6U Vertical Server Cabinet - 30 in. Deep

Product ID: RK630WALVS

This 6U vertical server cabinet offers a space-saving way to keep your network and server equipment secure. With its 30 in. depth and a weight capacity of up to 200 lb. (90.7 kg), the server rack/cabinet is designed to fit your needs. It also features an additional 2U mounting bracket positioned toward the top of the enclosure, that you can use to mount patch cables or other shallow rack-mount equipment.

Free up space

Wall-mount your equipment, even if you don't have enough space for a full-sized rack or cabinet. This low-profile server cabinet is perfect for areas where space is at a premium, such as an office. The cabinet saves space by extending only minimally from the wall and housing the length of your equipment vertically. This reduces the horizontal footprint of your equipment while still providing plenty of room for your servers, patch panels, and switches.

Keep your equipment cool and secure

To help keep your equipment secure, the vertical server cabinet/network rack features a sturdy metal design and a lock on both the door and access panel. It is also vented, providing passive cooling to help keep your equipment running at suitable temperatures.

Easy, hassle-free installation

The server rack comes fully assembled and includes all of the necessary hardware to install equipment, making installation fast and easy. The mounting holes are spaced 16 in. apart, making it suitable for mounting on almost any wall, based on common North American wall-frame stud spacing.

The RK630WALVS is backed by a StarTech.com 5-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

• Securely mount servers and telecommunication equipment flush against the wall

• Perfect for installing network switches out of the way and high up on a wall in a branch office, warehouse, or retail supercenter

• Install a large server anywhere in an office without a full server room, while protecting against unauthorized access

• Ideal for small and medium businesses requiring small, secure rack solutions dispersed throughout the organization

Features

• Total load capacity of 200 lb. (90.7 kg)

• Save space by mounting your server vertically to the wall

• Extra 2U of space for switches and patch cables

• Keep equipment secure with lockable door and access panel

• Comes fully assembled with all necessary hardware to install equipment for easy installation

• Provides 6U of storage space
