## HOW TO MEASURE:

- If you have a case on your device, please take measurements with the case on.
- Depth dimension of laptop should NOT include the screen. Only measure the depth of the deck.
- Depth dimension of a convertible needs to be measured WITH screen converted, as shown.

**COMPUTING DEVICE CONFIGURATOR\*:** <http://customers.havis.com/index.php/support/compatibility>

**\*NOTE:** Havis is constantly innovating new products based on customer demand. If you do not see a compatible fit for your device on the above chart we may still have a solution in development. Please contact us, as we'd like to discuss your request further.
