A Revolutionary Collaboration Between Mimo Monitors and BrightSign: An Out-Of-The-Box Digital Signage Platform

Just Add Power

Two trusted powerhouse brands, Mimo Monitors and BrightSign, have teamed up to introduce the Mimo Vue with BrightSign Built-In. Bringing to market a fully encompassing, reliable, all-in-one digital signage solution, this new partnership leverages the power of the Mimo Vue technology and integrates the industry-leading BrightSign platform. The result is a high quality, easy-to-install solution that's immediately digital signage ready, making it extremely simple to use, especially for those already reliant on the BrightSign platform.

Mimo Monitors: Small Touchscreens.Flexible Innovation.Human Connection.

At Mimo Monitors we believe that touchscreens should be designed with a solutions-first, customer-centric approach that provides reliable, durable, and high quality products and experiences for our customers. As a global expert and industry leader, we create small footprint and high value displays that drive innovation and are centered in flexibility.

Rooted in providing touchscreens with human touch, we put customer service at the forefront, offering personalized, direct communication and detail-oriented service to ensure satisfaction. Focused on customizable solutions intended to fit the need, our touchscreens are intuitive to use, easy to deploy and scale, and sleek in design all while enhancing productivity, efficiency, and user experience.

10.1" Mimo Vue Display with BrightSign Built-In

The Mimo Vue HD is the second generation of Mimo Monitors 10.1" monitor line. It features a modern zero bezel design, a nearly 180 degree viewing angle from its bright, high contrast, IPS screen, and a resolution of 1280x800, that can display in either landscape or portrait orientations. Available with an optional base, the VESA75 pattern on the back is available where wall or pole mounting is desired.

The BrightSign Built-In Digital Signage Module is an HD Series 3 class BrightSign player. The BrightSign Built-In module is compatible with all BrightSign software, services and supported CMS solutions.

24" 4K Mimo Display with Bright Sign Built-In

Mimo Monitors and BrightSign, two leading industry experts, have collaborated on a revolutionary new solution to make digital signage more crisp, clear, and seamless than ever before: The Mimo Vue with BrightSign Built-In 4K.

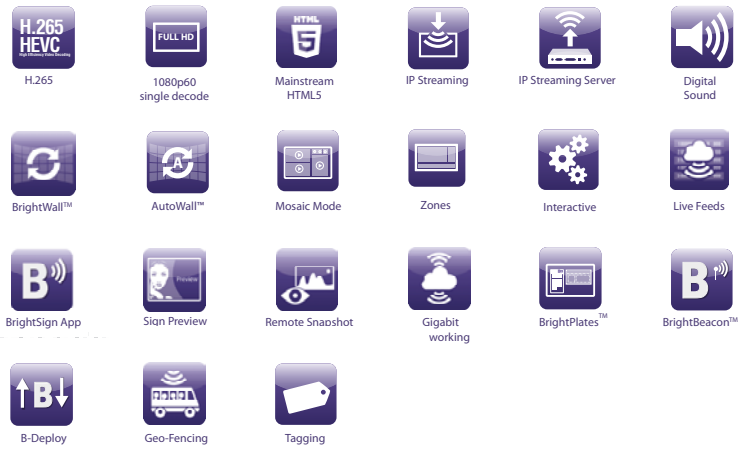

At 23.8 inches, the largest Mimo Monitor available, this display integrates the cutting-edge and high quality Mimo Monitors hardware with the BrightSign HD Series 4 platform for a fully comprehensive digital signage solution right out of the box. Simply add power for an aesthetically pleasing, all encompassing, and high-end media player and touchscreen combined.

Durable, reliable, and intended to withstand harsh and consistent use, the Mimo Vue with BrightSign Built-In 4K was created to have incredibly clear graphics at a resolution of 3840x2160. This display is ideal for high-end retail, corporate environments, or interactive exhibitions seeking premium digital signage that's simple to deploy and scale.

MBS-23890-OF / MBS-23890C-OF

BrightSign Features:

Applications:

- Kiosk information system
- Gaming and amusement
- POP/POS/POI
- Conference Room Scheduling

- Interactive and Digital Signage
- Hospitality
