

HP Printing Voice Assistant (478C2A)

HP Printing Voice Assistant can improve the accessible print experience for people with disabilities

Help increase the productivity of your employees with innovative, intelligent voice technology that improves the usability of select HP products for people with a range of cognitive, physical, and vision-related abilities.

Designed with security top of mind, the HP Printing Voice Assistant relies on HP firmware instead of a public cloud connection or Bluetooth dependency without compromising its world-class performance.

The HP Printing Voice Assistant aims to make select HP devices more friendly and helpful for you personally by leveraging universal design principles to create an amazing experience for everyone, everywhere.
