TAOGLAS

Datasheet

5G/4G 4*MIMO Cross-Polarized Antenna

Part No:
TGX.04.A.001

Description:

Wideband 400-6000MHz 5G/4G 4*MIMO Cross Polarized Antenna

With Multi-mount Bracket (Wall, Pole and Suction Cup Mounting options)

Features:

Highest efficiency for 450-6000MHz wideband applications

Fully 5G/4G Cellular Operational

Cross Polarized Dipole Antennas

IP67 Rated Enclosure

Omnidirectional Gain Patterns leading to better coverage

Multi-function bracket including Wall, Pole and Glass Mount options

Cable: 3m TGC-200

Connector: SMA Male Straight – Fully Customizable

Dimensions: 165 * 165 * 149 mm (Including Bracket)

RoHS & Reach Compliant

1. Introduction

The Taoglas TGX.04 is a 4* 5G/4G MIMO cross-polarized omnidirectional dipole antenna with a wide bandwidth covering all worldwide sub 6GHz cellular bands from 400 to 6000MHz. It uses four dipole antennas to deliver the best possible throughput and quality improvements in transmitting and receive signal levels, leading to better coverage and performance, especially in urban environments. It is designed for multiple mounting options to allow for a variety of use cases and is supplied with 3m of low loss cable with SMA(M) connectors as standard.

Typical Applications include:

- Agriculture and Rural 5G
- Coverage enhancement systems
- Commercial Transportation
- Connected Enterprise
- Public Safety and First Responder

The TGX.04 design is an evolution of our hugely successful TG.45 antenna design and it is unrivalled in its ability to cover all wideband 5G/4G Sub 6GHz bands. The antenna is tuned for great performance at the recently established 5GNR bands between 3300 - 4200MHz and covers Band 31 (450MHz) and Band 71 (617MHz) at the lower end of the 5G/4G frequency spectrum. High Efficiency and stable Gain is achievable at each band on all 4 MIMO antennas.

The cross polarized antennas' layout also enhances MIMO performance capabilities, thus improving signal quality. This is achieved by positioning the antenna elements orthogonal to each other aligning with the +/- 45-degree polarised signals received from most base station antennas and in turn, enhances throughput capacity giving the user the best possible cellular performance for their device. The TGX.04 has been designed for typical applications including gateways, routers and wireless access points that require, high efficiency and unrivalled performance.

The robust TGX.04 enclosure is IP67 rated and manufactured from ASA for exceptional mechanical performance. The bracket is designed to allow for multiple mounting options, including wall or pole or mounting and it is supplied with suction cups to facilitate glass mounting. All accessories for each mounting option are included with the product. The TGX.04 is an omnidirectional antenna, but the mounting bracket allows the user to position the antenna and lock it into place for optimal performance.

The TGC-200 cable and SMA(M) connector are fully customizable depending on your specific requirements. Contact your regional Taoglas customer support team for more information.

6. Installation Guidelines

Installation Instructions

TGX.04 Series

MIMO 5G/4G Antenna

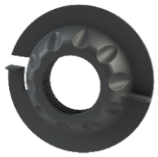
TAOGLAS

Introduction

Following these guidelines will help ensure that your Taoglas TGX.04 antenna is installed correctly. The TGX.04 can be mounted via in 3 different variations;wall mount, pole mount and suction cup mount. All mounting methods are outlined below.

Installation **Requirements**

Antenna Components: Mounting Plate (x1), Tightening Nut (x1), Antenna Housing (x1), Coaxial Cable(x4)



- Pole Mount:
  7mm [9/32"] socket wrench or screwdriver, metal mounting clamp (x2)
  Pole Diameter Range: 22mm [0.9"] - 50mm [2"]
  Metal Mounting Clamp
- Wall Mount:
  Screwdriver, drill, M4 [Gauge 8] screw (x4), M4 [Gauge 8] washer (x4), 6mm [1/4"] wall mount stud (x4)
- Suction Cup Mount:
  D40 Suction cups (x4)

Notices

Caution
To comply with FCC RF Exposure requirements in section 1.1310 of the FCC Rules, antennas used with this device must be installed to provide a separation distance of at least 20 cm from all persons to satisfy RF exposure compliance.

Warning
Do not Operate the transmitter when someone is within 20 cm of the antenna.
Do not operate the equipment in an explosive atmosphere.

European Waste Electronic Equipment Directive 2002/96/EC
Please ensure that your old Waste Electricals and Electronics are recycled do not throw them away into standard waste.

Waiver: This document represents information compiled by Taoglas to the best of our current knowledge. This is not intended to be used as a representation or warranty of fitness of the products described for any particular purpose. This document details guidelines for general information purposes only. When planning installations, always seek specialist advice and ensure that the products are always installed by a properly qualified installer in accordance with applicable regional laws and regulations.

IG-21-8-020-A

taoglas.com

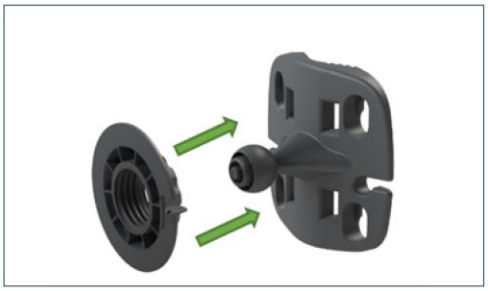
Hardware **Installation**

The TGX.45 antenna can be installed with 3 different methods: pole mount, wall mount, and suction cup mount. Please refer to the appropriate section below that best fits your installation needs

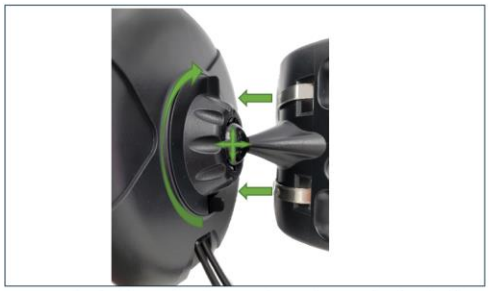
Pole Mount Installation

Insert the metal mounting clamps(both top and bottom) through the inner slots of the mounting plate

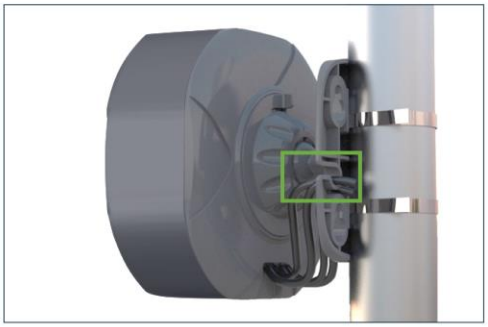
Loop the mouting straps around the pole at the desired position and tighten the strap until the mounting plate is fixed. Use the self centering feature to guide the mounting plate onto the pole



Insert the tightening nut onto the ball joint mount with the flat surface facing away from the mounting plate



Insert the ball joint firmly into the socket on the back of the antenna body and slide the tightening nut into the antenna housing's back plate to secure in place. Adjust to the desired antenna orientation on the bal joint and tighten the nut to fix the antenna in place.



Optional: Route cables through the cable guide on the mounting plate

Completed Installation

IG-21-8-020-A taoglas.com

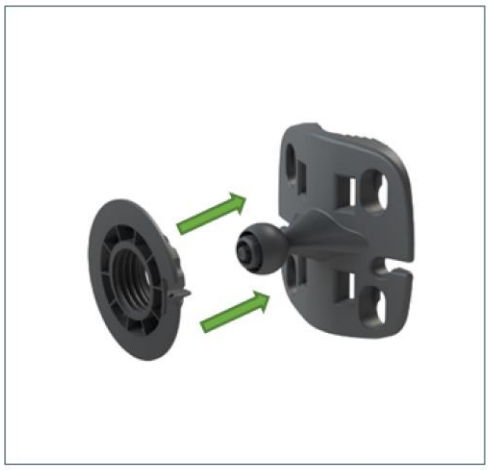
Hardware **Installation**

The TGX.45 antenna can be installed with 3 different methods: pole mount, wall mount, and suction cup mount. Please refer to the appropriate section below that best fits your installation needs

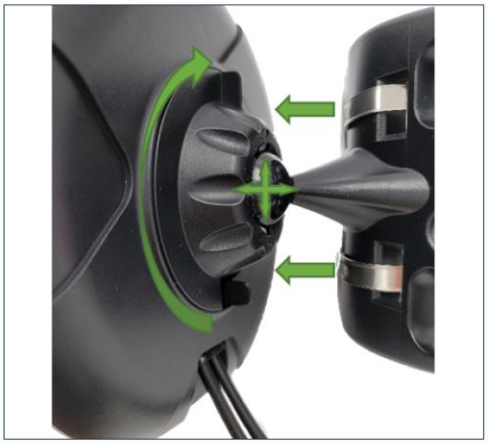
Wall Mount Installation

Correct Screw and Washer Location

Using the mounting plate as a guide mark the position of the screws to the desired location. Drill holes for wall mount studs(6mm[1/4"] diamter, min 25mm[1"] depth) and secure the studs in place. Position the washers into the mounting plate, insert the screws through and into the wall studs. Drive the screws in and tighten to secure the mounting plate in place



Insert the tightening nut onto the ball joint mount from the mounting plate



Insert the ball joint firmly into the socket on the back of the antenna bodyand slide the tightening nut into the antenna housing's back plate to secure in place. Adjust to the desired antenna orientation on the ball joint and tighten the nut to fix the antenna in place

Completed Installation

IG-21-8-020-A taoglas.com

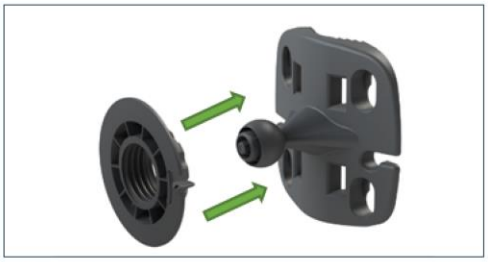
Hardware **Installation**

The TGX.45 antenna can be installed with 3 different methods: pole mount, wall mount, and suction cup mount. Please refer to the appropriate section below that best fits your installation needs

Suction Cup Mount Installation

Insert the metal mounting clamps(both top and bottom) through the inner slots of the mounting plate

Using the mounting plate as guide on the mounting surface, align to the desired location of the antenna. Press firmly on each cup to secure in place
Note: Check that the surface to mount on is flat, non-porous, and has been adequately cleaned to ensure proper adhesion.



Insert the tightening nut onto the ball joint mount with the flat surface facing away from the mounting plate

Insert the ball joint firmly into the socket on the back of the antenna body and slide the tightening nut into the antenna housing's back plate to secure in place. Adjust to the desired antenna orientation on the bal joint and tighten the nut to fix the antenna in place.

Completed Installation

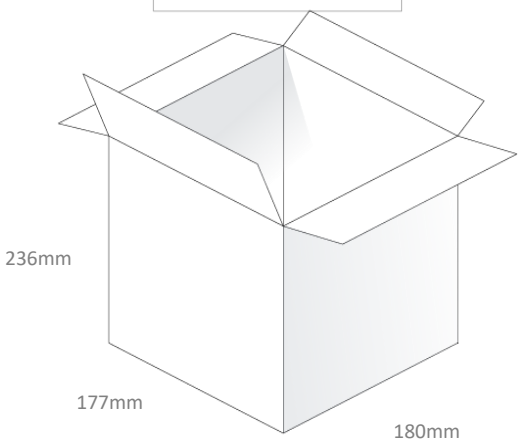
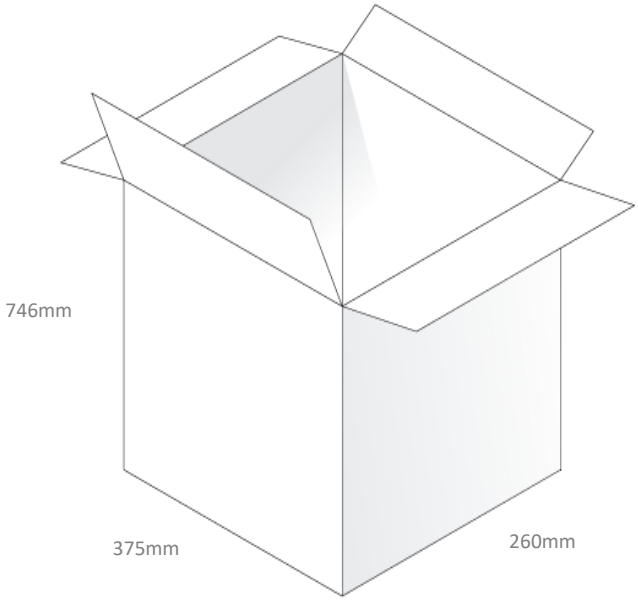
7. Packaging

Kit:
1pc TGX.04.A.001
4pcs Suction Cup
4pcs Wall plug + screw
4pcs Plastic Washer
2pcs Metal Cable Ties
1 Kit per Small Box
Dimensions: 180*177*236mm
Weight: 900g



8pcs TGX.04.A.001 per Carton
Carton Dimensions: 746*375*260mm
Weight: 8Kg



8. Application Note

The TGX.04's performance varies based on cable length due to loss values, as demonstrated in the following section.
