XPG SLINGSHOT GAMING MOUSE

LIGHT AS A FEATHER

XPG SLINGSHOT GAMING MOUSE

XPG SLINGSHOT is an all-round gaming mouse offering a combination of high performance and gamer-tailored customization via XPG PRIME software. The :Exoskeleton design language is about finding the balance between form and function, and this is exemplified in the XPG SLINGSHOT via material choice, body design, and its gaming centered quality of life features. From the outer casing to the braided cable, SLINGSHOT weighs a mere 73g. SLINGSHOT features a PMW 3360 optical sensor, ideal for accuracy and agility focused games.
