CONFIGURE™ 1 STREAM MIXED RECYCLING 45 GAL GRAY STENNI

The Rubbermaid Commercial Configure™ Waste Receptacle, Mixed Recycling Can, 45 Gallon provides a stylish way to collect recyclables in low traffic areas. Constructed of corrosion-resistant heavy gauge steel with a damage-resistant powder coat finish and contoured edges for a modern appearance, the garbage can fits any commercial environment. This single stream recycle bin has a color-coded label and a large open top for collecting recyclables. Magnetic connections allow receptacles to attach to one another and stay arranged in the order that best fits the space – in a row or an island. An easy-access front door and handle reduces strain on staff, while internal door hinges protect walls from damage. Inside the trash bin, a rigid plastic liner features handles for more comfortable trash removal, integrated cinches so bags won't slip and venting channels that allow air to flow into the can making removal easier. This container ships fully assembled.

FEATURES & BENEFITS

- Heavy-gauge steel recycler with a damage-resistant powder coat finish features contoured edges and magnetic connections that keep receptacles perfectly aligned to one another for a professional appearance
- Rounded easy-glide feet allow the container to be moved efficiently while a color-coded label and single stream open top reliably collect up to 15 gallons of glass recyclables
- An easy-access front door with handle allows for ergonomic removal of materials from the recycler while an internal door hinge prevents wall damage
- Rigid plastic liner with handles has integrated cinches for knot-free bag changes and built-in venting channels that allow air to flow into the garbage can for easier disposal
