CadMouse Pro Wireless - The Precision Ergonomic Mouse for CAD Professionals

Product Copy – Short

CadMouse Pro Wireless is the full-size mouse designed specifically for the modern CAD professional. Offering superior ergonomics, a dedicated middle mouse button, high resolution optical sensor, up to two months use between charges*, and 50 million clicks-worth of durability for the daily use CAD specialist, CadMouse Pro Wireless is the mainstay of any CAD toolkit.

*Battery life based on 8 hours per day, 5 days per week use

Product Copy – Mid-Length

CadMouse Pro Wireless is the full-size mouse designed specifically for the modern CAD professional.

Its superior ergonomic design includes ideal button distribution, an angled shape and incurvated thumb rest for a more natural hand placement, a dedicated middle mouse button created explicitly to suit a CAD professional's needs and a tactile, intelligent scroll wheel. Together, these create an experience that greatly reduces the discomfort of muscle and tendon strain encountered during long CAD sessions with standard mice.

With up to two months of use between recharges*, and three ways to connect, CadMouse Pro Wireless grants the flexibility and freedom CAD experts need in the modern landscape of CAD workspaces.

*Battery life based on 8 hours per day, 5 days per week use

Product Copy - long

CadMouse Pro Wireless – The Precision Ergonomic Mouse for CAD Professionals

CadMouse Pro Wireless was purpose-built for supremely comfortable use over long CAD sessions. Offering 3Dconnexion's exceptional precision technology in a full-size body, CadMouse Pro Wireless is the mainstay of any modern CAD toolkit.

Superior Ergonomics

Designed with an angled shape for a more natural hand posture and an incurvated thumb rest, gripping the body of CadMouse Pro Wireless feels completely organic. CadMouse Pro Wireless comes with a middle mouse button for application functions CAD professionals utilize every day. This provides a more comfortable, precise click requiring less force than scroll wheel clicks on traditional mice; in fact, less than half the force on average. Together, these features create an experience that greatly reduces the muscle and tendon discomfort frequently encountered during long CAD sessions.

Durability to Last

The average CAD expert clicks many thousands of times during a standard eight-hour workday. CadMouse Pro Wireless is designed to handle over 50 million clicks to its main buttons, giving users mechanical longevity a CAD professional should expect from a premium CAD product. The polytetrafluoroethylene (PTFE) feet are low friction and wear resistant, meaning CadMouse Pro Wireless will maintain smooth, precision movements long after the average mouse. 3Dconnexion supports CadMouse Pro Wireless with a 3-year warranty. This, combined with its built-to-last design, means CAD professionals will experience high-quality use of CadMouse Pro Wireless for many years.

Flexible Connectivity

Either via Bluetooth® Low Energy, the 3Dconnexion Universal Receiver, or USB cable, CadMouse Pro Wireless offers triple connectivity. Its rechargeable lithium polymer battery provides up to two months of wireless use between charges*, meaning heavy CAD users will spend more time working, and less time worrying about whether they need to check battery life.

*Battery life based on 8 hours per day, 5 days per week use

High Precision, With or Without a Cable

CadMouse Pro Wireless gives users the promise of zero smoothing, acceleration or filtering for precision results on every project. A high-resolution sensor and adaptive polling rate up to 1,000Hz create the ideal mouse for the CAD professional's daily working needs.

Simple Navigation, Easy Access to Applications

CAD users zoom in and out of models and drawings many times daily. The QuickZoom feature of CadMouse Pro Wireless makes this process simple. Press the thumb buttons to zoom in and out of the cursor's position; fine tune the zoom level by continuing to keep the corresponding button pressed.

An improved Smart Mouse Wheel 2 gives users precise click-to-click zooming in CAD applications and adjustable smart scrolling speed with inertia in documents and browsers, ideal for interacting with many-paged documents. This allows the user to find specific pages quickly and with ease.

Directly behind the Smart Scroll Wheel, the Gesture Button opens an application or environment-specific radial menu, giving users access to their favorite commands with a simple mouse gesture. 3DxWare 10 software allows for custom radial menus specific to user needs.

Carry Case Included

Changing locations is common with the modern CAD workstation and thus, the need to protect mobile devices on the go. 3Dconnexion includes a compact, lightweight, semi-rigid carry case to transport CadMouse Pro Wireless easily and safely.

Features and Functions

- 7 buttons (including dedicated middle mouse button, 5 programmable buttons)
- Ergonomic shape for comfortable CAD sessions
- Triple connectivity: wireless with Universal Receiver, Bluetooth or cabled
- High resolution, energy saving sensor
- Rechargeable battery lasting up to 2 months between charges
- Specially developed PTFE feet
- Customizable radial menu
- Smart Mouse Wheel 2
- QuickZoom
- Lightweight and durable carry case

Technical Specifications

- Optical sensor with 7200 DPI
- Rechargeable lithium polymer battery with 1100 mAh
- 3Dconnexion® 2.4GHz wireless technology
- Bluetooth® Low Energy
- Adaptive polling rates with 90Hz (Bluetooth), 125Hz (Universal Receiver) and 1000Hz (cabled)
- Dimensions (LxWxH): 126 x 74 x 44 mm / 5.0 x 2.9 x 1.7 in
- Weight: 140 g / 4,94 oz / 0.31 lbs

Supported Operating Systems

Microsoft® Windows, macOS
More information

Package Contents

- CadMouse Pro Wireless
- Carry case
- 3Dconnexion Universal Receiver
- Braided USB-C cable 1,5 m

Certifications and Registrations

CE, UKCA, EAC, FCC, IC, MIC, KC, RCM, BSMI, NCC, WEEE, RoHS-EU, RoHS-CN

Warranty

3-years limited hardware warranty
