ADD-SFPTUNE-V1

Single SFP Tuning Dongle

Product Description

This is a single-slot SFP dongle for use with ProTune(™) offline tuning application. It supports the tuning of SFP and SFP+ tunable DWDM transceivers. The SFP Tuning Dongle interfaces with standard USB-A ports and ships with a USB-A to USB-C conversion cable. The SFP Tuning Dongle is compatible with Windows and Android environments.

Specifications

Parameter	Specifications
Dimensions	27.3mm x 20.7mmx 75.3mm (Incl USB)
USB Connector Type	USB-A M
USB Cable included	6in USB-A F to USB-C
Transceivers Supported	SFP, SFP+, SFP28
Power Supply	3.3V
USB Port	2.0 or Higher
USB Port Setting	High Power Device
Power consumption	< 2.5W
Operating Systems	Windows 8 and higher, Android
Device Drivers	FTDI FT422H http://www.ftdichip.com/Drivers/D2XX.htm
Software Requirements	Windows: ProTune™ Off-line Tuning Application (www.prolabs.com/Support) Android: Protune™ Mobile, available from Google Play app store

About AddOn Networks

In 1999, AddOn Networks entered the market with a single product. Our founders fulfilled a severe shortage for compatible, cost-effective optical transceivers that compete at the same performance levels as leading OEM manufacturers. Adhering to the idea of redefining service and product quality not previously had in the fiber optic networking industry, AddOn invested resources in solution design, production, fulfillment, and global support.

Combining one of the most extensive and stringent testing processes in the industry, an exceptional free tech support center, and a consistent roll-out of innovative technologies, AddOn has continually set industry standards of quality and reliability throughout its history.

Reliability is the cornerstone of any optical fiber network and is in engrained in AddOn's DNA. It has played a key role in nurturing the long-term relationships developed over the years with customers. AddOn remains committed to exceeding industry standards with certifications from ranging from NEBS Level 3 to ISO 9001:2005 with every new development while maintaining the signature reliability of its products.
