USB-C Power Adapter for notebooks and docking stations - great for home, office and travel

You don't need to lug your laptop's bulky AC power adapter between home and office anymore. The Manhattan USB-C Power Delivery Laptop Charger works as a second power adapter that you can keep at your place or in a traveling/commuting bag. You can also use it as a replacement adapter for your current USB-C- and PD-equipped laptop. It keeps your USB-C laptop, tablet or phone fully charged with fast and reliable power up to 100 W.

Wide compatibility with MacBooks®, Smartphones and more

This USB-C power adapter is compatible with a vast array of USB Type-C devices such as laptops, Chromebooks™, MacBooks and Ultrabooks™ from Acer®, Apple®, Asus®, Dell®, HP®, Lenovo®, Sony®, Samsung® and more. If you use a docking station (available from Manhattan - for example the Dual Monitor Desk Mount with Integrated Docking Station [model 461887]), this is the perfect source to get the maximum Power Delivery output from the dock injected into your laptop and to power or charge your connected devices.

Superior safety

Overload, overcurrent and overheating protection guarantee maximum safety for you and your devices.
