

The Bravia professional large format Full HD touch screen display line offers commercial-grade 24x7 operation. These touch screen displays offer superior visual performance and are well-suited for demanding digital signage environments.

The 55", 65", and 75" 4K touch enabled displays combine a striking visual experience with precise touch interactivity. The Anti-glare tempered glass provides a wonderful tactile feel when touching the screen while allowing approximately 90% of the brightness of the display to shine through.

Key Features

- 55", 65", 75" LCD displays with integrated 10-point IR multi-touch technology
- Logo-free narrow metal bezel
- TAA and ADA compliant
- Infrared technology allows for virtually any input device to be detected
- Powder coat finish resists scratches

True Multi-Touch

Up to 10 simultaneous touch points are available.

Superior Design

Cold rolled steel chassis combined with tempered glass provides additional protection to the display

Unrivaled Reliability

Unrivaled customer service backed by a 3 year warranty.

HID Compliant

Maximum compatibility with numerous operating systems, plug-and-play
