

6.5ft (2m) USB-C® Male to USB-C Male Cable (20V 3A) - USB 3.2 Gen 1 (5Gbps) **SKU: C2G28883**

The USB-C® Male to USB-C Male Cable (20V 3A) - USB 3.2 Gen 1 (5Gbps) cable is the perfect solution for connecting two standard USB-C enabled devices or accessories for charging and data transfer.

Ensure that a USB-C equipped laptop, smartphone, or tablet is fully charged and ready to go with the 3A charging output, while simultaneously transferring photos, music, or data at speeds up to 5Gbps.

The USB-C connector has a symmetrical design which is identical on both sides, so no more worrying about whether it's upside-down or right-side-up. It will plug in the first time, every time—while preventing damage to the connector port.
