

Product Change Notification

Change Notification #: 119649-00

Change Title: Select Intel® Ethernet Server, and Intel® Ethernet Network Adapters, PCN 119649-00, Product Design, Label Swap Bracket Configuration and Add Controller Substrate 2nd Source

Date of Publication: August 21, 2023

Key Characteristics of the Change:

Product Design, Label

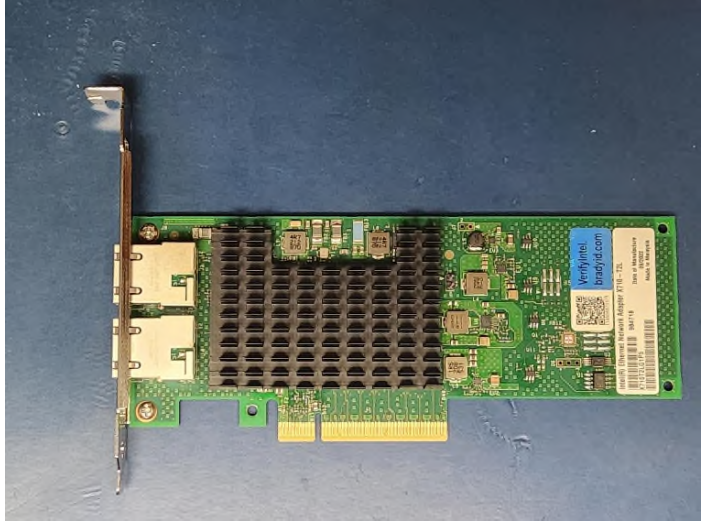

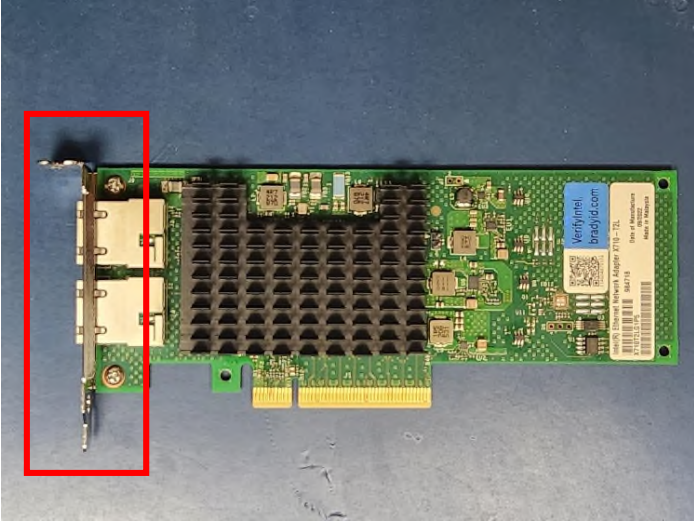

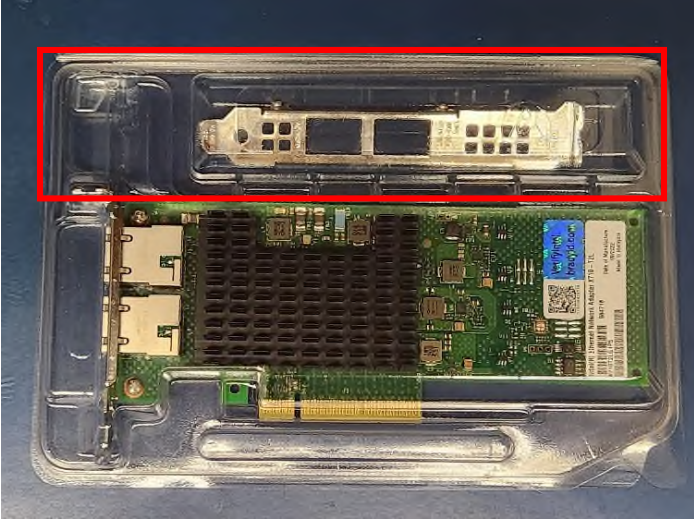

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material	September 11, 2023
--	--------------------

Description of Change to the Customer:

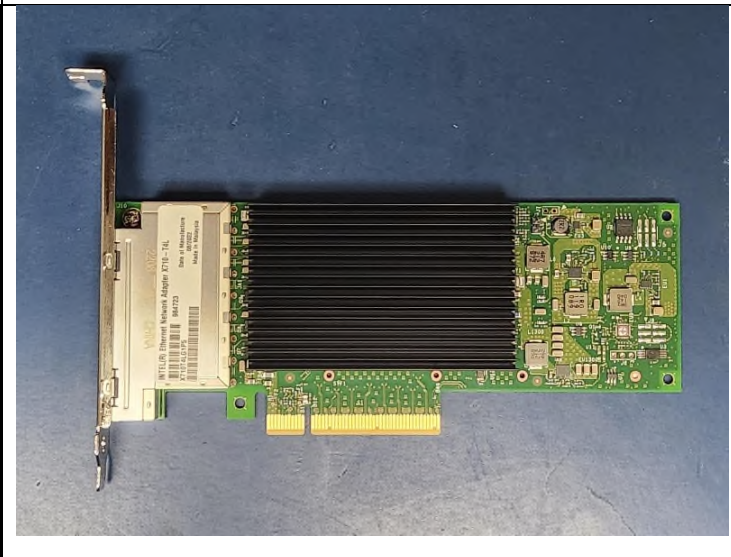

The Intel® SKUs listed in the products affected table below will have the following change(s):

1. The bracket shipping configuration will change for Intel® Ethernet Network Adapter X710-T2L, Intel® Ethernet Network Adapter X710-T4L and Intel® Ethernet Server Adapter I350-T2 OEM Gen products. These products will now ship with the Low-profile bracket installed on the adapter and the Full-height bracket loose in the clamshell pocket.

Previous Configuration X710T2LG1P5	New Configuration X710T2LG1P5
<p>Full-height bracket installed Low-profile bracket included in the package</p>	<p>Low-profile bracket installed Full-height bracket included in the package</p>
	
	

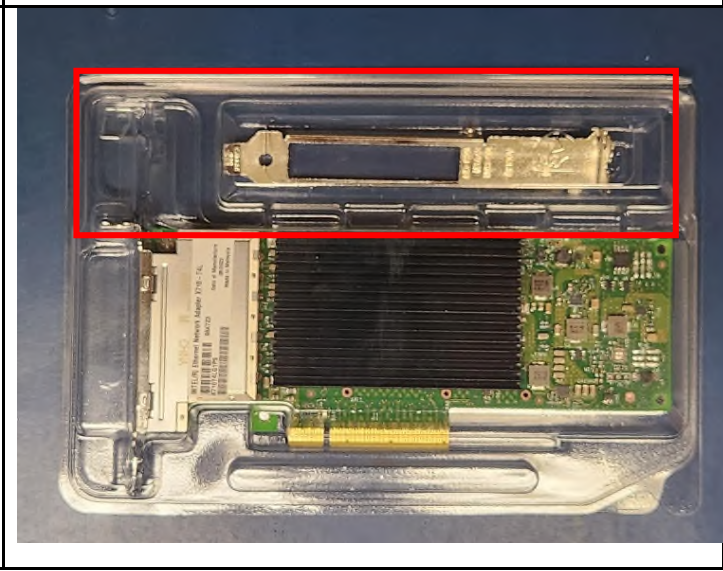

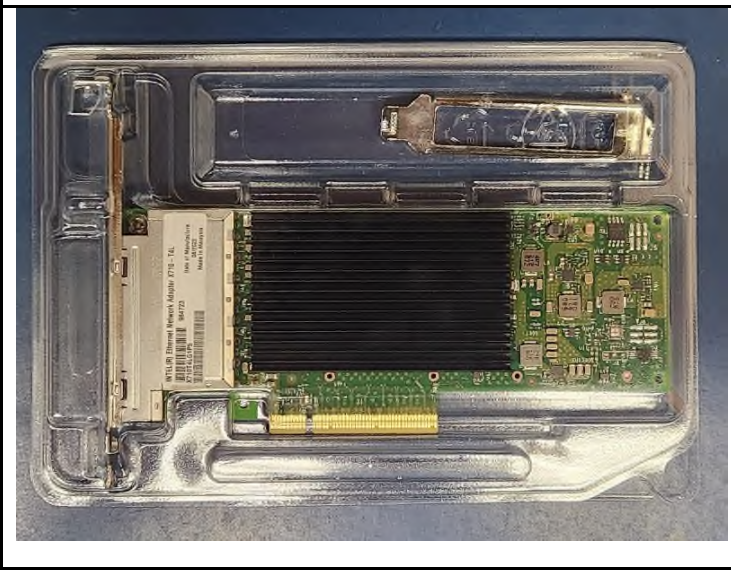

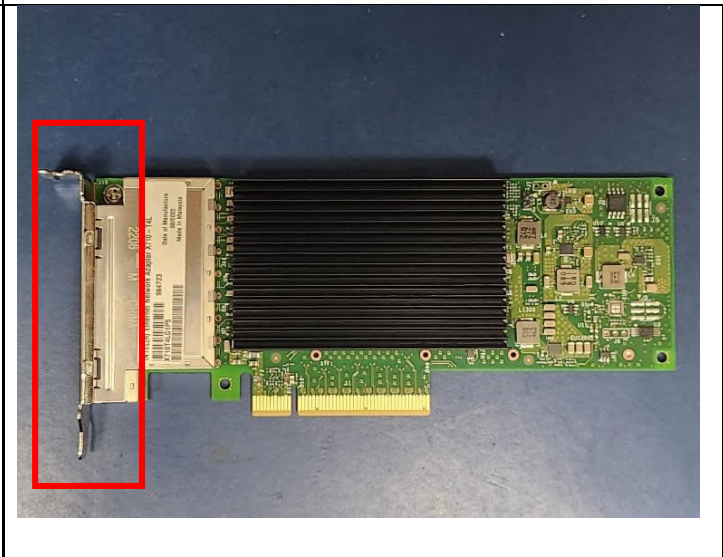

Previous Configuration X710T4LG1P5

Full-height bracket installed
Low-profile bracket included in the package

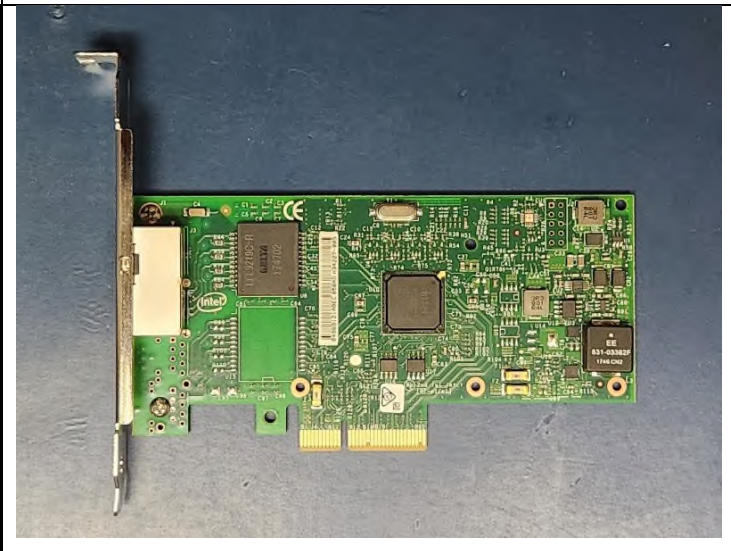

New Configuration X710T4LG1P5

Low-profile bracket installed
Full-height bracket included in the package

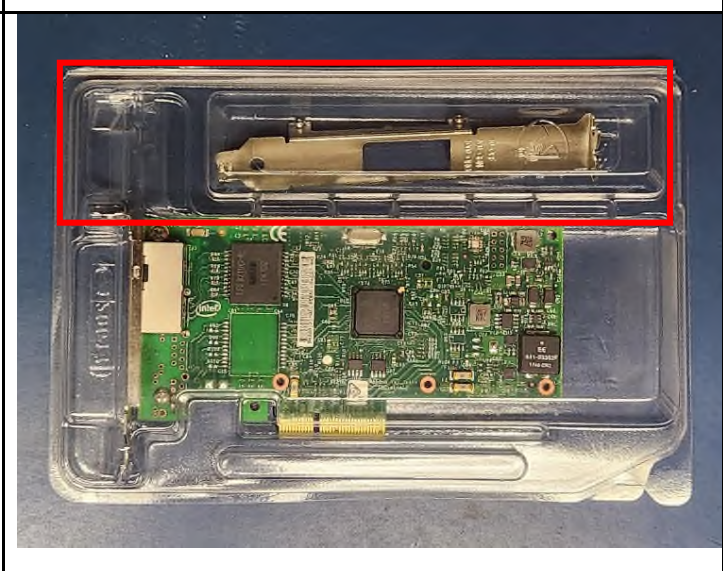

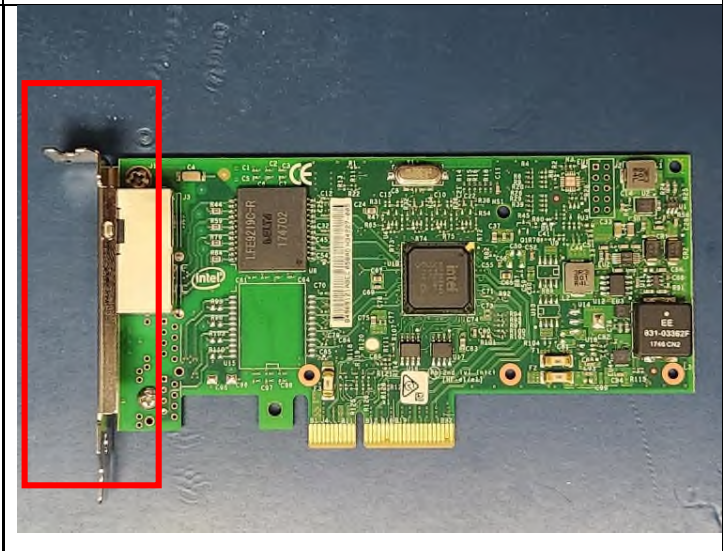

Previous Configuration I350T2G2P20

Full-height bracket installed
Low-profile bracket included in the package

New Configuration I350T2G2P20

Low-profile bracket installed
Full-height bracket included in the package

2. In addition, the Intel® Ethernet Network Adapter X710-T2L and Intel® Ethernet Network Adapter X710-T4L products will now have dual source controller substrate suppliers. To ensure continued production and uninterrupted supply of Intel® Ethernet X710-AT2 and Intel® Ethernet X710-TM4 Controllers, Intel has qualified another substrate supplier. There will be no functional change to the Ethernet controllers. The controllers with newly qualified substrate supplier will be marked differently, with an “I” added to end of current marking.

Controller	Current Supplier	New Supplier
Intel® Ethernet Controller X710-AT2	EZX710AT2	EZX710AT2 I
Intel® Ethernet Controller X710-TM4	EZX710TM4	EZX710TM4 I

The additional source has been certified and passed the Intel qualification process and qualification results confirm no change to product quality/reliability/functionality. The Intel® Ethernet X710-T2L and X710-T4L Adapter SKUs listed in the products “Products Affected / Intel Ordering Codes” below will use controllers from either the current or new substrate supplier.

As a result of these changes above, the PBA (printed board assembly) and TA (top assembly) numbers will roll as noted in the affected products table within this PCN notice. If the PBA/TA numbers are printed on any product or box labels, those will show the PBA/TA dash roll as well.

Customer Impact of Change and Recommended Action:

Intel anticipates no impact to customers, however customers should be aware of the changes and take appropriate actions to accommodate the changes and avoid impact to their processes for receiving or integration in their factories.

Customers can expect to receive mixed inventory until current inventory levels are depleted.

Please contact your local Intel Field Sales Rep if you have any further questions about these changes.

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
