## Fast Charge Anything, Anywhere

Ark Pro's massive 27,600mAh battery, the largest allowed on commercial flights, transforms the whole world into your office. Its 140W fast-charging can keep your high-performance laptop alive for your entire flight or rapidly restore three devices at once after a demanding day with 160W combined USB charging.

## Always-Ready USB-C Cable

Say goodbye to lost cables. Ark Pro includes a clip-on USB-C cable that never tangles and attaches securely to the power bank, where it can be used as a secure handle.
