3M™ Floor Protection Systems

**The shine that goes  
on...and on.**

Floor care, reinvented by 3M Science.

3M™ Floor Protection Systems

# Long-lasting beauty that cuts your cost to clean.

First impressions are important, and your floors are one of the first things people see when they enter your facility. They need to reflect your image in the best possible light. Introducing 3M™ Floor Protection Systems—complete, scientifically designed systems that magnify the natural beauty of your stone and resilient floors and then *keep* them that way, while improving safety, reducing chemical use and minimizing labor. The result is floors that put the shine on *you*.

## Exceptionally durable

3M floor protector chemistries are patented with nanotechnology to help create a brilliant protective surface.

## For porous stone floors

Concrete

Marble

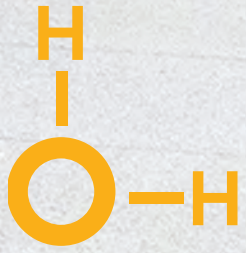

Terrazzo

Travertine

Limestone

### Fewer chemicals

Reduces the need for stripping or deep scrubbing once your floors are protected.

### High traction

Certified by the National Floor Safety Institute (NFSI) for "high traction."

### Easy maintenance

Simply dust or damp mop with 3M™ Neutral Cleaner to maintain the beautiful finish.

### Sustainable

3M floor protector chemical formulations are zinc free and low odor.

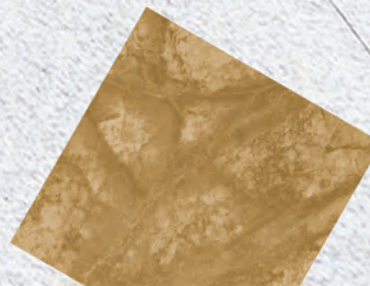

### For all resilient floors

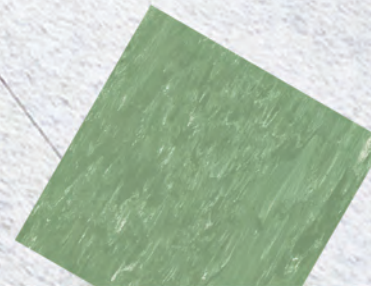

VCT

Vinyl Tile

Luxury Vinyl

Linoleum

Sheet Vinyl

## 3M™ Resilient Floor Protection System

# Reflecting a more sustainable image.

Durable, easy to install and cost effective, resilient materials are some of the most popular flooring choices available today. But resilient floors have a tendency to scuff, stain and pick up black marks easily. And maintaining the shine with conventional acrylic finishes requires frequent stripping with harsh chemicals to remove buildup.

The 3M™ Resilient Floor Protection System changes everything. It's engineered to maximize the beauty and safety of resilient floors, while making day-to-day maintenance fast and easy.

- Features an exceptionally durable protector that's four times more resistant to abrasion than acrylic finishes and dramatically reduces the need for stripping chemicals.
- The revolutionary 3M™ Easy Shine Applicator Kit can slash application labor costs by as much as 70%.
- It's a complete, sustainable system for making resilient floor care simpler and more cost efficient.\*

\*Compared to traditional acrylic floor finishes.

## Apply the durability.

Beautiful, low-maintenance resilient floors start with Scotchgard™ Resilient Floor Protector. This patented, nanotechnology formula is scientifically designed to create an exceptionally hard, protective surface that retains its gloss and resists black marks.

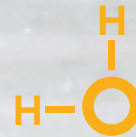

- The 3M™ Easy Shine Applicator Kit makes application faster, simpler and safer than messy mops and buckets.
- Initial hardness also builds 40% faster than acrylic finishes, so you can return your floors back to use sooner.

Certified by the National Floor Safety Institute (NFSI) for "high traction."

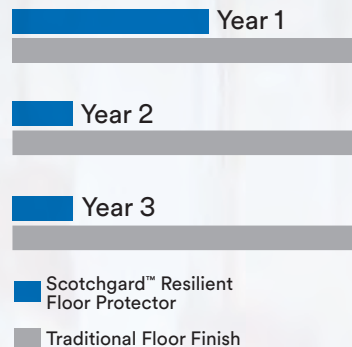

## Cut the chemicals.

Create a brilliant, natural-looking shine without stripping or deep scrubbing—eliminating exposure to potentially hazardous chemicals. Scotchgard Resilient Floor Protector can reduce your chemical usage by up to 60% (see chart below).

### Annual Chemical Use in Gallons

## Simplify maintenance.

Once your floors are protected with Scotchgard Resilient Floor Protector, maintaining the beauty is fast and simple. Black marks, scuffs and stains come off easily. And a single coat of Scotchgard Resilient Floor Protector once or twice a year is often all you need to maintain the beauty.

1. Use 3M™ Easy Trap™ Sweep and Dust Sheets to make quick work of daily dusting.
2. Damp mop or autoscrub with the 3M™ Red Buffer Pad 5100 and 3M™ Neutral Cleaner.
3. For deep cleaning before burnishing, use the 3M™ TopLine Autoscrubber Pad 5000.

## 3M™ Stone Floor Protection System

# Durable, easy maintenance floors that make *you* shine.

Stone is the ultimate in flooring materials. Whether quarried from natural rock or created from composites, it comes in almost infinite colors, textures and patterns. Properly maintained and cared for, no other flooring material can give your facility a more impressive image.

The 3M™ Stone Floor Protection System is scientifically designed to maximize the beauty, safety and easy maintenance of stone floors. It features the extreme abrasive power of 3M™ Trizact™ Abrasive Pads for restoration, the advanced hybrid technology of Scotchgard™ Stone Floor Protector Plus, and the proven performance of 3M™ Floor Pads, Cleaners and Application Systems. It's the complete stone floor system that reduces chemical use, boosts productivity and helps cut your cost to clean.

Certified by the National  
Floor Safety Institute (NFSI)  
for "high traction."

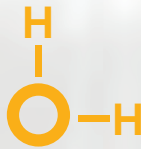

## Restore the finish fast and sustainably.

Give your worn stone floors a bright new life with 3M™ Trizact™ Diamond TZ Abrasive Pads. These advanced technology abrasives feature micro-engineered surfaces that cut fast and stay sharp, allowing you to bring out the original, natural beauty of your stone quickly and efficiently without harsh chemicals or the dust created during the traditional grinding process.

Environmentally preferable components in the stone floor protector reduce the need for stripping or deep scrubbing, ensuring a safer, more sustainable process—as well as a remarkable shine.

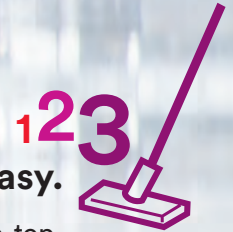

## Densify your stone.

Just two coats of Scotchgard™ Stone Floor Protector Plus creates an NFSI-Certified “high traction” surface that not only looks stunning, but also helps prevent slips and falls. That’s because Scotchgard Stone Floor Protector Plus is not a floor finish or polish. It’s a unique, hybrid technology that actually densifies and hardens your stone floors, leaving a glossy, natural-looking shine with superior traction.

- Quickly and efficiently applied with the 3M™ Easy Shine Applicator Kit, a unique backpack system that makes mopping obsolete.
- Makes stone floors highly resistant to scuffs, black marks, stains, scratches, soil, water and even corrosive hand sanitizers—for six months to a year without recoating.

## Maintenance made easy.

Keeping your stone floors in tip-top condition should not be a grind. That’s why 3M has designed a simple maintenance program that helps improve staff productivity and reduce cost:

- 1.** Make quick work of daily dusting with the 3M™ Easy Trap™ Sweep and Dust Sheets.
- 2.** Damp mop or autoscrub with the 3M™ Red Buffer Pad 5100 and 3M™ Neutral Cleaner.
- 3.** Burnish with 3M™ Tan Burnish Pad 3400.

# 3M™ Floor Protection Systems — Ordering Information

**Scotchgard™ Resilient Floor Protector** is a proprietary, high performance, water-based floor coating that protects and enhances the appearance of linoleum, vinyl tile and sheet vinyl. Recommended coverage 2,000 square feet per gallon when applied with the 3M™ Easy Shine Applicator. NFSI-certified high traction.

1 gallon bag, 2/case, Product #85861	2.5 gallon jug, 2/case, Product #85880
--------------------------------------	----------------------------------------

**3M™ Easy Shine Applicator Kit** helps reduce worker exposure to floor finish and accelerates application compared to traditional mop and bucket methods.

Applicator with 18" pad, 1/case, Product #55433
-------------------------------------------------

**3M™ Tan Burnish Pad 3400** combines black mark removal and gloss generation.

Multiple sizes available, 5/case, Product #3400
-------------------------------------------------

**3M™ TopLine Autoscrubber Pad 5000** is designed for deeper cleaning of floors prior to burnishing.

Multiple sizes available, 5/case, Product #5000
-------------------------------------------------

**3M™ Red Buffer Pad 5100** is designed for everyday cleaning and light scrubbing to remove light soil, scuff marks and black heel marks.

Multiple sizes available, 5/case, Product #5100
-------------------------------------------------

**Scotch-Brite™ Clean & Shine Pad** is designed to work on a low-speed scrubber, cleans and shines in the same step.

Multiple sizes available, 5/case, Product # varies
----------------------------------------------------

**3M™ Easy Shine Applicator Pad** is a washable and reusable 18" pad for the 3M™ Easy Shine Applicator.

18" pads, 10/case, Product #59646
-----------------------------------

**3M™ Easy Trap™ Sweep and Dust Sheets** are specially developed disposable sheets that simplify removal of dust, dirt and sand from floor surfaces.

8"x 6"x 30", 60 sheets/roll, 8 rolls/case, Product #59152W	8"x 6"x 125", 250 sheets/roll, 1 roll/case, Product #55654W
------------------------------------------------------------	-------------------------------------------------------------

**3M™ Neutral Cleaner Concentrate** is a no-rinse, low-foaming formula with proven compatibility and will not leave residue that can cloud or dull the floor appearance.

55 gallon, 1/case, Product #29644	2.5 gallon, 2/case, Product #59865
2 liter, 6/case (3M™ Twist 'n Fill™ System), Product #3L, 3H	0.5 gallon, 4/case (3M™ Flow Control System), Product #3A

**Scotchgard™ Stone Floor Protector Plus** is a high performance hardener and protector for concrete, marble, terrazzo and other porous stone flooring. Lower maintenance requirements than typical finishes; reduces floor maintenance costs. Improved water resistance.\* Zinc-free. NFSI-certified high traction.

1 gallon bag, 2/case, Product #86000
--------------------------------------

**3M™ Trizact™ Diamond TZ Abrasive Pads** are designed for refurbishing concrete, marble, terrazzo and other porous stone flooring. Gold/Coarse, Red/Medium, Blue/Fine.

Gold Trapezoid, 4/box, 4 boxes/case, Product #86018	Gold Strips, 3.75" x 9", 6/box, 2 boxes/case, Product #86025
Red Trapezoid, 4/box, 4 boxes/case, Product #86019	Red Strips, 3.75" x 9", 6/box, 2 boxes/case, Product #86026
Blue Trapezoid, 4/box, 4 boxes/case, Product #86020	Blue Strips, 3.75" x 9", 6/box, 2 boxes/case, Product #86027

**Scotch-Brite™ Sienna Diamond Floor Pad Plus** is a diamond-coated pad that cleans and conditions worn and dull concrete, marble, terrazzo and other porous stone flooring. Use prior to Scotch-Brite™ Purple Diamond Floor Pad Plus to bring floor to a medium shine if 3M™ Trizact™ Diamond TZ Abrasive Pads are not used during the restorative process.

Multiple sizes available, 5/case, Product # varies
----------------------------------------------------

**Scotch-Brite™ Purple Diamond Floor Pad Plus** is a diamond-coated pad for periodic maintenance with low and high speed equipment to help bring floors to a high shine.

Multiple sizes available, 5/case, Product # varies
----------------------------------------------------

\* When compared to original Scotchgard™ Stone Floor Protector.
