# Our story

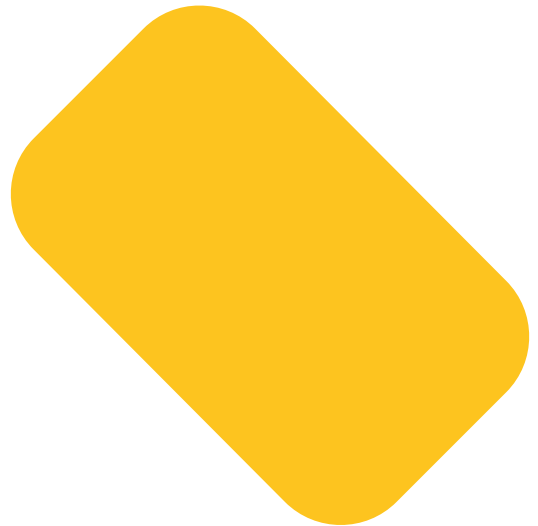

At Miniland we believe the world is a better place when we experience our children's growth as a collective journey. We are here to awaken, train and connect the huge talent and potential of parents, children and educators, creating together a world of happiness and shared self-realization.

grow  beyond

# Brand Vision

Build a better world for the community of parents and educators, a world in which future generations can attain and realize their finest dreams.

A world where being unique means shining with your own light.

# Our purpose

## Teaching About Diversity

We are here to awake and encourage the best of teachers and educators, a journey to create moments that mean something through creativity, learning and fun. We have a plan: grow together while enjoying the journey, so all children grow and shine with their own light.

As experts in educational toys, we empower educators to discover and nurture each child's talents, through the understanding of their emotions, development of empathy and respect towards their peers regardless of who or how they are. Contributing to a world that is more open-minded, inclusive and tolerant of diversity.

miniland

# Brand Manifesto

---

## **Hello world, we are here to tell you:**

We accompany each child from the moment they first open their eyes. We believe education and play symbolize a motor for growth in society's future.

Every child is a galaxy waiting to be discovered.

Educating does not mean protecting or indoctrinating: It means facilitating and admiring, connecting openly and naturally to awaken talent and help it flow. With the certainty of knowing that everything is possible and dreaming beyond that.

We are a brand devoted to the community of families and educators. It is time to celebrate that we and they together have an entire life ahead. From encouraging them to free their talent and create meaningful moments.

We are Miniland and we have a plan: To grow together, enjoying life. So that every child can find their own star and shine with their own light.

---

# Our Values

## Expertise

The rigor and confidence of teaching and learning with a smile, openly and collaboratively with the Multiplay Experience.

## Fun

We play to learn abilities and knowledge. We define fun as a form of learning.

## Smart

We create games and intelligent solutions that maximize the educating potential through our philosophy, The Multiplay Experience, and the physical and digital play method, Play Miniland.

## Growth

The challenge of encouraging diverse forms of exploring, discovering and awakening talent.

With the certainty of knowing that everything is possible and dreaming beyond that.

## Social

We see children's individual growth as a fluid journey propelled by an entire community of parents and educators.

## Care

Caring is not protecting; It means admiring so as to encourage; it is connecting in a healthy, natural way to make a difference on a daily basis.

# Create your Multiplay world

Inspired by Gardner's theory of multiple intelligences, according to which intelligence in children is not a single, static quality, at Miniland we believe that empowering twenty-first-century skills with multiple play experiences will encourage the formation of communities of educators and children inspired by active collaboration, collective creativity and continuous learning.

## Welcome to the **MULTIPLAY** experience

1. Our toys, tools and resources challenge young students to learn in a balanced way, evolving beyond current educational standards in harmony with the theory of multiple intelligences.
2. They enable educators to teach from multiple approaches while detecting each child's innate abilities, talents and intelligences.
3. And attain and surpass the different phases of educational development from multiple mental frameworks and detect each child's innate skills and intelligences.
4. Children will develop a deep level of understanding from multiple angles that enables them to put into practice what they learn, both inside and outside the classroom, individually and collectively.
5. The multiplay experience is a practical approach that promotes the multiple learning, combining play experiences based on physical and digital environments with Play Miniland ([www.playminiland.com](http://www.playminiland.com)).

## EXTEND YOUR GAMING EXPERIENCE WITH PLAY MINILAND

Play Miniland provides free digital games, extra activities and educational guides for educators extending the gaming experience of Miniland toys with the digital play.

### FAST FACTS

- Over 150 toys with an interactive version, educational files, activity guides, cut-outs, melodies...
- It helps educators to prepare the lesson and dedicate more time for what matters by providing extra activities ready to teach, ready to play.
- It favors evolutionary learning and immersion in content through curiosity and experimentation.
- Play Miniland is "teacher-friendly" - designed by educators for educators.
- 8 broad learning themes:
  - Health and Nutrition
  - Emotions and Values
  - Jobs
  - Mindfulness
  - Language and Arithmetic
  - Animals and Nature
  - Memory
  - Handling and Building

✓ Available to play online or to download from [www.playminiland.com](http://www.playminiland.com)  
Compatible with leading operating systems on the market.

# For a more Sustainable World

We are placing our grain of sand in developing eco-friendly toys that are more respectful of our environment.

Little ones will learn the importance of taking care of the planet we live in while having fun playing!

The toys continue to be highly resilient and durable which allow them to be used for a longer period of time and therefore also contributing to a more sustainable and responsible use.

## Sensory Balls

Set of natural rubber sensory balls. As they are made of soft material, they are very easy to grip and suitable for handling and biting by infants. Their different colors and textures enhance sensory stimulation - both tactile and visual - and contribute to the development of children's motor skills.

97314 / Page 15

## Eco Beams Building Set

A construction set consisting of 32 colored beams made of eco-friendly materials to reduce their environmental impact. It is designed to develop skills and abilities as well as fine psychomotor skills, concentration, perseverance, cooperation and teamwork. The didactic guide proposes 40 activities arranged according to their level of difficulty, which makes it suitable for use in different educational levels.

32150 / Page 117

Miniland's eco-friendly toys contain natural materials such as vegetable-originated fibers reducing their environmental footprint and not jeopardizing the toy's quality and overall properties.

The toys continue to be highly resilient and durable which allow them to be used for a longer period of time and therefore also contributing to a more sustainable and responsible use.

## Eco Chains

Set of colored links to make a chain, made of eco-friendly materials to reduce their environmental impact. Its design makes it easy to link them together and they can be handled by even the smallest hands.

32151 / Page 142

## Eco Nuts & Bolts

A set of large nuts and bolts, with the three basic geometric shapes: circles, squares and triangles. Screwing and unscrewing them enhances manual dexterity and visual motor coordination. Durable and highly resistant, they are made of eco-friendly materials to reduce their environmental impact.

32152 / Page 143

## Eco Minimobils

Miniland's classic Minimobiles, now manufactured in eco-friendly materials to reduce their environmental impact. These fun didactic resources stimulate learning about the physical and social environment and can serve as support in the first steps towards Road Safety Education. A robust and durable design, with very safe non-removable wheels and high-strength axles.

32153 - 32154 / Page 152 - 153

# INFANT TOYS

## Figuring out how the world works!

This collection helps early development of a child's social, intellectual, language, and problem-solving skills by developing eye-hand coordination as well as learning to recognize patterns and colors, how things are similar and different, and spatial concepts like "up" and "down."

# EMOTIONAL LEARNING & VALUES

## Exploring personal, social and emotional development in a fun and unique way

This collection supports and enhances a child's personal, social and emotional journey by using mainly a wealth of role-play dynamics that invite children to understand emotions, build self-confidence and ultimately increase awareness of the needs and feelings of others.

## MINDFUL KIDS, THE ALL-IN-ONE MINDFULNESS TOY PROGRAM

The giant Mindfulness spinning top is an entertaining educational resource with which to cultivate the full attention and curiosity of the very young, enhancing their ability to concentrate. Mindful Kids comes with six interchangeable discs, made of highly resistant material, which indicate the activity to be followed. Through these exercises, the children will practice different breathing, relaxation, yoga and meditation techniques and games, learning to recognize their emotions and how to channel them. Based on the Mindfulness methodology, the game dynamics of Mindful Kids turn this game into a powerful educational tool.

Complete teaching guide with detailed instructions and pictures to prepare your mindfulness sessions

**WITH MANY EXTRA RESOURCES TO PREPARE YOUR MINDFULNESS SESSION!**

Emotional Learning & Values

6 high resistant discs proposing 36 mindfulness activities for kids ,divided in 4 universes: 2 discs for conscious breathing, 1 for muscle relaxation, 2 for yoga and 1 for meditation.

### **PREPARE THE GAME**

Mindful Kids allows you to choose between 6 game discs depending on which need you wish to work on: conscious breathing, relaxation, yoga or meditation. The teaching guide illustrates the different exercises step by step.

### **CHOOSE A DISC AND SET THE TOP IN MOTION**

With the help of the pupils, carry out the activity that the lower part of the spinning top points to. You can find in included guide how to follow each activity or, even better, use Playminiland on-line interactive resources to follow the spinning top activities (step-by-step animations)

### **FEEL LIKE YOU ARE PART OF NATURE**

Help the participants to concentrate, through postural and breathing patterns, as well as the dialogue of sensations.

You will find countless digital and interactive resources, free of charge, at **playminiland.com**, to facilitate and liven up the staging of the spinning top activities (step-by-step animations, songs, ambient sounds and a timer for the sessions). On playminiland.com you may also find a digital library where you can access more game activities and dynamics, as well as two digital game programs (coloring mandalas and relaxing massages), all of which are available at no charge.

## BBQ Emotions!

This huge skewer helps kids recognize and manage their emotions. Two teams, playing either individually or in a group, recognize and interpret everyday scenes to then compare them and talk about the emotions that that same situation provokes in them. It makes it possible to work on up to ten different emotions through three game dynamics that are included in the didactic guide.

Content: 1 skewer, 1 base, 10 beads, 20 stickers, 10 game cards, 1 poster and 1 teaching guide.

Emotional Learning & Values

## GAME MODES

### CHOOSE THE EMOTION

The first team represents an everyday scene. The second team then has to insert the emotion or emotions that the scene has suggested to them on the skewer.

### HOW DO YOU SEE IT?

The two teams explain the different emotions the same situation has produced in them.

### TELL A STORY

The first team tells a story made up of five different situations. The opposing team has to complete the skewer with an emotion for each of the situations that have been narrated.

IT CREATES A FUN ENVIRONMENT IN WHICH TO EXPRESS EMOTIONS AND LEARN HOW TO DEAL WITH THEM

2-6 years

45401 UPC: 8413082454012

# Emoticons

Capsules that represent the basic emotions, which help to recognize and manage one's own emotions. The participants insert the game cards, which show everyday situations, or photos, drawings or other objects, into the capsules whose mood they suggest. This game can be played individually or in groups and all the capsules nest within each other for easy storage.

Content: 6 capsules, 10 cards and 1 brochure.

CPQ: 4 units 5 1/8" / Ø 2 3/4"

# SOCIAL SKILLS

## Understanding diversity, caring and emotions

Dolls are viewed as an object of comfort. They develop fine-motor skills and give children a venue to release their tensions in a safe way, along with helping them both to understand diversity and expand caring and vocabulary skills.

Because we believe that the world can be a better place, one that is tolerant and open to diversity, we in Miniland have designed a new line of dolls with which to foster inclusion, respect, understanding of emotions and the values of coexistence among children.

## Send a message

Send a Message enables kids to create messages in a cooperative and manipulative manner, promoting the structuring of children's language. It promotes the development of communication skills and helps develop language, the acquisition of new vocabulary and the structuring of phrases, stimulating oral production and active listening among equals. A first approach to reading with a playful communicative focus.

Content: 4 game boards, 64 pegs, 105 pictures and 1 teaching guide.

## SEND A MESSAGE

Helps children to structure language in a fun and very manipulative way. Very useful as a first contact with reading and writing, with a communicative and playful approach. Send a Message is an excellent resource for preparing language lessons, as it enhances the communication and oral expression of the players, whether playing in their mother tongue or with a multilingual approach.

It has three game dynamics, of increasing difficulty:

### Send Your Message

The challenge is that between them, all the members of one team has to stick pegs onto a base to create a message that the opposing team has to decipher as soon as possible.

### Detect The Intruder

Players are asked to detect the word intruder. The aim is to become familiar with the different semantic fields. Only two peg bases will be used for this game.

### The Crazy Message

The purpose of this dynamic is to work on children's creativity in a cooperative way. The participants have to send a message that they have made up spontaneously.

# MATH

## Making math fun!

It is important that kids are friendly with numbers and understand how they work. Here you can find a nice selection of toys encouraging kids to learn numbers, counting and numerical recognition. Color, hand-eye coordination and fine motor skills are also developed in a secondary level.

**Sorting Clothes Hanger**

Fun and educational from typical everyday situations such as hanging clothes on a rack. By classifying garments, kids will begin to take their first steps in mathematical reasoning (discriminating, differentiating and classifying) and will better understand atmospheric phenomena, while developing fine psychomotor skills and spatial vision.

Content: 1 card holder, 4 hangers, 1 base, 4 color cards, 4 atmospheric phenomena cards, 48 colored garments and 1 didactic guide.

CPQ: 5 18"

Includes Play Miniland digital version **Best Seller** **SN** Suitable for Special Needs  
**Intelligences:** 123 Logical & Math ABC Speak & Write Emotional Body & Move Visual & Spatial Musical Social Nature

18''

Before playing with the cards, participants should familiarize themselves with the atmospheric phenomena and the garments. They have to touch the figures, classify them and compare them in accordance with spontaneous criteria in order to work on oral expression and expand their vocabulary.

### **SORT BY COLOR**

The challenge is to select and sort garments by the color indicated on the game card.

### **CLASSIFY BY ATMOSPHERIC PHENOMENON**

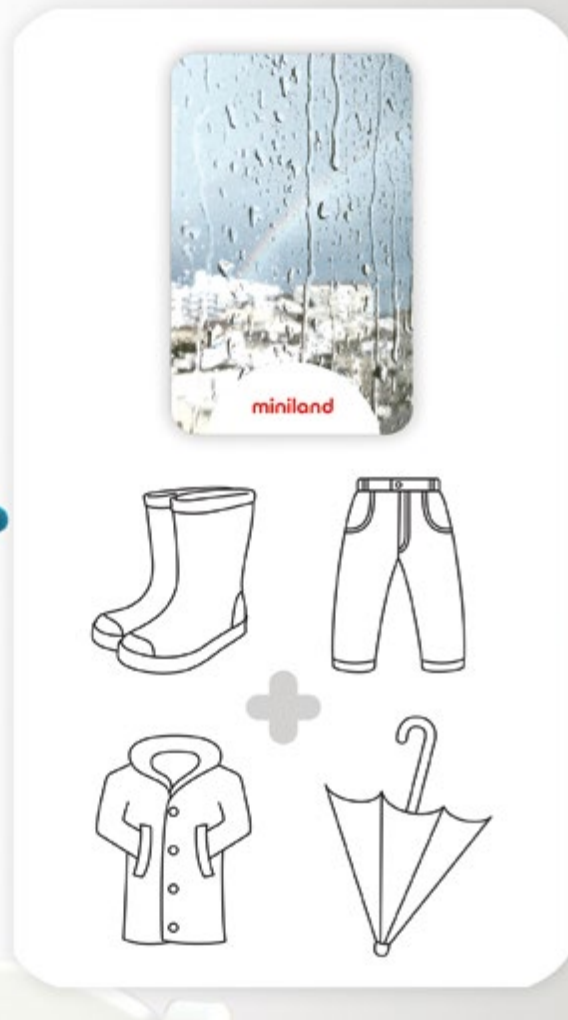

This consists of deciding which garments to wear depending on the weather shown on the game card.

### **POSITION RACE**

Divided into teams and taking turns, the players have to place the clothes one after the other according to the color of the card and the position and orientation of the hanger indicated by the game director.

They will learn the differences between atmospheric phenomena through the cards, which show a sunny, snowy, cloudy or a rainy day, and the garments represented in the figures. In addition, they will learn how to choose the most appropriate garments depending on the weather.

## ROCKET 10: we have a mission!

A launchpad to boost hands-on math manipulative play.  
A fun and powerful toy to promote the learning of basic fundamental math concepts through 3 game modes:

15<sup>9/99</sup>

## BREAKING DOWN THE NUMBER 10

The challenge is to find the number 10's complement, working in this way to break down 10 and other mathematical concepts such as:

- Number-quantity association.
  - Speed in counting.
  - Working with patterns.
  - Problem solving.

## ADDITION AND SUBTRACTION

Learn addition and subtraction concepts by adding and removing up to 10 pegs to fuel the rocket with the numbers that appear on the dice.

## ODD OR EVEN, WITH OR WITHOUT A PARTNER

The challenge is to carefully observe the distribution of the fuel pegs in the rocket in order to become familiar with the concept of odd and even.

Learning first notions of mathematical logic through hands-on play.

PLASTIFIED ACTIVITY CARDS

A collection of 5 double-sized cards illustrated with an activity on each side and 36 vehicles of different shapes and colors. There are 10 different activities in all, with 5 different game themes, in order of increasing complexity:

- ORANGE: Sorting in accordance with shape.
- GREEN: Sorting in accordance with color.
- RED: Number recognition and the use of numerical series to count vehicles.
- BLUE: Observation.
- VIOLET: Logic.

# ACTIVE & OUTDOOR TOYS

## Stimulating fresh creativity and well-being

Miniland outdoor learning toys encourages children to think of learning as an ongoing process instead of just something done in the classroom or at home.

Being outside, children's imaginations are often stimulated by the objects around them and they quickly tap into their creativity. With more room to play in, children are often more active when outside, which helps them build strong bones and good fitness levels and make them feel happier and calmer.

## Follow the Big Foot

A cooperation game consisting of the completion of footprint circuits to find hidden Bigfoot: For psychomotricity sessions with motor walkways, working on cooperation and laterality.

Content: 12 flexible footprints: 6 left + 6 right, 2 soft course die, 1 soft obstacle and distraction die, 1 BigFoot figure and 1 didactic guide.

CPQ: 6 units      Footprints: 8½"x3½"  
Dice: 5"x5"x5"

Includes Play Miniland digital version      Best Seller      Suitable for Special Needs

Intelligences:      Logical & Math      Speak & Write      Emotional      Body & Move      Visual & Spatial      Musical      Social      Nature

Activate full psychomotricity through cooperative play!

Complete up to 6 adventures and footprint tracks to find wherever Bigfoot is hiding!

A group of children are playing with soft dice and non-slip footprints. One boy is in the foreground, bending over to place a blue footprint on the floor. Behind him, other children are standing on similar footprints. A colorful box of the game is visible on the left.

Learn to cooperate and cooperate to learn.

**SOFT DICE  
AND NON-SLIP  
FOOTPRINTS**

Two colorful boxes of the game are shown, one green and one yellow. In front of them is an open didactic guide with illustrations of children playing. A red footprint is also visible in the bottom left corner.

The didactic guide describes incredible game dynamics using the dice to follow the trails and overcome obstacles.

**SUITABLE FOR PLAYING IN SAND AND SNOW**
