

TROY MICR TONER SECURE™

The World's Most **Fraud Resistant** MICR Toner™

Print Safe. Prevent Check Fraud.

MICR Toner Secure is the proactive approach you need to protect printed checks.
TROY is the sole source for MICR Toner Secure, the only MICR toner on the market that actively protects checks from fraud with patented technology.

Chemical Alteration

Chemical alteration attempts will release a red stain voiding the check

Toner Scraping

Toner scraping attempts are extremely difficult due to high adhesion of the toner

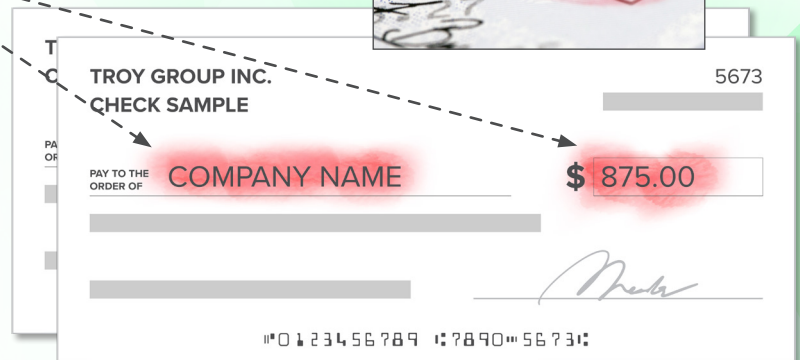

Quality & Reliability

Anti-tamper checks with high readability that meet ANSI & ABA standards

Patented Anti-Tamper Technology Prevents Check Alteration.

The primary purpose of MICR Toner Secure is to **easily add a layer of security** to your printed checks.

Fraudsters will typically alter the payee and/or the amount. This hidden layer of security has a **red dye that is released if chemical alteration** is attempted, voiding the check.
