

9 HydraPort® Unit Enclosure with US Power Outlet

HPX-900BL-NA, Black Anodized (AMX-FG560-02B-NA)

HPX-900SL-NA, Brushed Aluminum (AMX-FG560-02S-NA)

Overview

The HPX-900-NA HydraPort® 9 Module Connection Port is a modular A/V table box for connecting mobile devices to projectors or displays in a conference room or classroom. This sleek, flush-mount table box is typically installed in a conference room or classroom table, featuring a uniquely-designed lid that conveniently opens in both directions to provide a clean, unobtrusive look.

No matter how you bring in your content - via HDMI, Ethernet, USB and other popular formats - you have access to the cable or connection you need, whenever you need it. The HydraPort Architectural Connectivity System uses simple, interchangeable modules to put together the exact future-proof configuration you need today and tomorrow.

Common Applications

- With 7 HydraPort Units available for modules, the HPX-900-NA is perfect for mid-size rooms that need the capability to connect several different device types to the AV system, and to provide convenient AC power to devices
- Included US power outlet puts power within easy reach, so devices can be powered & charged throughout the meeting
- The HPX-900-NA is designed for any conference room, classroom or boardroom that requires the capability to connect devices to the AV system, with an unobtrusive style
- With the capability to accommodate button modules, the HPX-900-NA is ideal for rooms that require an additional control interface at the table or lectern, or for smaller spaces where a keypad is the primary control interface

•

Features

- Future-Proof Modular Design – Features an assembly with the flexibility to change the modules to meet current and future needs
- Elegant and Unobtrusive – Flush-mount design installs cleanly into a lectern or table and the lid conveniently opens in both directions providing a sleek look
- No Electrician Required – The included US power outlet can be connected directly to a wall or floor outlet, eliminating the need for an electrician
- Control The Room – Add keypad or button modules to control A/V devices, lighting, & shades, as well as to initiate pre-programmed events like source selection or display power
- Available Brushed Aluminum – These stylish, low profile connectivity ports have the same contemporary brushed aluminum enclosure as high-end office furniture manufacturers, at the same price as most competitive painted metal models
