MultiSync® Message Series Digital Signage Portfolio

For over 35 years, MultiSync has been a brand synonymous with quality, service, longevity, and technology in display products. It's rich tradition of excellence began in 1985 as one of the first multiscan monitors on the market. Since then the brand has pioneered technology and feature sets for customers who demand best-in-class quality and endurance. Ensure your visual experience is never compromised with MultiSync.

This year, the MultiSync brand is launching the Message line-up within it's Digital Signage Portfolio. Building upon the quality, service, reliability and longevity of the brand, while adapting to fit the evolving needs of today's market.
