.7 cm)
