

The AddOn’s CLEANING-KIT-AO is an all-inclusive kit for simple fiber transceiver and high-speed cable connector cleaning and maintenance. Comes with the necessary connector cleaning tools, scope, and battery in an easy-to-carry soft-case bag.

Included in the Kit: Connector Cleaning, Scope and Battery, and Carrying Bag:

Connector Cleaning			
Part Number	Description	Image	Kit Qty
FOCLNR-CT500-AO	Optical connector cleaning cassette with an anti-static microfiber belt effective for 500 cleans recommended for FC, SC, LC, ST, MU, DIN, D4, PC and APC connector types		1
FOCLNR-PP125-AO	Optical fiber one-click cleaner with ESD-safe soft tip agitator for MU, LC fiber optic adapters 1.25mm adapters		1
FOCLNR-PP250-AO	Optical fiber one-click cleaner with ESD-safe soft tip agitator for SC, ST, FC fiber optic adapters 2.5mm adapters		1
FOCLNR-STK50-AO	The optical transceiver cleaning sticks feature an adhesive soft tip plastic agitator to extract attenuation-causing dust, debris, and particles. The sticks are compatible with all fiber optic transceiver connectors: FC, SC, LC, ST, MU, DIN, D4, PC, APC		2

Scope and Battery			
Part Number	Description	Image	Kit Qty
FOSCOPEBATT-24-AO	Battery-powered optical fiber connector microscope with amplification rates of 200x/400x. The adapter ring supports SC, FC, ST, LC, SC connectors		1
Available only with kit; not sold separately.	Duracell 303/357 1.5V silver-oxide battery, 1/Pack – For the FOSCOPEBATT-24-AO		3

Carrying Bag			
Part Number	Description	Image	Kit Qty
Available only with kit; not sold separately.	11"x7"x6" Durable canvas soft-case bag to carry the contents of the kit		1

Additional Units to Include in Kit upon Request

Inspection Probe and Replacement Reel			
Part Number	Description	Image	Kit Qty
FOPROBETIP-600P-AO	Plug-and-play fiber optical inspection probe with digital imaging, capable of 400x magnification. Comes with a USB-A adapter and different probe tips for most uses case. Compatible with your default Windows camera app		1
FOCLNR-CT500-SPARE-AO	Anti-static microfiber belt replacement reel for the FOCLNR-CT500-AO. This easy-to-use replacement is good for another 500 uses		1

About AddOn Networks

In 1999, AddOn Networks entered the market with a single product. Our founders fulfilled a severe shortage for compatible, cost-effective optical transceivers that compete at the same performance levels as leading OEM manufacturers. Adhering to the idea of redefining service and product quality not previously had in the fiber optic networking industry, AddOn invested resources in solution design, production, fulfillment, and global support.

Combining one of the most extensive and stringent testing processes in the industry, an exceptional free tech support center, and a consistent roll-out of innovative technologies, AddOn has continually set industry standards of quality and reliability throughout its history.

Reliability is the cornerstone of any optical fiber network and is engrained in AddOn's DNA. It has played a key role in nurturing the long-term relationships developed over the years with customers. AddOn remains committed to exceeding industry standards with certifications from ranging from NEBS Level 3 to ISO 9001:2005 with every new development while maintaining the signature reliability of its products.
