No one gets left behind

Enable better collaboration in large rooms and elevate every meeting experience. With built-in AV AI technology, this all-in-one video bar makes communication effortless, so everyone feels included no matter where they are.

Big room? We've got you covered

The bigger the room, the more chances not everyone gets captured in the call. Easily extend audio and video as needed — just add Poly peripherals[1] to fit the needs of your space and easily join calls with the app of your choice.

Ready. Set. Join the call

Get your rooms ready in no time. The native cloud video experience simplifies setup, use and management, or you can connect to any standards-based video platform with full H.323 and SIP support. No PC needed. No tricky connections. No time to waste.

Sustainability in action

Built for a better tomorrow

Containing recycled plastics[2] and shipped in paper-based packaging[3] derived from at least 60% recycled materials, this all-in-one video bar enables more impactful meetings in large rooms with less impact on the environment.

Featuring

Participants in. Distractions out

Make your presence felt with Poly DirectorAI. Through AI and machine learning, an array of framing modes enhance your meetings by better capturing human expression. Remove unwanted distractions and confusion over who says what.

All eyes on the action

Distorted visuals can take away from having natural, life-like hybrid meetings. Enjoy rich and sharp images with the dual 4K 20MP cameras with 70° and 120° fields of view, ideal for large-sized meeting rooms.

Never miss a beat

Set the stage for effortless collaboration. With an innovative acoustic chamber design, this all-in-one video bar delivers immersive, crisp sound across the room, while the beamforming microphone array makes sure every voice is heard.

Zero in on the conversation

Experience audio quality that fuels collaboration and productivity. Using advanced AI and machine learning, Poly audio innovations provide noise cancellation and voice clarity creating a focused call that brings everyone together.

Adapts to your needs

Expand your video conferencing setup seamlessly by connecting additional cameras, microphones and other peripherals over Ethernet for a simple, cost-effective, and scalable setup. For a more immersive experience, connect a third display via USB.[4,5]

Choose your app. Join the call. Done

No need to learn how to use a new video call platform – the Poly Studio X72 is our most flexible all-in-one video bar to date, working with the apps you already know so you can join calls seamlessly without missing a beat.

Every device, under your control

More visibility and easier management make the IT team happier. Deploy, configure and stay up-to-date on the performance of your all-in-one video bar and connected Poly devices with Poly Lens cloud-based management software.
