1 Safety precautions

Before using your equipment, read the following safety precautions to make sure you use the equipment safely.

Do not carry out any operations or procedures other than as described in this document, because doing so may result in death, serious personal injuries, or fire.

 **CAUTION:** Handling the equipment always requires two people. Care must be taken to avoid back strain and/or injury. Use of personal protective equipment is recommended.

Mains connection

- Use the power supply voltage specified on the label. Avoid overloading the equipment's electrical outlet with multiple devices. Doing so can cause a fire or an electric shock hazard.
- Use only the power cord supplied by HP with the equipment. Do not damage, cut, or repair the power cord. A damaged power cord can cause fire and electric shock. Replace a damaged power cord with an HP-approved power cord.
- Do not set heavy objects on the power cord; do not bend the cables or force them into contorted positions.
- Insert the power cord securely and completely into the wall socket and equipment inlet. A poor connection can cause a fire or an electric shock hazard.
- Do not handle the power cord with wet hands. Doing so may cause electric shock hazard.
- Observe all warnings and instructions marked on the equipment.

Equipment operation

- Do not allow metal or liquids (except those used in HP Cleaning Kits) to touch the internal parts of the equipment. Doing so may cause fire, electric shock, or other serious hazards.
- Do not insert your hand into the equipment while it is printing. Moving parts inside the equipment may cause injuries.
- Keep your clothing and all parts of your body away from the equipment's moving parts.
- Avoid wearing necklaces, bracelets and other hanging objects.
- If your hair is long, try to secure it so that it will not fall into the equipment.
- Ventilation measures, for your location either "office" or "copy, printer rooms" should meet with local environmental health and safety (EHS) guidelines and regulations.
- Unplug the equipment from the wall before cleaning.

Equipment servicing

- There are no operator-serviceable parts inside the printer except those covered by HP's Customer Self Repair program: see <http://www.hp.com/go/selfrepair/>. Refer servicing of other parts to qualified service personnel.
- Do not disassemble or repair the equipment yourself. There are hazardous voltages inside the equipment that can cause a fire or electric shock hazard.

Caution

Turn off the equipment and unplug the power cord from the power outlet in any of the following cases:

- If there is smoke or an unusual smell coming from the equipment.
- If the equipment is making an unusual noise not heard during normal operation.
- If a piece of metal or a liquid (not part of cleaning and maintenance routines) touches internal parts of the equipment.
- There is any mechanical or enclosure damage.
- During a thunderstorm.
- During a power failure.
- The power cord or plug is damaged.
- The equipment has been dropped.
- The equipment is not operating normally.

2 About the ink cartridges

- Dynamic security enabled printer. Only intended to be used with cartridges using an HP original chip. Cartridges using a non-HP chip may not work, and those that work today may not work in the future. More at: <http://www.hp.com/go/learnaboutsupplies>.
- This printer is not designed to use continuous ink systems. To resume printing, remove any continuous ink system and install genuine HP (or compatible) cartridges.
- This printer is designed for ink cartridges to be used until they are empty. Refilling cartridges prior to depletion might cause your printer to fail. If this happens, insert a new cartridge (genuine HP or compatible) to continue printing.

3 HP Software License Agreement

PLEASE READ CAREFULLY BEFORE USING THIS SOFTWARE PRODUCT: This End-User License Agreement (“EULA”) is a contract between (a) you (either an individual or the entity you represent) and (b) HP that governs your use of the software product (“Software”). This EULA does not apply if there is a separate license agreement between you and HP or its suppliers for the Software, including a license agreement in online documentation. The term “Software” may include (i) associated media, (ii) a user guide and other printed materials, and (iii) “online” or electronic documentation (collectively “User Documentation”).

RIGHTS IN THE SOFTWARE ARE OFFERED ONLY ON THE CONDITION THAT YOU AGREE TO ALL TERMS AND CONDITIONS OF THIS EULA. 1. **THIRD PARTY SOFTWARE.** The Software may include, in addition to HP proprietary software (“HP Software”), software under licenses from third parties (“Third Party Software” and “Third Party License”). Any Third Party Software is licensed to you subject to the terms and conditions of the corresponding Third Party License. Generally, the Third Party License is located in a file such as license.txt; you should contact HP support if you cannot find any Third Party License. If the Third Party Licenses include licenses that provide for the availability of source code (such as the GNU General Public License) and the corresponding source code is not included with the Software, then check the product support pages of HP’s website (hp.com) to learn how to obtain such source code.
2. **LICENSE RIGHTS.** You will have the following rights provided you comply with all terms and conditions of this EULA:
 - a. **Use.** HP grants you a license to Use one copy of the HP Software. “Use” means installing, copying, storing, loading, executing, displaying, or otherwise using the HP Software. You may not modify the HP Software or disable any licensing or control feature of the HP Software. 3. **UPGRADES.** To Use HP Software provided by HP as an upgrade, update, or supplement (collectively “Upgrade”), you must first be licensed for the original HP Software identified by HP as eligible for the Upgrade. To the extent the Upgrade supersedes the original HP Software, you may no longer use such HP Software. This EULA applies to each Upgrade unless HP provides other terms with the Upgrade. In case of a conflict between this EULA and such other terms, the other terms will prevail.
4. **TRANSFER.**
 - a. **Third Party Transfer.** The initial end user of the HP Software may make a one-time transfer of the HP Software to another end user. Any transfer will include all component parts, media, User

Documentation, this EULA, and if applicable, the Certificate of Authenticity. The transfer may not be an indirect transfer, such as a consignment. Prior to the transfer, the end user receiving the transferred Software will agree to this EULA. Upon transfer of the HP Software, your license is automatically terminated.

- b. **Restrictions.** You may not rent, lease, or lend the HP Software or Use the HP Software for commercial timesharing or bureau use. You may not sublicense, assign, or otherwise transfer the HP Software except as expressly provided in this EULA.

8. **LIMITATION OF LIABILITY.** Notwithstanding any damages that you might incur, the entire liability of HP and its suppliers under this EULA and your exclusive remedy under this EULA will be limited to the greater of the amount actually paid by you for the Product or U.S. \$5.00. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT WILL HP OR ITS SUPPLIERS BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, OR CONSEQUENTIAL DAMAGES (INCLUDING DAMAGES FOR LOST PROFITS, LOST DATA, BUSINESS INTERRUPTION, PERSONAL INJURY, OR LOSS OF PRIVACY) RELATED IN ANY WAY TO THE USE OF OR INABILITY TO USE THE SOFTWARE, EVEN IF HP OR ANY SUPPLIER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND EVEN IF THE ABOVE REMEDY FAILS OF ITS ESSENTIAL PURPOSE. Some states or other jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.
9. **U.S. GOVERNMENT CUSTOMERS.** If you are a U.S. Government entity, then consistent with FAR 12.211 and FAR 12.212, Commercial Computer Software, Computer Software Documentation, and Technical Data for Commercial Items are licensed under the applicable HP commercial license agreement.

Conformément au Règlement d'Industrie Canada, cet émetteur radioélectrique ne peut fonctionner qu'avec une antenne d'un type et d'un gain maximum (ou moindre) approuvé par Industrie Canada. Afin de réduire le brouillage radioélectrique potentiel pour d'autres utilisateurs, le type d'antenne et son gain doivent être choisis

de manière à ce que la puissance isotrope rayonnée équivalente (p.i.r.e.) ne dépasse pas celle nécessaire à une communication réussie.

Cet appareil est conforme aux normes RSS exemptes de licence d'Industrie Canada. Son fonctionnement dépend des deux conditions suivantes : (1) cet appareil ne doit pas provoquer d'interférences nuisibles et (2) doit accepter toutes interférences reçues, y compris des interférences pouvant provoquer un fonctionnement non souhaité de l'appareil.

AVERTISSEMENT relatif à l'exposition aux radiofréquences. La puissance de rayonnement de cet appareil se trouve sous les limites d'exposition de radiofréquences d'Industrie Canada. Néanmoins, cet appareil doit être utilisé de telle sorte qu'il soit mis en contact le moins possible avec le corps humain.

Afin d'éviter le dépassement éventuel des limites d'exposition aux radiofréquences d'Industrie Canada, il est recommandé de maintenir une distance de plus de 20 cm entre les antennes et l'utilisateur.
