

If you are looking for the most durable charging iPhone case for use in a healthcare environment.

## *Beam Makes The Case*

Beam is designed for healthcare professionals using iPhones to manage clinical workflows, such as EHR administration, secure texting, Wi-Fi telephony and camera-based scanning applications.

Beam is lightweight, durable and designed to resist the effects of bleach, alcohol-based cleaners and disinfectants used in hospitals today. Available with externally swappable batteries, 10-bay battery charger and a 1-bay charge dock. We keep your devices ready and available for work.

6' drop-rated, splash-resistant battery case with screen protector for the iPhone 14, 13 & 12.

USB port for charge in multi-bay charge cabinets and docks.

Disinfectant-ready plastics.

Swappable & rechargeable 2100 mAh battery pack extends your battery on long shifts.

Unimpeded access to the iPhone buttons and cameras, allows for easy operation of your iPhone.

Ergonomically designed.

The #1 selling iPhone case for healthcare systems.
