FAQ

How do I change the arrangement of my displays?

The display arrangement can be adjusted in your operating system's Display Settings.

Can I set the number the monitor is identified as?

Windows will preset identifiers to the attached displays. If they match the physical orientation this identifier does not interfere with the arrangement.

My display is not working while connected to the VT80.

Please install the latest Silicon Motion USB Graphics drivers from: VisionTek.com

Make sure all cables are connected to the adapter.

Ensure the displays in the Display Settings arrangement are not set to Disconnect by default.

I installed drivers on my Mac system and there is still no display.

Please follow the instructions in the User Manual for adjusting security preferences on MacOS here. [User Manual](#)

How do I change the arrangement of my displays?

The display arrangement can be adjusted in your operating system's Display Settings.

Can I change the number on the monitor when I ask Windows to Identify Displays?

Windows will preset identifiers to the attached displays. If they match the physical orientation this identifier does not interfere with the arrangement.

How can I use my Windows laptop with the lid closed and connected to the docking station?

Yes. In the control panel Settings go to Power and Sleep Settings > Additional Power Settings > Choose what closing the lid does > Do Nothing (On battery and/or Plugged in)

How can I use my macOS laptop with the lid closed and connected to the docking station?

Go to System Preferences > Energy Saver > Slider set to Never

What drivers are required for the VT80?

The VT80 requires Silicon Motion USB Graphics drivers to operate. Please install the latest Silicon Motion USB Graphics drivers from: VisionTek.com

What Operating Systems is the Dock compatible with?

Windows 11, Windows 10, Windows 8.1, Windows 7, macOS

Can the VT80 connect to a laptop via USB-C?

Yes, you can use the included USB-A to USB-C adapter to connect to a USB-C port.

Can a display adapter be used with the VT80?

Yes, however, please use an active adapter when making signal type translations.

Is this VT80 compatible with non-4K displays?

Yes, this adapter will support resolutions below 4K.

Does the VT80 support DisplayPort MST daisy-chain connections?

No, the VT80 does not support this DisplayPort feature.
