

20 oz Dura-Pro Cut-End Mop - Narrow Band

Ideal option for low-usage in buildings without washing machines, like in the foodservice industry. Great choice for a reasonable quality mop at a very affordable price.

The Dura-Pro Cut-End Mop is made of premium quality 4 ply rayon and synthetic blended yarns. This material is highly absorbent and offers good release. The synthetic fibers allow for a longer lifespan of the mop. Although it cannot be machine washed, this low-usage mop remains a good and economical all-purpose mop. Its narrow band is made of high quality poly coated mesh and is made to be used with [SNAP-2-GO](#) or [STEP-N-GO](#) style handles.

Product Features

- 4 ply rayon and synthetic blended yarns

- Cut-ends
