New Vibrant color
combos on our popular
easels and carts

NEW! More Bamboo

For calming classrooms & a smaller
carbon footprint than metal options!

Why does mobility matter?

We polled our Idea Lab Teacher Advisory and they told us they rearrange their classrooms A LOT! That’s why we design all our products to be mobile and flexible; suitable for any learning environment indoors or out!

Real World Impact

2021 People & Planet Highlights

Every facet of our Giving Strategy, whether it be our commitment to the environmental education of children or our company-wide Employee Volunteer Program, is a representation of our people and what we value.

Supporting Teachers

This past year we have donated over 150 products and supplies to teachers in need across North America.

780 Acres Protected

In 2021 we protected 780 acres, making our total to date 1,430 acres of protected forests, wetlands and meadows. In addition, we have also assisted Nature Conservancy Canada in protecting 20,000 acres.

Trees for Schools Program

Even though some schools were closed due to the pandemic, we were still able to donate 4660 trees and 1340 wildflower seed packets to schools on Earth Day.

Plastic Packaging Removal

We have removed plastic from 90% of our packaging and we are on target to remove all of it by this summer.

Carbon Offsets

Over 5700 carbon credits were purchased in 2021 to help us offset approximately 75% of our carbon emissions. Our goal is to be carbon neutral by 2025, which focuses primarily on reducing our emissions and only offsetting what we cannot reduce.

Certified

B Corps are for-profit companies, certified by the nonprofit B Lab® that meet rigorous standards of social and environmental performance, accountability and transparency.

We are giving: 1% of our annual revenue at a minimum in these areas:

25%

of funds go towards kindergarten to grade 8 environmental education initiatives

10%

of funds go towards community initiatives

65%

of funds go towards environmental conservation initiatives

The planet is in a climate crisis, so reducing the environmental impact of our products is crucial.

We're growing our line of bamboo products to include more easels and carts! These products are a more sustainable choice than metal models because they have a smaller carbon footprint. Bamboo is a renewable resource that grows quickly and absorbs carbon, unlike steel which produces carbon.

Giving Back

For every bamboo product purchased, Copernicus will make a donation to conserve natural panda habitat through the World Wildlife Fund.

Check out our free Educator Resources about bamboo!

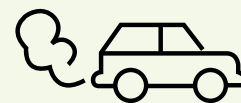

ENVIRONMENTAL IMPACT

Focus on Bamboo

Manufacturing this bamboo easel produces 38% less carbon than traditional alternatives.

Alex, our Social and Environmental Responsibility Coordinator recently completed a study of how much carbon our popular Bamboo Teaching Easel (see page 12) produced compared to our Royal Reading Writing Center (see page 14).

The results:

Our Bamboo Teaching Easel produced 38% less carbon than our metal model (that's the equivalent of driving a gas-powered car 91 miles/147 km).

You are awesome.
**You make
 a difference.**
 We thank you.

Copernicus Thank You Program

Educators, you have faced challenges like never before. To show our appreciation, every month we're giving away product, supplies you need or a contribution to your Donor's Choose project—your choice! [Sign up here!](#)

The Idea Lab

We thank our Idea Lab Educator Advisors for their unwavering support and guidance over the past year. You have helped us develop and test our new products under unusual circumstances, ensuring they are ready for classrooms, wherever they may be.

Join our team of educators! Participate in testing and evaluating new products, or simply provide feedback from time to time. While you are at it, you earn credits for everything you do that can be used towards outfitting your school with Copernicus products. [Learn more here.](#)

Meet our newest member of the Idea Lab: Robyn O'Drowsky

Robyn teaches Grade 8 at St. Joseph Catholic School in Fergus, ON,. She is happy to be back in the classroom and teaching in person—when she had to teach virtually, she turned the girls' changeroom into her online classroom!

Aside from preparing her students for high school, she's been focusing on helping them navigate their mental health. She's also been concentrating on Indigenous studies and getting her students involved in sustainability initiatives.

Lifetime Warranty

Lifetime warranty coverage on almost everything we make!*

We've Got Your Back Warranty

Forget those painful warranty claim experiences you have had! When you buy a Copernicus product (no matter where you bought it), you can have peace of mind knowing that we've got your back. Contact us directly if you have ANY problems or questions. Email us at: info@copernicused.com or call to talk to a human being at: 1-800-267-8494.

*The only exception to our lifetime warranty is on whiteboards (5 year warranty plus a replacement program), hand sanitizer dispensers (1 year) and our clear panels (2 year).

Have a well-used whiteboard that needs replacing?

Rather than sending your easel into the landfill, we now sell replacement whiteboards at a heavily reduced cost for all of our easels. So when the time comes to retire your whiteboard, we'll help get your easel back up and running in no time—it's a win-win for your classroom and for the environment.

Visit copernicused.com/warranty to register your product and to learn more about our whiteboard replacement parts program.

Teaching Easels

**It makes us happy when we hear teachers refer to our easels as
“The Command Central of the Classroom”.**

In conjunction with our Idea Lab Educator Advisory Team, we have loaded these easels up with teacher-driven features that work all day long in classrooms around the world; rounding up materials, fostering collaboration, and communication, displaying daily lessons and schedules, all in one compact footprint.

Pick your easel in three easy steps

- ✓ Child-safe design
- ✓ Durable build
- ✓ Teacher-driven features

- 1 What is the grade level?
Primary grades or early childhood?
- 2 How is the easel used?
Within a classroom, throughout a school or outdoors?
- 3 What kind of storage is needed? Storage for manipulatives or books?

**NEW color
combo
option!**

Our Reading Writing Centers have a new Vibrant tub color option.

"I couldn't resist the beautiful natural colors of this easel, and I highly recommend it to any teacher who is looking to create a calm classroom environment. I've had my Bamboo Teaching Easel for three years, and it's amazing durability keeps it looking new, year after year."

-Laura Santos, Third grade teacher, Blogger, California

Bamboo Easels

Bamboo is a sustainable and fast-growing plant and has a much smaller carbon footprint than other materials like metal. The tubs are made with 25% recycled content making this easel more environmentally sustainable than our other easels.

Bamboo Deluxe Chart Stand (shown - CS701 / CS701-VM)

This multi-purpose chart stand can hang both chart paper and pocket charts along with the ability to adjust the height of the whiteboard. This double sided magnetic dry-erase stand is a valuable tool for group and independent activities. Pocket chart not included.

Bamboo Early Learning Station (ELS2-S / shown on left page ELS2-VM)

With multiple activity-based features, the Early Learning Station is perfect for preschool to grade one classes. The station provides teachers with quick set-up and the ability to change lessons when needed.

Double Sided Bamboo Teaching Easel (BE1)

This easel was designed to bring natural elements into the classroom and is ideal for neutral or early year environments. Also available with 100% recycled post-consumer plastic tubs (BE1-RCY)

NEW!

Our most environmentally-friendly easel!

Single Sided Bamboo Teaching Easel (BE2)

This easel provides the same aesthetic but is more affordable. It has one whiteboard and no middle shelf.

See our free teacher resources to help with lessons about sustainable manufacturing.

Snap-on chart paper hooks

Stay on when bumped, flips paper easily and hangs a variety of sizes

Removable whiteboard

Many of our easels include whiteboards that can be removed from the easel and used wherever needed, including outdoors

NEW Vibrant tub color combo and made with 25% recycled plastic

Royal® Reading Writing Centers

Designed with teacher-driven features and built to last, our easels make classroom organization easier, foster collaboration and communication, and are handy for displaying daily lessons and schedules—all in one compact footprint.

Slide out tubs with safety stops

All easels have locking casters and some have foot-activated brakes

A note about our book ledges and Polyvinyl chloride (PVC):

Our book ledge used to contain environmentally-harmful Polyvinyl chloride (PVC). It is a work in progress, but we have nearly reached our goal of removing all PVC from our product line.

NEW Many of our easels are now available with a See-through Hinged Lid

Ultra-Safe premium book ledge with rounded corners and it locks into position so it stays put

A uniquely designed Big Book rack holds books firmly in place

Products shown in this classroom: NEW 2-in-1 Royal Teaching Easel with Portable Whiteboard (RC2IN1), Book Browser Cart with NEW deluxe tub pack (BB005-DTP) different tub color and size options available, Portable True HEPA Air Purifier (AIR1) and our Tabletop Easel (TTE100)

Royal[®] Reading Writing Centers

All of these easels are
Classic or **NEW V**

Classic combo

Premium Reading Writing Center (RC200 - shown RC200-VM)
This easel is the ultimate in storage with ten slide-out storage tubs, eight Tiny Tubs for smaller items, three book folders and chart paper hang tags. It is a versatile lesson center in one compact footprint.

NEW!

Royal Teaching Easel with Portable Whiteboard (RC2IN1)
This new take on a classroom favorite has all the useful features that educators need in a teaching easel, but with more flexibility by having a removable whiteboard.

Royal[®] Reading Writing Center (RC105)
This easel is an essential teaching tool. It includes a rear removable whiteboard that is double-sided (lined on one side), a Big Book rack, four slide-out storage tubs, Tiny Tubs for markers and two foot-activated brakes.

More features

now available with our vibrant tub combo!

NEW!

Vibrant combo

“I’ve had the easel for so long I cannot even remember. Likely going on 8-10 years. It is still in great shape! It is so handy that the whiteboard/magnetic board is on the same unit as the chart paper stand. Multipurpose for sure. My favourite aspect is the buckets that I can use to store my teaching supplies. Everything I need for the day is right at the carpet with me and the kids.”

S. Iredale, Grade 1 teacher, Avon Public School, Stratford, ON

[▶ See how our easel compares](#)

Classic Royal® Reading Writing Center (RC005 - shown RC005-VM)
This easel provides quick access to the tubs and includes a middle shelf to help keep everything organized. The rear removable whiteboard is double-sided (lined on one side).

Regal™ Reading Writing Center (RC107 - shown RC107-VM)
This easel is very similar to the Royal® Reading Writing Center, but with a single-sided rear whiteboard and no middle shelf or Tiny Tubs.

Basic Reading Writing Center (RC201)
The easel has the quality build of all our teaching centers, but is priced right for tight budgets. It includes five storage tubs, a Tiny Tub and chart paper hang tags.

More affordable

Inspiration Stations

Ideal for independent and group activities and with a pull out whiteboard, there is even more space to collaborate! This product is designed to help keep the classroom neat and tidy and is intended for single classroom use (not meant to move room to room).

Premium Royal Inspiration Station (IS3)

Chart paper hooks and telescoping hooks to accommodate wide pocket charts

Top shelf for teacher storage

Ten tubs for extensive storage

Ultra-Safe premium book ledge that locks into multiple positions

Standard Royal Inspiration Station (IS2)

This base model is the same as the Premium but with fewer storage tubs, no rear whiteboard and no enlarged magnetic dry erase surface on the front

"The whiteboards being on an angle is a great feature because the kids can really practice their hand writing and it's great for fine motor skills. The foot breaks make it a lot easier for me to put them on, take them off, move it around wherever I need it in the classroom. I find that the tub stops are a really good idea. It's a safety feature that is important to have on a moveable cart."

Melissa Downey, Grade 1, St. John Catholic School, Arthur, Ontario

Rear removable double-sided dry erase board with lines on one side

Front magnetic dry erase surface with slide-out board enlarges work area by 15" W

3" casters, 2 foot-activated brakes

Early Childhood

Early childhood education is an important part of a student's development. These products are designed to help young students build motor skills, explore creativity and textures, and are built specifically for smaller students.

Early Learning Station (ELS1)

This easel has a double-sided whiteboard, one side lined for students to practice their printing. It also includes a roll-up felt surface with corner ties and magnets to secure to the station. The frame folds easily for storage.

NEW Bamboo option! [See page 12](#)

Primary Teaching Easel (PTE78)

This easel has an extra long front dry-erase board that measures 40" H x 28" W to accommodate little learners and a rear removable felt board.

Clear Painting Easel (CS700-CLR-P)

This painting easel is built the same way as our popular chart stand but with a clear, 1/4" hardened acrylic board and a set of paint trays. The removable tray makes cleaning up easy and each paint pot has a spill-proof cap to keep the paint fresh for future use.

Double Sided Art Easel (PDR11)

The Double Sided Art Easel is a compact collaborative and creative sensory station. It has plenty of storage for materials and racks for drying artwork.

"The Double Sided Art Easel is great because everything is at the student's level so they can be completely independent from start to finish. It is great for fine motor skills with the clips and containers."

- Paula Kells, Kindergarten Teacher, Fergus, Ontario

All grade levels | Indoor

These easels have functional and flexible features to accommodate a range of grade levels, activities and price points. Learn more about these easels here.

“This chart stand is exactly what I was looking for! It is not bulky so it doesn’t take up a lot of space in the room. The magnetic dry erase board is great for students to use during our literacy centers. They can build words and sentences and write all in the same place! Another great feature of the stand is the pocket chart holder on the back. The storage bins are very sturdy and the book ledge makes it an all-in-one great product!”

-Jenisa Collier, First Grade Teacher, Bradie Shrum Elementary, Salem, Indiana

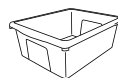

We have almost reached our goal of 100% plastic-free packaging! Our new paper pulp packaging is easier to unbox and easier to recycle!

Deluxe Chart Stand (CS700)

Bamboo Deluxe Chart Stand (CS701-VM shown at right)

These affordable chart stands are designed to be durable no matter where you are teaching. With a double sided whiteboard, storage tubs, chart hooks, telescoping hooks for pocket charts and height-adjustable upon assembly — they are a flexible teaching tool! These models are designed for indoor use with 2” twin wheel casters, two locking. Pocket chart not included.

Shown at right

Teacher Trolley (LLS100)

Resource teachers will love this trolley. With storage, a book ledge, and even a place for file folders, everything is ready to move!

Basic Chart Stand (BCS1)

This "no-frills" chart stand is ideal for tight budgets and is quick and easy to assemble. Tubs sold separately.

Tabletop Easel (TTE100)

A portable easel with one side lined, three Tiny Tubs and a marker ledge that can be set up anywhere needed and can also be used outdoors. Store inside.

All grade levels | Outdoor ☀️

Whiteboards and storage are key components in indoor and outdoor classrooms and these easels and carts provide different combinations of both that support a range of grade levels and activities.

Outdoor/Indoor Learning Center (OLC1)

This rugged cart supports a variety of outdoor activities and the large wheels and handles (similar to a wheelbarrow) make it easy to push over all sorts of terrain. The storage tubs and large rack hold up to 110 lbs! Store inside.

See page 43 for outdoor classroom storage

Outdoor Deluxe Chart Stand (CS700-EXT)

This stand is built just like our popular one for indoors but with large 5" casters, two locking, to make pushing over outdoor terrain easier. It also includes a handy hand sanitizer dispenser holder to help keep hands germ-free without having to make trips back into the school (sanitizer not included).

Pack and Go Whiteboard Easel (PGW01)

This handy easel is lightweight, has a comfortable shoulder strap for hands-free carrying, a marker pocket and a kickstand to set it up at an angle. The strap also allows it to be hung portrait or landscape.

Storage Solutions

After a busy day, having everything organized and in its place may sound like a pipe dream, but there is hope!

The first step in improving organization is finding the right storage solution. Our flexible and mobile options make cleaning up easier. With different tub combinations and sizes to hold all sorts of “stuff”, our carts and tubs will be a welcome addition in your classroom, library or STEAM/Makerspace.

NEW Bamboo Book Browser Carts

Our bamboo carts are a more sustainable choice than metal models because they have a smaller carbon footprint. Bamboo is a renewable resource that grows quickly and absorbs carbon, unlike steel which produces carbon.

This cart has a natural aesthetic better suited for neutral and early childhood environments. It can be used as a mobile in-class library, leveled reading programs, or for maker space materials and tools. These carts are the ideal height for students and teachers to easily view and choose a book.

The tubs can be removed from the cart and are available in many different color combinations.

ENVIRONMENTAL IMPACT

Focus on Bamboo

- By making our products from more sustainable materials, like bamboo, we are contributing to the United Nation's Sustainable Development Goal #12 called Responsible Consumption and Production Patterns.
- For every bamboo product purchased, Copernicus will make a donation to conserve natural panda habitat through the World Wildlife Fund.

A lid allows the tubs to be stacked and helps keep things tidy. The hinge eliminates the need to remove the lid when accessing materials inside, so no missing lids!

10 colors
to choose from!

Types of plastics we use

Post-consumer plastic

Uses plastic from items in blue boxes. Surprisingly, blue box items are often destined for the landfill, so this is the best type of plastic to recycle into products.

Post-industrial plastic (aka pre-consumer)

Uses plastic leftover from manufacturing. This ensures nothing is wasted; however it is made of virgin material to begin with.

Virgin (new) plastic

Uses plastic with no recycled content. This type of plastic uses the most resources from the earth.

Available with see-through lids

Large Open Tub in Black (CC4068-RCY)

The most environmentally-friendly choice — made with 100% post-consumer plastic

Large Open Tub (CC4068)

Large Divide Tub (CC4069)

Stubby Tubby (CC4074)

Small Divided Book Tub (CC4071)

Small Open Tub (CC4070)

Small Open Tub Clear (CC4070-C)

Manipulative Cleaning Tub (mesh bottom tub only) (SAN-CC4068)

Large Divided Tub Clear (CC4069-C)

Large Open Tub Clear (CC4068-C)

Really Big Tub (CC4073)

Tiny Tub

Many of our products include Tiny Tubs. (Not sold individually)

The Tech Tub® Advantage

Are your students taking their devices home at the end of the day? It's inevitable, devices will return from home uncharged at some point and classrooms without a charging solution will have bottlenecks at the power outlets. Tech Tub is a student-led device management system for charging, storing and locking up devices. Tech tubs can be placed anywhere in a school. [Learn more about the Tech tub family here.](#)

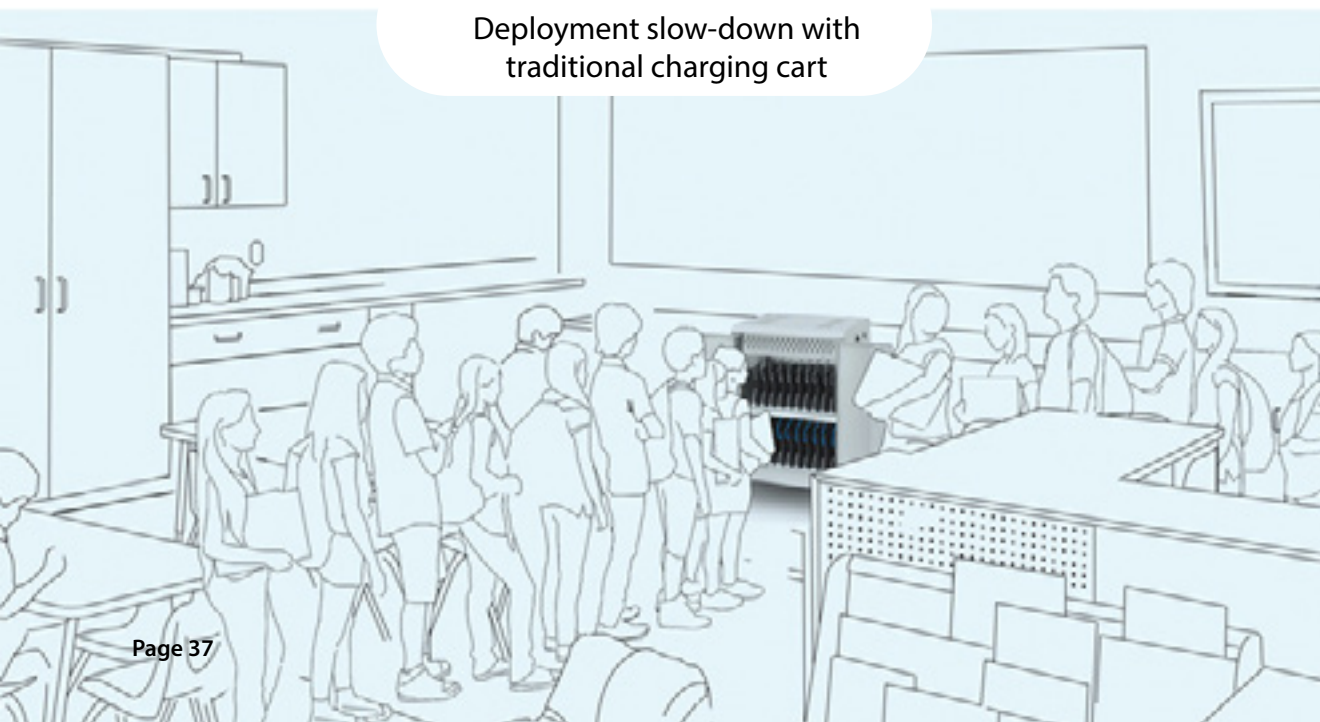

✓ Supports small class sizes and small groups

✓ Reduces deployment bottlenecks and encourages physical distancing

✓ Future-proofs for remote learning deployments

Deployment slow-down with traditional charging cart

“Tech Tubs have provided our district with an alternative to traditional laptop and tablet carts. They provide store and charge options for our classrooms which use technology in innovative and engaging ways that extend beyond whole-class instruction, like the blended learning station-rotation model or other small-group integrated learning environments.”

Luke S. Bilger, Technology Program Specialist, The School District of Philadelphia, Office of Educational Technology, Philadelphia, PA

Builder challenge group 2

STEM/STEAM Arts & Crafts Storage

STEM Maker Station - Premium model (STEM100)

This compact, all-in-one mobile cart has tons of storage to hold different sized materials. The handy pegboard keeps tools close at hand and there's even a tape/ribbon dispenser rack.

STEM Maker Station - Base model (STEM102)

This cart is the same as the premium model, but without the added Tech Tub, pegboard on the side or rear whiteboard.

3D Printer Cart Premium Model with Tub Pack 2 (TD5001)

These sturdy carts make sharing a 3D printer throughout a school easier. Our premium models have a slide-out laptop tray and two different storage configurations.

3D Printer Cart Premium Model with Tub Pack 1 (TD5000)

3D Printer Cart Base Model with Tub Pack 2 (TD5003)

These new 3D Printer Carts are ideal for schools that don't need a laptop tray (like our premium models) because they use a desktop computer or work wirelessly.

3D Printer Cart Base Model with Tub Pack 1 (TD5002)

STEM/STEAM

Arts & Crafts

Storage

STEM Storage Cart (LWSTEM)
This sturdy cart includes 23 tubs for materials, robotics and manipulatives. The tubs aid in color coding and can be removed from the cart. The removable, dry erase board is perfect for collaboration and sketching out ideas.

Clear STEM Storage Cart (BB005-9-C)
The three clear Large Divided Tubs and six Large Open Tubs keep manipulatives organized and make it easier to see what is in each tub. Also available with lids (BB005-9-C-L)

Multi-Purpose Cart (CC005-9-WBY)
This cart includes nine Large Open Tubs to hold just about anything; books, manipulatives, maker materials and tools.

40 racks

Double Sided Drying Rack (PDR40)

This portable drying rack is designed to sit on a counter or tabletop and includes 40 drying racks.

20 racks

When space is an issue, use this wall mounted art drying rack to protect and dry artwork. It includes 20 drying racks.

20 racks

Spring Loaded Paint Drying Rack (PDR20KD)

This rack is perfect for drying the masterpieces of budding artists and includes many useful features including 20 spring-loaded racks, rack spacers that can be personalized with name labels and more!

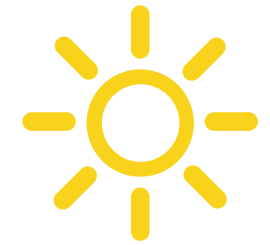

Complete Outdoor Classroom Cart (BC300-EXT)

This cart is designed to hold all the essentials for an outdoor classroom and with the heavy-duty casters it is easy to get everything moved outside. The Large Open Tubs store whiteboard slates, clipboards or other materials. There is a removable magnetic whiteboard on the back and the bottom racks hold seat cushions. There's even a hand sanitizer dispenser attached to the frame! Cushions, slates and sanitizer not included. Store inside.

Outdoor Classrooms

Many schools are using outdoor spaces for lessons, but getting everything outside in one trip can be a challenge. These durable carts make it easier to teach outside and can support the diversity of activities happening in outdoor classrooms.

Phys Ed Cart (BC300)

Durable and lightweight, this cart organizes all kinds of gym-related gear from basketballs to yoga mats. Store inside.

NEW!
