

Voyager Focus 2: Simplified

HP|Poly is continuing to streamline our entire headset portfolio, making it easier than ever to stock and sell. We are excited to continue this effort with our Poly Voyager Focus 2, by introducing new SKUs with a USB-C charging port and the freedom to connect via USB-C or A. The new Poly Voyager Focus 2 SKUs will have the following changes:

New SKUs (Shipping May 2024)	Old SKUs
Headset with a USB-C charge port	Headset with a Micro USB charge port
USB-C to USB-C charging cable	Micro USB to USB A or C charging cable
USB-C to USB-A adapter (tethered to charging cable)	No adapter
USB-C Charging Stand (for applicable SKUs)	Micro USB charging stand (for applicable SKUs)

These changes deliver the following benefits to our customers:

Simplicity

Customers can support both USB-C and USB-A computers while managing a single headset SKU that connects to both.

Flexibility

Users gain increased freedom over USB port usage. Choose to connect via USB-C with the charging cable and BT700, or pivot to USB-A with the included C-to-A adapter.

Compliance

Complies with regulations in EMEA requiring a USB-C connection on our headsets. We can continue to meet the needs of our customers globally without disruption.

Additional SKU Transition Details

Beginning in April 2024, new HP SKUs with a USB-C charge port, and connectivity to both USB-C and A devices will be orderable. Shipping will begin in early May.

Through the remainder of 2024 and into 2025, we will sell down existing inventory of our legacy Poly Voyager Focus 2 with Micro USB SKUs, and transition customers to our new Poly Voyager Focus 2 USB-C. We do not anticipate any disruption to supply - customers will be able to order our existing Micro USB Voyager Focus 2 SKUs during the transition to the new USB-C Voyager Focus 2 SKUs.

Here is the new SKU list:
