Economy Origami

Fold up a cute, little pig!

1. Fold a sheet of **Economy Origami** in half and then in half again, lengthwise, to create four identical rectangles. Lay the sheet with the plain side up and horizontal creases.

2. Fold the bottom up to the middle and the top down to the middle along the crease folds.

3. Fold down the top left and right corners to line up with the crease. Unfold the corners.

4. Bring the bottom right and bottom left corners of the top flap into the center so they "pop" out and form two identical triangles.

5. Repeat steps 3 and 4 with the bottom flap.

6. Flip the paper over and fold in half along the center horizontal crease.

7. Create the legs. Take the inside two corners of the triangles (where they touch) and fold them down to line up with the height of the triangles. Flip over and repeat.

8. Gently fold in the front point to create a tiny tab. Fold down the point of the tab to make it flat.

9. Create the tiny tail by folding in the back point twice. Add two little eyes and you are finished your pretty piggy!
