A Message from SANUS

Dear Valued Customer-

Thank you for making SANUS a part of your lifestyle. We truly appreciate your interest in the SANUS brand and personally guarantee your satisfaction.

What initially started as a simple plan to improve entertainment acoustics has grown to provide a wide variety of in-home entertainment solutions. While our technologies and products are constantly evolving to enhance experience and performance, our mission to provide safe, secure and simple solutions for all to enjoy has remained our top priority. We not only test our products to UL standards, but we also put them through an additional rigorous regimen to ensure that you have the highest-grade product available.

If at any time you find yourself with a question or concern, please do not hesitate to contact our customer service team, available 7 days a week, or simply visit **www.sanus.com** where you can locate product information, installation videos and other useful specific information.

We hope you enjoy the SANUS brand as much as we enjoy having you as part of our extended family. Thank you again and enjoy!

The SANUS Family

Customer Service

Expert Customer Service at Your Fingertips

Our attention to detail shows in both the quality of our products and the quality of our customer service.

- We stand behind our products with industry-leading warranties
 - Ten (10) years for metal video monitor mounts; all racks and non-electrical rack accessories
 - Five (5) years for plastic speaker mounts; all speaker stands; all furniture; all wood (MDF) accessories and SANUS electrical products
 - One (1) year for all motorized and/or automated products

Our customer service team is experienced and passionate about the consumer electronics industry.

- Service team members receive continuing and extensive hands-on training with every SANUS® product
- Service team members complete Certified Technology Specialists curriculum and testing from InfoComm International, a non-profit association serving the AV industry worldwide
- Customer service hotline team has direct access to product engineers to ensure accurate answers for all questions

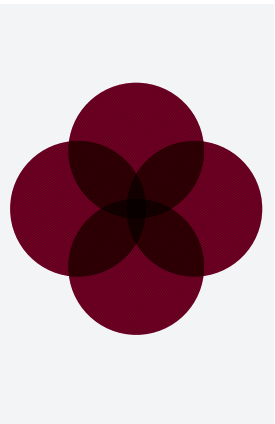

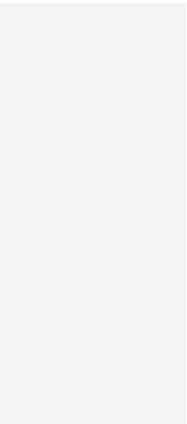

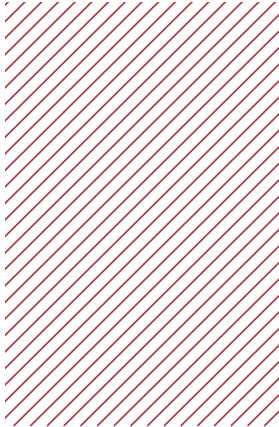

Customer service hotline is just a call or click away. Dial **1-952-225-6013** and press "1" for parts and tech questions or "2" for ordering. You can also email us at **info@sanus.com**.

Customer Service Hotline Hours

- Monday through Friday, 8 am – 9pm CST
- Saturday through Sunday, 10:30 am – 7 pm CST

Hotline staff understand the full functionality of our products and can provide tips and techniques for successful installations

Pricing and product specifications are subject to change without notice.

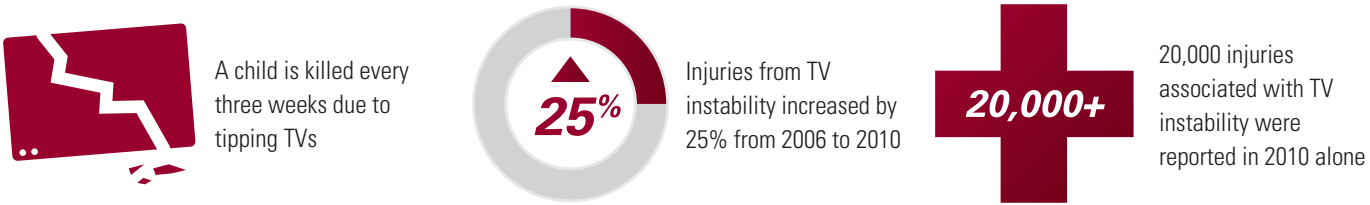

The In-Home Danger Hiding in Plain View

TV SAFETY - A GROWING CONCERN

Our homes are a safe haven from the dangers of the outside world. Unfortunately, they also house a growing danger that we use every single day. Our TV.

With their tall, thin structure, flat-panel TVs are very susceptible to tipping off of furniture, which can cause property damage, personal injury or even death. As the statistics below show, tipping TVs are a big problem.*

*Source: 2011 U.S. Consumer Product Safety Commission report titled "Instability of Televisions, Furniture and Appliances"

SANUS SAFETY SOLUTIONS

Our priority to create the highest quality products available is only matched by our drive to deliver the safest and most reliable ones. At SANUS, safety does not just end when products leave our door — we continually evaluate product safety procedures at our manufacturing facilities worldwide to ensure our products meet the highest performance and reliability standards.

TV MOUNTS

Mounting your flat-panel TV is a safe and secure way to avoid injury. And with a wide variety of TV wall mounts from SANUS, you're sure to find a perfect mount for your exact need.

FMS

A Furniture Mount System or FMS can greatly reduce danger in your home by attaching your TV to the back of your furniture. This no-drill solution will not only stabilize your flat-panel TV, but will also give any seat in the room a better view.

TV SAFETY STRAP

Simply secure ends of the safety strap to your TV, the wall and your furniture to easily minimize serious injuries to pets and loved ones.

The SANUS Safety Initiative

Safety is our top priority at all times. That's why we have launched a TV safety initiative designed to educate the public on the growing danger of tipping TVs and present safe solutions to protect families.

SANUS has partnered with Safe Kids Worldwide to help educate parents and caregivers on how to properly secure TVs in the home to keep kids safe.

SANUS has also developed TVsafety.org to share the importance of TV safety. It is our goal that together we can help to reduce TV-related injuries and create a safe environment for all to enjoy.

Our interactive site gives you the opportunity to share TV tip-over stories and data with friends, make a pledge to secure your home, and more.
Visit TVsafety.org to see a safer picture.

See TV tip-over danger firsthand

Comprehensive Product Information at the Click of a Button

The SANUS website leads the industry in usability and state-of-the-art development. Offered in nine languages and multiple regions internationally, it’s a one-stop-shop for information, including comprehensive product details and the latest SANUS news and press releases.

SANUS.com brings you:

- **New product information**
Stay up to date with our latest product introductions
 - **Detailed product specifications**
Get information on all SANUS products, including furniture, speaker stands, mounts and accessories
- **Product manuals**
Locate and download installation instructions for any SANUS product
 - **Support**
Find details on warranties, returns, exchanges and replacement parts
 - **Contact Information**

SANUS MountFinder™

SANUS MountFinder™ is a comprehensive TV and product database that takes the guesswork out of finding the perfect mount. Simply enter the brand and model number of your TV, and the SANUS MountFinder™ tool will display all compatible SANUS mounts.

If you are unsure of your model number or if your particular television or monitor is not listed in our database, our advanced SANUS MountFinder™ tool allows you to search for compatible SANUS products based on the physical specifications of your TV or monitor.

SANUS HeightFinder™

The SANUS HeightFinder™ tool helps you mount a TV at your ideal height by determining a drilling location based on your preferences. Simply enter your TV brand and model number, your SANUS mount model number, and your desired height information, and the SANUS HeightFinder™ tool will calculate the correct elevation to drill into the wall. This useful tool makes it easy for installers and DIYers to mount a TV at the right height for optimum picture quality.

Online Videos

You can watch installation videos, feature and benefit videos and motion videos for your specific TV mount online.

SANUS mobile m.sanus.com: Completely redesigned and faster than ever

Visit the SANUS mobile site for fast, easy access to valuable wall-mounting resouces. Helpful product information, product videos, and tools like the SANUS MountFinder™ and HeightFinder™ are all available at your fingertips using your mobile device.

The SANUS Install Tool Kit™ iPad and iPhone app makes finding and installing the perfect mount as easy as possible. Available through iTunes®, this free app puts helpful tools and information at your fingertips.

SANUS MountFinder™ Tool

The SANUS MountFinder™ tool matches TV brand and model numbers with compatible mounts.

SANUS HeightFinder™ Tool

The SANUS HeightFinder™ tool calculates ideal drilling locations based on personal TV height preferences.

SANUS ProSetLevel™ Tool

The SANUS ProSetLevel™ leveling tool easily calibrates to any surface, allowing a TV to be aligned to any nearby surface for an even appearance.

MyNotes

The MyNotes feature records, organizes and emails installation notes.

Mount Simulator

The mount simulator allows an iPad or iPhone to simulate a TV's range of motion when combined with a specific mount.

Why Mount

The “Why Mount” feature outlines the specific benefits of a mounted TV, including performance, space, style and safety.

Why Choose SANUS

The “Why Choose SANUS” app feature describes the Six Sides of SANUS with fast facts for each.

Which Mount

The “Which Mount” feature details the different mount motion types and when each is appropriate to use.

* Mounts are compatible with all VESA standard patterns for flat-panel monitors and TVs

Mount Compatibility / TV HOLE PATTERNS

SANUS wall mount products are compatible with virtually every television on the market. Television manufacturers use two different standards when designing the backs of their TVs to allow them to be mounted.

VESA

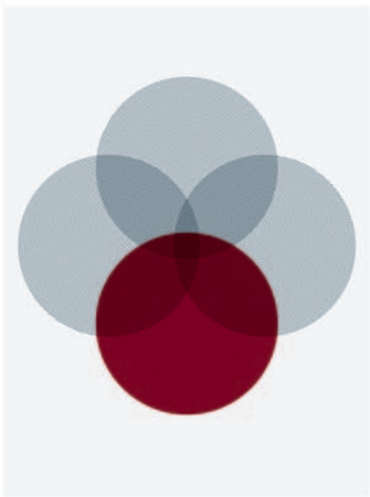

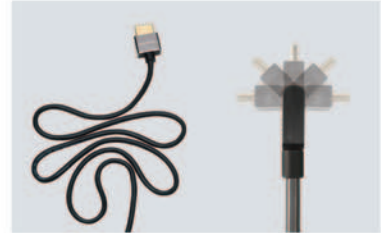

VESA is a standard that dictates the exact placement of the holes on the back of a TV. Typically, LCD flat-panel TVs follow VESA standards. There are several sizes of TVs and mounts within the VESA standards (75 mm x 75 mm; 100 mm x 100 mm; etc.) When purchasing a TV that follows VESA guidelines, it is important to choose a mount that uses the same VESA standard as the TV. The other critical element in choosing the right mount is to compare the weight of the TV to the weight rating of the mount.

RANDOM

The second concept is not really a “standard” at all. Rather, TV manufacturers who do not follow the VESA standards place their mounting holes on the backs of their TVs in non-conforming places. For these TVs, the SANUS brand makes “universal” mounts. This means there are brackets that can be adjusted back and forth to properly align with many mounting holes. When mounting a TV with a random hole pattern, in addition to choosing a “universal” mount, it is also critical to compare the weight of the TV to the weight rating of the mount.

SANUS Component Series Racks

Create the perfect AV rack for your unique installation

Designed with high performance and structural integrity in mind, our sturdy Component Series AV racks feature heavy-gauge welded steel construction, swivel casters for easy mobility and height-adjustable feet for perfect leveling and stabilization. Components stay cool with a unique convection cooling system, and quick-release back panels allow easy access to all AV gear. Choose between the completely pre-assembled 2100 Series Racks or the all new modular Stackable Skeletons racks.

NEW

MODEL
CFR1620
20U Stackable Skeleton Rack

DIMENSIONS (w x d x h)
20.4" x 20" x 35"
51.82 x 50.8 x 88.9 cm

RACK SPACES
20U

FINISH
Black – CFR1620-B1

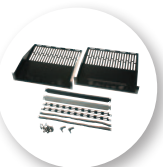

INCLUDES
(Qty 1) 1U shelf, 30 lbs/13.6 kg.
18"/457 mm deep
(Qty 1) 2U shelf, 50 lbs/22.7 kg.
18"/457 mm deep
(Qty 1) 1U blanking panel

Modular, stackable structure can be coupled with the CFR1615 into five different height combinations: 40U, 35U, 30U, 20U, 15U

Versatile racks can be mounted directly to wall studs for a more permanent organization solution in any room

Entire structure, complete with screws, removable shelves and blanking panels, ships in one UPS-shippable box

Modular rack structures are SANUS EcoSystem™ compatible

Self-aligning rack requires only four bolts for quick, easy assembly in less than 15 minutes

WEIGHT CAPACITY On Floor – 600 lbs / 272.2 kg | Wall Mounted – 200 lbs / 90.7 kg

Remove the junk from your rack

The new SANUS EcoSystem™ is a fully customizable accessory that serves as the single power source for all low-voltage equipment in a rack. Start with the MultiVolt Power Supply. This component features switchable outlets, 5 volt USB ports and 12 outlets. A temperature-regulating thermostat is also included. Then, add accessories to build a system that meets your exact needs. Available accessories include LED lighting, fans, temperature gauge and additional cables.

SANUS Euro Series Racks

Modular racks with a European flair

Euro Series racks creates a clean, modern look with a modular design that easily expands to fit any AV system. Wire management clips secure loose cables for a sleek appearance, and adjustable casters ensure the units always stay stable and aligned, even on uneven surfaces.

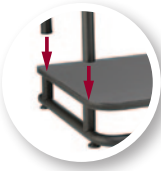

EFAV40-B1 / EFA31-B1 / EFSatb

Open architecture ensures constant airflow to keep components cool

Heavy-gauge steel frame offers incredible strength and rigidity

Customizable modular design expands to fit any AV system

SANUS AV Furniture

FEATURES AND BENEFITS / INNOVATIVE TECHNOLOGY

Convection Cooling System
Concealed venting allows heated air to flow out the top while drawing in cool air through the bottom, keeping AV components at a proper temperature

Cable Management System
Cable management systems help keep cables concealed and organized

Virtually Eliminates Resonance
Custom-engineered construction using strategically placed MDF virtually eliminates resonance

Solid Materials
Construction using hardwood veneers or solid hardwood frames offers an outstanding combination of stability, durability and style

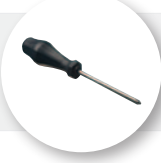

Elegant Glass Shelves
Extra-thick tempered-glass shelves are heat-treated for added safety, strength and shatter resistance

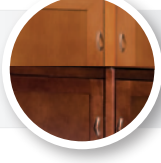

Designed To Handle Large Systems
Deep, spacious shelves are designed to handle even the largest AV systems

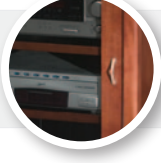

Sturdy Construction
Solid heavy-gauge steel construction offers strength and support in a clean design

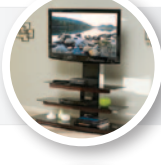

Easy To Assemble
Assembly hardware included for easy installation

Multiple Options
Versatile furniture lines offer multiple designs, sizes and finishes

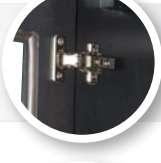

Versatile Designs
Select models feature expandable shelf options and interchangeable door panels to match any home décor and AV equipment need

Contemporary Style
Beautiful style and sleek finishes bring a modern look to any décor

Open Architecture
Open architecture design allows unrestricted airflow to keep AV components at the proper temperature for optimal performance

Furniture Mount System Compatible
Look for the FMS icon on all compatible furniture and accessories

Safety Strap Compatible
Select models are compatible with the ELM701 safety strap to reduce the risk of TVs or furniture accidentally tipping, creating a safe environment in any room

SANUS Furniture Mount System (FMS)

The perfect safety solution for any location

Protect your TV and protect your family with the versatile and stylish FMS01 TV mount. With this no-drill, safe and secure mounting solution, you'll be sure to have the best seat in the house from anywhere in the room. In addition to an innovative cable management system, small components can be attached to the back of the mount in order to hide cables and cords behind pillar for an organized, clean look. Plus, with a universal design the FMS01 fits nearly all 32" – 60" TVs up to 130 lbs.

SANUS Steel Series Furniture

Strength and style in an affordable package

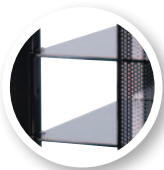

The SANUS Steel Series was created to complement large TVs and home theater components. Features include strong tempered-glass shelves, cable management channels and adjustable-height feet. Each piece offers heavy-gauge steel construction for extra strength as well as open architecture to allow unrestricted airflow to AV components.

Tempered-glass tops and shelves are extra-thick for additional support and safety

Cable management path neatly hides and safely routes wires and cables

Model SFA29 features adjustable-height shelves made of sturdy tempered glass

Adjustable feet ensure level and secure positioning on any floor

SANUS Vertical Series Furniture

Modern meets practical with Foundations Vertical Series

The Vertical Series combines the storage capacity of a cabinet with the discreet look of a low-profile wall mount, creating a versatile, stylish piece that complements any décor and streamlines any AV system. These wall-mounted AV stands feature adjustable tempered-glass shelves and generous cable and wire management channels, making them perfect for mounting directly under a TV.

VF5022-B1

Strong tempered-glass shelves can be vertically adjusted to accommodate any AV component arrangement

Post-installation height adjustment makes it easy to position furniture perfectly below a wall-mounted TV

VF5022 and VF5023 include interchangeable black glass and mocha-finished back panels to match any home décor

Generous cable management channels conceal and route power cables and signal wires

SANUS Speaker Stands

FEATURES AND BENEFITS / INNOVATIVE TECHNOLOGY

Optional Speaker Isolation
Brass studs or neoprene pads provide superior speaker isolation

Stability On Any Surface
Solid, high-mass construction offers stability on any surface

Resonance Damping Rings
Integrated resonance damping rings isolate speaker from vibrations for a clean, pure sound

Quality Construction Materials
Energy-absorbing MDF, solid hardwood or heavy-gauge steel construction increases sound quality by providing acoustic isolation

Acoustic Isolation Technology
Adjustable carpet spikes and polyester or rubber feet isolate speaker stand to reduce resonance and improve sound quality

Wire Management Path
Large integrated wire path or concealed wire channel organizes heavy-gauge cables

Contemporary Design
Unique designs include heavy-gauge steel, solid hardwood and MDF for a speaker stand built to perform with no compromising on aesthetics

Adjustable Height
Adjustable height allows speakers to be placed at optimum listening level

Easy To Assemble
Easy assembly can be completed in minutes with just a Phillips screwdriver

Resonance Reduction
Some pillars can be filled with shot for added stability and resonance reduction

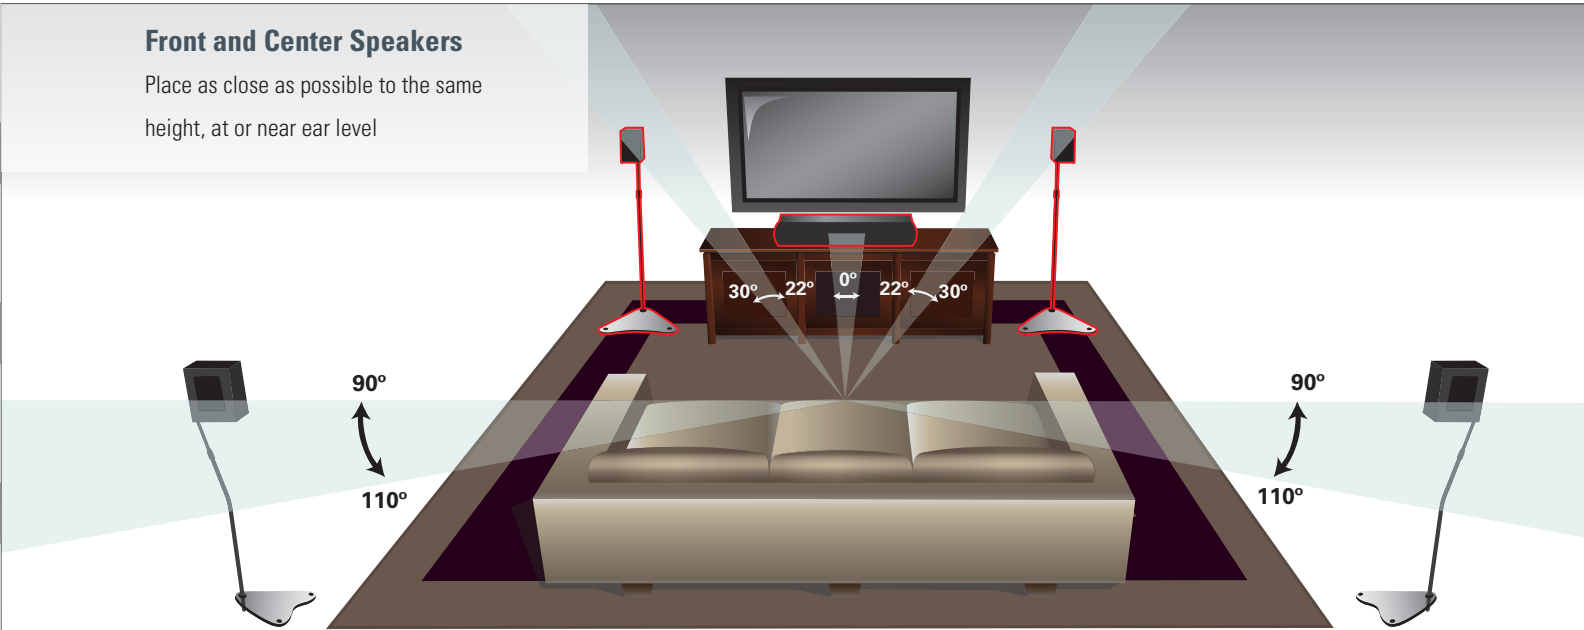

Proper Speaker Placement

FOR 5.1 SURROUND SOUND HOME THEATERS

Mounting and positioning speakers correctly can be more important to sound quality than choosing components. For optimal sound, the tweeter should be at ear level. For most installations, the correct height is around 40 inches (give or take 5 inches). Key factors that affect this are the height of the listener and the height of the listener's chair.

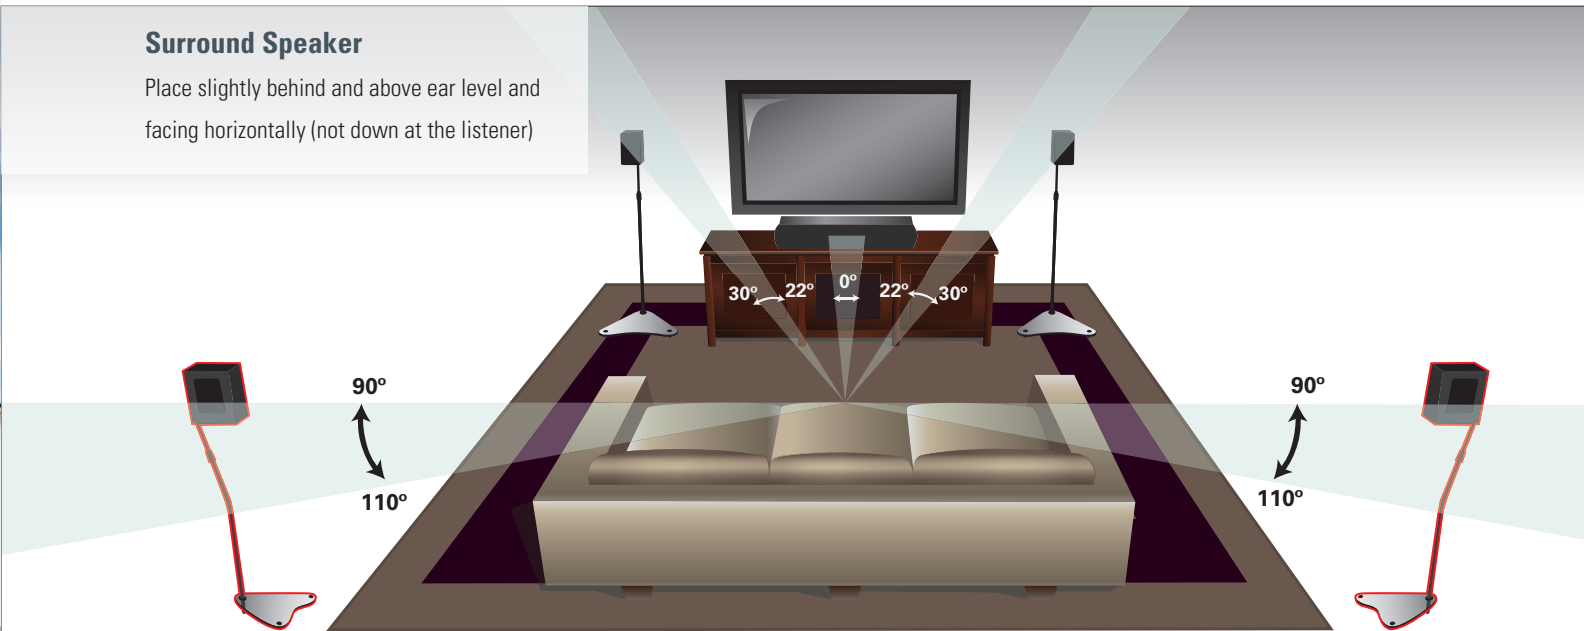

Front and Center Speakers

Place as close as possible to the same height, at or near ear level

Surround Speaker

Place slightly behind and above ear level and facing horizontally (not down at the listener)

Model NF30b shown with SANUS Natural Series models NFA245-B1 and NFV249-B1

SANUS Basic Series Speaker Stands

Solid construction and classic design for superior sound quality

Simple yet stylish, Basic Series stands raise any speaker to the proper listening height for great performance at an affordable cost. Energy-absorbing MDF construction increases sound quality by providing heavy weight for resonance reduction, while sturdy carpet spikes and neoprene speaker pads provide superior acoustic isolation for optimum sound quality.

Patented concealed wire path hides even the largest wires from view

Neoprene speaker isolation pads provide a soft, non-slip surface

Sturdy ABS plastic push-in spikes provide a solid foundation on most any surface

Energy-absorbing MDF construction increases sound quality by reducing resonance

SANUS Hover Series Speaker Stands

The first speaker stand designed to meet Dolby Laboratories’ specifications

The proper positioning of home theater satellite speakers is not as obvious as it seems. While many people enjoy sound reproduced from speakers at ear level, the correct positioning, according to Dolby Laboratories, is actually several feet above ear level. Enter Hover Series. These heavy-duty cast iron and steel speaker stands are the first ever that meet the placement guidelines of Dolby Laboratories. And they do so with rugged construction designed to hold speakers up to 10 lbs and include features such as adjustable height and a concealed wire management path. Plus, Hover Series stands include both straight and angled pillars for Dolby surround or direct listening. Get ready to hear what Dolby Digital really sounds like.

SANUS Natural Series Speaker Stands

Support speakers with the beauty of real hardwood

Our Natural Series speaker stands are constructed of beautiful hardwood for an organic, subtle look that will blend nicely with surrounding furniture. Each stand features a black lacquered base and top plate constructed of energy-absorbing MDF for optimal sound quality, separated by a hardwood pillar available in three finishes. With a concealed wire management channel, optional isolation studs and two foot options, it's a natural choice for any home theater.

NF24mo / NF249mo

Center-channel stand tilts speaker to focus sound using adjustable studs or neoprene speaker pads

SANUS Steel Series Speaker Stands

The perfect home theater solution

The ultimate speaker stands for serious audiophiles, each Steel Series stand features a heavy-gauge steel base and twin heavy-gauge steel pillars, which can be filled with sand or shot for added mass and superior vibration reduction. This heavy foundation is isolated from the top plate by cork resonance damping rings, resulting in an ultra-solid stand for superior acoustics.

SF26b / DFV50-CN1

Heavy-gauge steel construction provides extreme rigidity and stability

Large heavyweight base includes carpet spikes and rubber feet for ultimate stability on any surface

Center-channel stand tilts speaker to focus sound using adjustable studs or neoprene speaker pads

Cork resonance damping rings isolate vibrations to help provide superior acoustics

SANUS Ultimate Series Speaker Stands

The ultimate acoustics for a true audiophile experience

When SANUS engineers and Cramer Studio set out to design the Ultimate Series, they left no stone unturned in their quest for acoustic perfection. Each stand features an extra-heavy base, three heavy-gauge steel pillars and a top plate, creating a speaker stand weighing more than 80 lbs. This solid structure allows superior acoustic isolation and resonance damping for the clearest, cleanest sound possible.

UF34 / PFFPb

Wide triangular Nustone base with rubber pads or carpet spikes provides superior stability on any surface

Integrated Poron® rings isolate speaker stand from vibrations in the floor

Cork resonance damping rings reduce vibration for the clearest sound

Steel pillars can be filled with shot or sand for added stability

Model UF30 shown with SANUS Basic Series model BFAV344-B1

SANUS MOUNTS

BRING THE WORLD'S
MOST TRUSTED TV MOUNT
TO YOUR LIVING ROOM

Over 25 years
of innovative
solutions

SANUS Mounts

FEATURES AND BENEFITS / INNOVATIVE TECHNOLOGY

Super Slim Mounts – Complement the sleek look of ultra-thin TVs by placing them less than an inch from the wall

ClickStand™ – Holds TV away from wall for easy cable maintenance, then clicks securely back onto wall plate

FollowThru™ – An in-arm cable management channel that protects and conceals cables—even through the elbow—for a truly flawless look

Virtual Axis 3D™ – Available with MF202, MF209, MF215, MD115 and MC1A, this patented technology allows the mount and TV to move easily in every direction possible with totally fluid motion

Universal by Design – Mounting brackets featured on many mounts are designed with multiple holes to fit virtually any LED, LCD or plasma TV

Tool-free Adjustments – Available on tilting and full-motion mounts to enable your TV to tilt and swivel easily while maintaining the perfect viewing angle, all without the use of tools

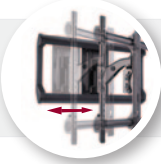

Cable Management – Wires and cables are easily routed, keeping them concealed and organized

Virtual Axis™ – A patented technology that allows smooth, effortless tilting motion. And because it balances the TV's weight on itself, you can move it with the push of a finger

QuickConnect™ – Connect and secure TV to wall plate in one easy movement

Lateral Shift – Allows horizontal movement of mounting brackets on wall plate for perfect TV placement, even with off-center studs

UL Listing – A nationally recognized safety standard listing granted to most SANUS mounts after rigorous weight capacity and angle hanging tests by Underwriters Laboratories® Inc.

Easy Installation – Complete in just minutes
1. Attach wall plate to wall
2. Attach brackets to TV
3. Hang TV on wall plate

PROSET™ TECHNOLOGY

PROBLEM
TV does not appear level with its surroundings

SOLUTION
Exclusive ProSet™ technology allows height and leveling adjustments after the TV is mounted.

Why Mount Your TV

Best Viewing Angle

Get the most out of your flat-panel TV by mounting it on the wall for optimal performance. SANUS wall mounts can extend, tilt and swivel, making it easy to find the best viewing angle and reduce glare from lights or windows.

Space & Style

You can create valuable space on top of furniture, or remove your furniture altogether for a clean, modern look in any room. Mounting your TV on the wall and out of the way is a great way to emphasize its sleek, thin design.

Increased Safety

Protect your family by mounting your flat-panel TV securely on the wall. It's a smart and secure way to prevent accidental bumping or tipping.

SANUS Full-Motion Mounts

WHICH TYPE OF MOUNT IS RIGHT FOR YOU?

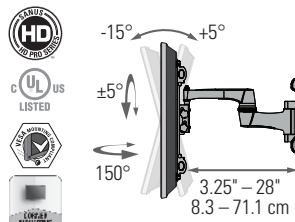

Full-Motion

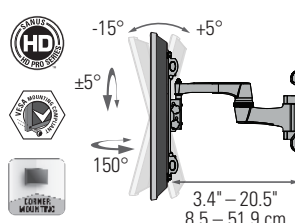

Full-motion mounts extend, retract, tilt and swivel in all directions. These flexible mounts are often the best choice for most households due to their versatility. A full-motion mount is recommended when multiple viewing positions are desired.

SANUS Tilting Mounts

WHICH TYPE OF MOUNT IS RIGHT FOR YOU?

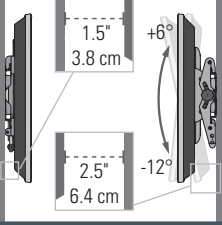

Tilting

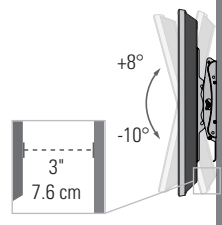

Tilting mounts tilt up and down for better viewing from the couch, bed or even the floor. A tilting mount is recommended when reflections from windows or lighting interfere with TV viewing or when multiple viewing angles are desired.

SANUS Low-Profile Mounts

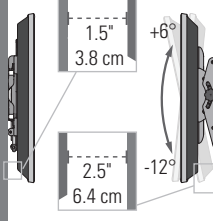

WHICH TYPE OF MOUNT IS RIGHT FOR YOU?

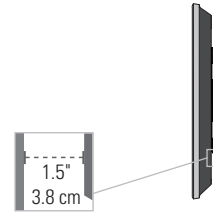

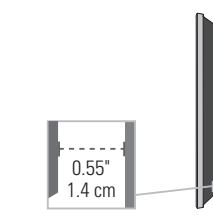

Low-Profile

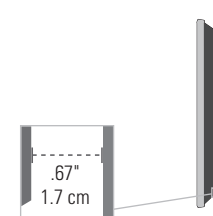

Low-profile mounts sit nearly flush with the wall to maximize the sleek, thin lines of flat-panel TVs. These mounts are a great choice when positioning a TV very close to the wall is an important consideration.

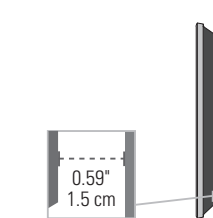

SANUS Low-Profile Mounts

SANUS Recessed In-Wall Box

The LR1A recessed box allows a TV to sit flush to the wall, so it hangs like a picture.

- 1. Cut a hole in the sheetrock between 16" on-center studs and set the LR1A inside.*
- 2. Finger-adjustable Quick Shims™ allow you to easily position and level the box and then secure it in place using provided hardware.
- 3. There are cutouts for signal and power cables on top and bottom.
- 4. Once the LR1A is in place, choose a full-motion mount (model LRF118, VM400, or MF215) that fits your TV.

* Safety note: Before cutting, ensure electrical wires or piping do not run within desired location

LR1A / VM400

Mount retracts neatly into in-wall box, enabling TV to sit flush against the wall

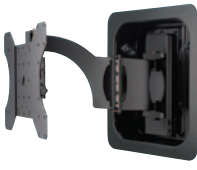

TV and mount pull away from in-wall box; full-motion capabilities readily available

Models LR1A-B1 and LRF118-B1 shown

The SANUS brand designs and builds fine AV furniture, stands and mounts.

Every SANUS product is engineered to enhance your AV system and the surrounding décor. Today the SANUS brand offers more than 300 different models of wood, glass and metal home theater products; TV stands and wall mounts; audio racks; and speaker supports to match any AV system or environment. SANUS products are available at thousands of retail locations worldwide and can be seen at the company's website, **www.sanus.com**.

PRODUCT WARRANTY

All SANUS products are covered by a limited product warranty.

- Ten (10) years for metal video monitor mounts; all racks and non-electrical rack accessories
- Five (5) years for plastic speaker mounts; all speaker stands; all furniture; all wood (MDF) accessories
- One (1) year for all motorized and/or automated products

Visit **www.sanus.com** for details.
