

Dell Proposed New SKUs 3/19/24

The background is a dark gray with an abstract geometric design. It features several overlapping triangles and thin, light gray lines that create a sense of depth and movement. The lines and shapes are primarily concentrated in the center and right side of the frame, with some extending towards the left.

Power Banks

Anker Prime 12,000mAh Power Bank (130W)

A1335011

130W High-Speed Charging

Enjoy the convenience of two-way fast charging with a total output of up to 130W, while a single USB-C port supports a maximum output of 65W for efficient charging.

Pocket-Sized Power

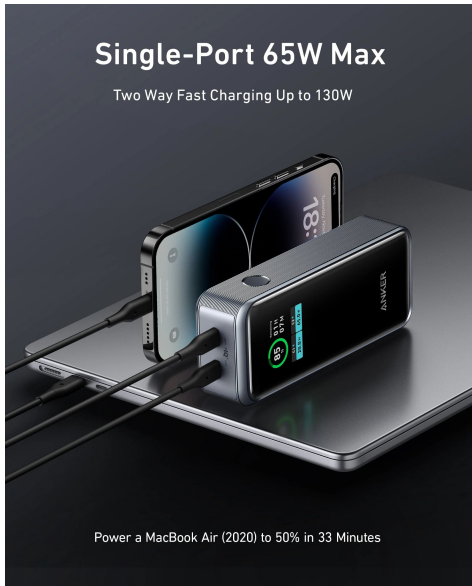

Take reliable power on the go with the power bank's compact and travel-friendly design, measuring just 5.29 × 2.17 × 1.36 inches in size.

Smart Monitoring

Stay updated with the smart digital display that provides real-time information on remaining battery capacity, power input, and power output, giving you complete control and visibility over the power bank.

High-Speed Recharge

The 65W rapid recharge via the USB-C port enables the power bank to be fully recharged in just 45 minutes.

The ultra-powerful portable charger (Charging stand not included)

Supports a Total of 200W Output

Equipped with two 100W USB-C ports. With the included 100W USB-C cable and charger, quickly charge a 16" MacBook Pro to 50% in just 40 minutes. Double your charging speed and save time on charging.

100W Input

The 100W rapid recharge enables the power bank to be fully charged in 50 minutes.

Huge 20,000mAh Capacity

This 20,000mAh battery packs enough power to charge a phone at least 2 to 3 times or a laptop at least 1 time—ideal for a short getaway.

Intelligent Display

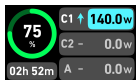

With its smart TFT color screen and vibrant user interface, the power bank meets both aesthetic and technological needs.

250W Multi-Device Fast Charging

Powered by the latest PD 3.1 technology, the power bank comes with 2 USB-C ports and 1 USB-A port to deliver up to 250W of power. Boost your MacBook Pro 16" (M2 Pro) to 50% in just 28 minutes.

Intuitive Smart App

Use the Anker app to quickly locate your power bank with sound alerts, access real-time stats, and optimize device battery life with smart charging.

Small Size, Huge Power

The power bank is the size of a soda can with a capacity of 27,650mAh and can charge a 13-inch MacBook Air (M2) 1.28 times or an iPhone 14 approximately 4.67 times. Please know that this power bank is 99.54Wh, which meets the requirements of the TSA(<100Wh) to be taken on airplanes as carry-on baggage.

170W Fast USB-C Recharge

Recharge your power bank at lightning speed with the convenience of dual USB-C ports, allowing you to fully replenish it in just 37 minutes.

Capacity	Output Ports	Outout Power	Input Power	MAP
27650mAh	2 x USB-C 1 x USB-A	140W single port 250W Total	140W single port 170W Total	\$179.99

High-Capacity 20000mAh 20W USB-C Power Delivery Power Bank

Ultra-high capacity

The massive 20,000mAh capacity provides more than 5 and a half charges for iPhone XS, more than 4 full charges for Samsung Galaxy S10, and over 2 and a half charges for iPad mini 5.

High-speed charging

Deliver an 20W high-speed charge to phones, Tablets, and more via the USB-C power delivery port or the Qualcomm Quick Charge-enabled USB port.

Certified safe

Anker MultiProtect safety system ensures complete protection for you and your devices.

Anker 737 Charger (GaNPrime 120W)

A2148112

Power 3 Devices at Once

With 2 USB-C ports and one USB-A port, you can charge your phone, tablet, and notebook all at once from a single charger. Connect a single device to charge at up to 100W.

Charge Up to 26 Minutes Faster

Our exclusive PowerIQ 4.0 technology features Dynamic Power Distribution, which detects the power needs of connected devices and adjusts power automatically to ensure faster, more efficient charging.

ActiveShield 2.0

Anker's proprietary technology enhances protection by intelligently monitoring temperature over 3 million times per day and adjusting power output to safeguard your connected devices.

Greener with GaN

If every household in the US used our GaNPrime™ products in place of non-GaNPrime™ products, the amount of power saved could be up to 796.39 million kWh per year—that's enough energy to power Hawaii for a full month.

USB-C

GaNPrime

Small and Lightweight Multi-Port Fast Charging

Features an exclusive stable design with foldable pins, and is 45.8% smaller than an original 96W charger.

High-Speed Charging

Thanks to an exclusive circuit design, each port can output at the highest speed. A single USB-C port can fully charge a MacBook Air in 1.5 hours or charge an iPhone 14 to 50% in 25 minutes.

Charge with Any Port

An independent circuit design allows you to fast charge when using any combination of ports.

Updated Security

The exclusive use of insulation on the pins ensures safety when plugging and unplugging the charger. Also designed using 100% flame retardant materials and fuses, and features temperature control technology that monitors temperature 3 million times per day.

Advanced Chip Technology

The world's first use of a 2-in-1 Gallium Nitride chip helps to reduce size while increasing charging efficiency by 16%.
