

SynRay™ Cut-End Wet Mop - Narrow Band - Bagged - 20 oz

Mold and mildew resistant, the SynRay™ Cut-End Mop has highly absorbent strands that can clean various floor surfaces, including concrete and stone. Does not contain cotton.

The SynRay™ Wet Mop with Cut-Ends is made of a 4-ply rayon fibre yarn, which inhibit the growth of mold and mildew. The mop head features a 4-row heavy duty poly coated headband that withstands harsh chemicals and wear and tear when used as a scrubber. Used for commercial and industrial floor cleaning, as well as routine or restorative floor care, this mop is highly versatile. It is ideal for rugged cleaning on rough surfaces and high traffic areas. Its slender band design enables compatibility with a range of mop handles, like the [STEP-N-GO Wet Mop Handle](#) or the [SNAP-2-GO Mop Handle](#).

Product Features

- Cut-end strings
- Narrow headband with 4 rows stitched
- Made with rayon fibres that prevent the growth of mould and mildew
- Individually bagged
- Available in 6 different capacities
- Economical and good absorbency
- Good durability
