Wi-Fi adapter port. Only compatible with Elo Wi-Fi adapter P/N E131942

OSD Remote
Audio Out
Serial
HDMI 1
HDMI 2
DisplayPort
Touch USB-C +Video
Ethernet

Power, OSD, source select buttons

100 - 240V AC
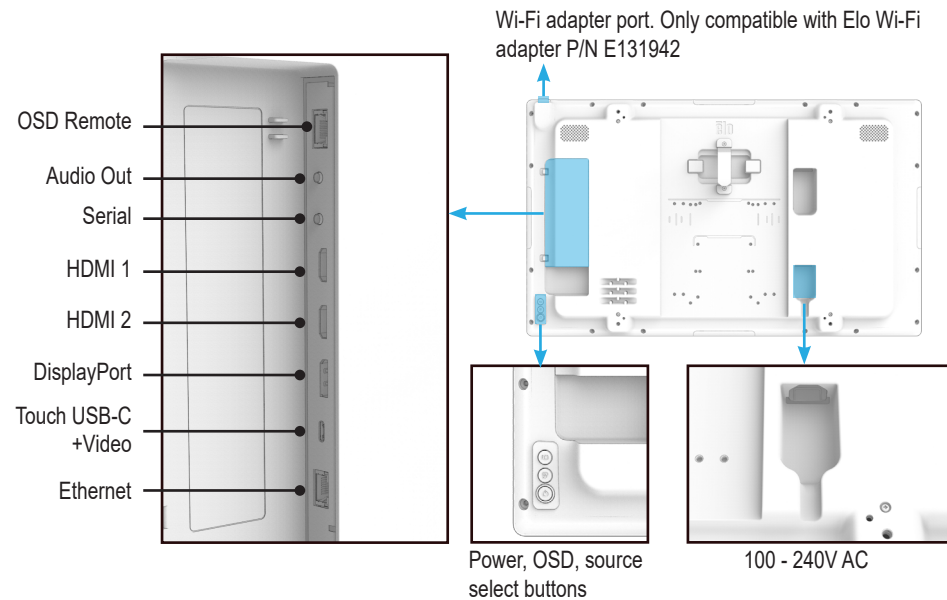

## 3. External Computer Mounting (computer sold separately)

100mm VESA pattern is available for the Elo Backpack™, Intel NUC, and other small computers with the same hole pattern.

Additionally, there are multiple patterns designed for select Brightsign players. Align the top of the Brightsign player with the horizontal marking and then center the player between the vertical markings to align the mounting holes on the player. Use M4x6 screws (included) to secure Brightsign players. See IDSx4 User Manual for detailed Brightsign Player compatibility list.

100mm VESA pattern
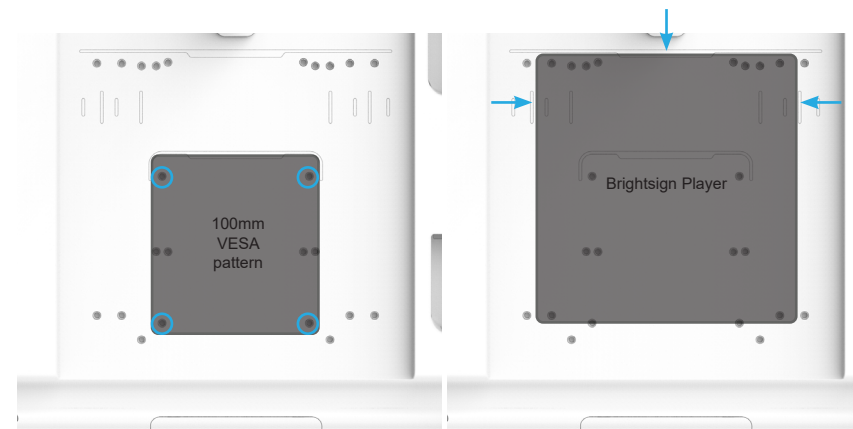

Brightsign Player

## 4. External computer power supply connection

Secure computer power supply with straps as shown below and connect power supply to IDS power output connection with the included cable. (Brightsign players require adapter which is not included). Connector DC cable from power supply to computer. Additional DC cable length can be wound up and secured under power supply before securing straps if desired.

Computer power supply

IDS Power output connection

IEC C14 to C5 cable included with IDSX4

Computer
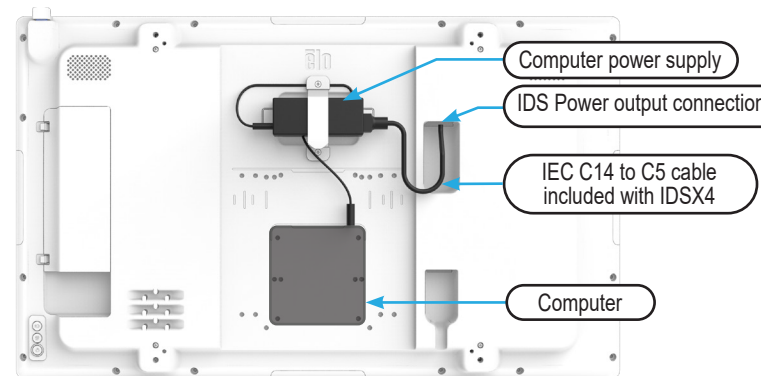

5. Elo Edge Connect Peripheral Mounting

Most popular accessories: 4K camera, Wall Mount, Magnetic Strip, 2D Barcode Reader. Scan QR code or visit:

https://www.elotouch.com/accessories.html
