K-Slot Lock Kit

for Wireless Keyboards & Other Accessories

K-Slot Lock Kit for Wireless Keyboards & Other Accesories

Add an extra measure of security to tablets, tablet cases, laptops, and more with CTA's K-Slot Lock Kit. This simple anti-theft device is comprised of a hinged metal panel, and plastic base with a peel-and-stick adhesive strip. The metal panel contains 3 K-Slot sizes that work with various sized locks. To use, affix the adhesive to the back of an enclosure, tablet, wireless keyboard, or laptop. Loop cable around a fixed anchor – like a table leg, bench, or pipe. Lock the included cable through the proper slot – either 3 x 7, 2.5 x 5.5, or 3.2 x 4.5. When not in use, the hinged plate lays flat for storage and transport.

Features:

- Adhesive plate with hinged metal panel sticks on the flat surface of devices and enclosures.
- Creates the ability to lock devices with no K-Slots
- Metal plate features openings for various cable locks: 3 x 7, 2.5 x 5.5, and 3.2 x 4.5.
- Keeps laptops, desktops, and other devices securely anchored to table legs, desks, counters, or permanent fixtures.
- Perfect for dorm rooms, reception desks, waiting rooms, retail counters and more.

Specifications:

- Dimensions: 12.4"L x 8.3"W x 0.9"D
- Cable length: 3.8"
- Weight: 0.5 lbs.

Package Includes:

- (1) 1 K-Slot adhesive plate
- (1) Security cable
- (1) Set of keys
