HAVIS, INC MM-10-203 & MM-10-204

CHANNEL MOUNT INSTALLATION

Tool Required:
2.5mm Hex Wrench (Provided)

Step 1: Loosely attach the Channel Clamping Plate to the Channel Mount using M4 x 10mm Socket Head Screws as shown*

*Note: Install lower device mounts on the same side of pole first. To add a lower Channel Mount or Arm on an adjacent side of the pole, slide the Clamping Plate into the Pole Channel first and then attach the channel Mount or Arm

Step 2: Attach lowest Channel Mounts first

Step 3: Channel Arm only
