

Floortex Logo Mats promote your company or brand as customers enter your business. A well made logo mat will provide a lasting positive impression.

Floortex Logo Mats are high quality mats that efficiently keep floors clean, dry and safe. At the same time you have the opportunity to present your logo, message or even an image of a product.

All Floortex logo mats are available with no minimum quantities or set-up charges. Stock sizes are available from 35"x47" up to 68"x143". Should coverage of larger spaces be required, custom sizes of 20 feet or more are available.

To ensure Floortex quality standards are met all mat imprinting is done in Canada.

The **Floortex Indoor Hi-Definition** mats are a printed nylon mat that offers up to 10 times the definition of a regular printed mat.

A key advantage with this mat is the imprint coverage can run from edge to edge and Pantone colours are available.

In addition to its stunning looks the performance is outstanding. These Wiper mats handle medium to heavy traffic flows of up to 1,500 people per day. As you would expect from a heavy traffic mat the dirt and moisture retention is superior and the bottom is a premium vinyl for better floor protection and longer life.

The Floortex Indoor Printed mats are made for light to medium traffic up to 500 people per day.

The Indoor Printed mat includes your logo or message printed on a nylon surface with a rubber studded backing for maximum skid resistance.

This is a high quality Wiper style mat designed to capture and retain dust and moisture all year.

Floortex ergonomic anti-fatigue mats provide comfort and safety in many work environments, including assembly lines, work stations, packaging areas, cashier stations, behind pharmacy counters and countless more locations.

Ergonomic mats provide excellent support against muscular fatigue while providing slip resistance and improved insulation on cement and ceramic floors.

There is a significant correlation between the floor surface of a workplace and the fatigue of workers.

Studies have shown:

- Lower back pain is more frequent when standing 25% of 8 hour work shift.
- 83% of workers in the manufacturing sector have chronic feet/leg and lower back problems.
- Most commonly reported problems are: Herniated Disc (lower back), Venous Pooling (legs/feet), Osteoarthritis.

Ergonomic matting reduces fatigue provide a balance of “softness” and “support”. The benefits are proper weight distribution while reducing impact on the joints and as the foot presses into the mat, the matting presses back into the foot.

Cushion Mat

- Fatigue Relief for Partial to all day applications.
- Puncture Resistant vinyl surface for better traction, stability and durability.
- Fusion technology used in manufacturing bonds layers effectively without adhesives.
- Easy, maintenance: sweep clean or damp mop.
- 1'2" thick.
- 1 Year Manufacturer's Warranty

FCSTP2424(B/G) 24" x 24" (Black or Grey)

FCSTP2436(B/G) 24" x 36" (Black or Grey)

FCSTP3660(B/G) 36" x 60" (Black or Grey)

Industrial Cushion Mat

- Provides fatigue relief in medium to heavy applications including finishing, assembly and work stations.
- Deck plate vinyl surface fused to industrial grade PVC foam backing offering durable anti-fatigue relief.
- Resistant to most common fluids and chemicals.
- Slip resistant surface. 9/16" thick.
- 1 Year Manufacturer's Warranty

FICUS2436(B/BY) 24" x 36" (Black or Black with Yellow Edges)

FICUS3660(B/BY) 36" x 60" (Black or Black with Yellow Edges)

Easy Foot Mat

- Fatigue relief in light duty areas; service counters, mailrooms, packaging stations, cashier stations.
- Pebbled finish provides slip resistant surface and bevelled edge helps reduce tripping.
- Closed cell PVC sponge provides economical comfort and fatigue relief.
- 3/8" thick.
- 1 Year Manufacturer's Warranty

FEAFM2436(B/G) 24" x 36" (Black or Grey)

FEAFM3660(B/G) 36" x 60" (Black or Grey)

Standing desks have been used for centuries. In fact, Thomas Jefferson and Winston Churchill used standing desks while working.

Now, the health benefits of standing workstations has been quantified and their use is growing quickly. However, the health benefits of using standing workstations, for extended periods, can only be realized if also using a quality Anti-Fatigue mat.

Why is an Anti-Fatigue mat needed with a standing workstation? There is a significant correlation between the floor surface of a workplace and the fatigue of workers. Studies have shown that lower back pain is more frequent when standing 25% of 8 hour work shift. The most commonly reported problems are Herniated Disc (lower back), Venous Pooling (legs/feet), Osteoarthritis.

Properly designed and constructed Anti-Fatigue mats provide excellent support against muscular fatigue while providing slip resistance and improved insulation on hard floor, tile and low pile carpet floors. Ergonomic matting reduces fatigue by providing a balance of "softness" and "support". The benefits are proper weight distribution while reducing impact on the joints and as the foot presses into the mat, the matting presses back into the foot enabling the return of energy and preventing blood from stagnating.

Floortex have manufactured Anti-Fatigue matting for several years for a wide range of applications including retail, warehouse and general use. When it comes to Anti-Fatigue matting solutions for Standing Workstations we offer a range that will suit every budget, size and performance requirement.

Floortex System 5000

- Solid, ergonomically designed polyurethane construction with contoured non-linear profile of between 0.8" to 2.0" to optimize posture movement, blood flow and prolonged standing comfort.
- Anti-slip base for maximum stability in use.
- Integrated massage pods for added relaxation of foot muscles. Increased effectiveness when shoes are removed.
- Built-in anti-microbial active ingredient will not wear away or wash off for the life of the product.
- Elevated dual purpose ergo bar. Allows individual foot rocking movement to further stimulate blood flow.
- Environmentally friendly. Non-toxic and phthalate free. Free from formaldehyde and toxic heavy metals.
- 10 Year Limited Warranty for peace-of-mind.

FCA52535BK 26" x 36"

Floortex System 2000

- Solid, one-piece 0.7" polyurethane construction guaranteed not to lose body support over time.
- Anti-slip base for maximum stability in use.
- Regularly re-positioning the foot position, using the ergonomically designed printed top as a guide, stimulates blood flow to provide maximum fatigue relief.
- Built-in anti-microbial active ingredient will not wear away or wash off for the life of the product.
- Contoured curl-proof edging ensure System 2000 mats will remain totally flat.
- 20° ADA trip hazard compliant bevelled edging for maximum safety in the home or office.
- Environmentally friendly. Non-toxic and phthalate free. Free from formaldehyde and toxic heavy metals.
- 10 Year Limited Warranty for peace-of-mind.

FCA21624(BK/GY) 16" x 24" (Black or Grey) FCA22032(BK/GY) 20" x 32" (Black or Grey)

Comfort Mat

- Provides fatigue relief in light to medium applications.
- Made from patented Zedlan sponge combining softness and resilience.
- Maintains flexibility and effectiveness even in low temperatures.
- Pebbled finished surface.
- 3/8" thick.
- Floortex 1 Year Warranty
