

Retractable Clip

For SocketScan, DuraScan, and XtremeScan Readers

Keep your Socket Mobile scanner secure and accessible with a hands-free carrying solution designed for quick and easy access while scanning. Available in multiple options to support various devices, our Retractable Clips offer long-lasting durability, extended reach, and ease of use for professionals capturing data on the move.

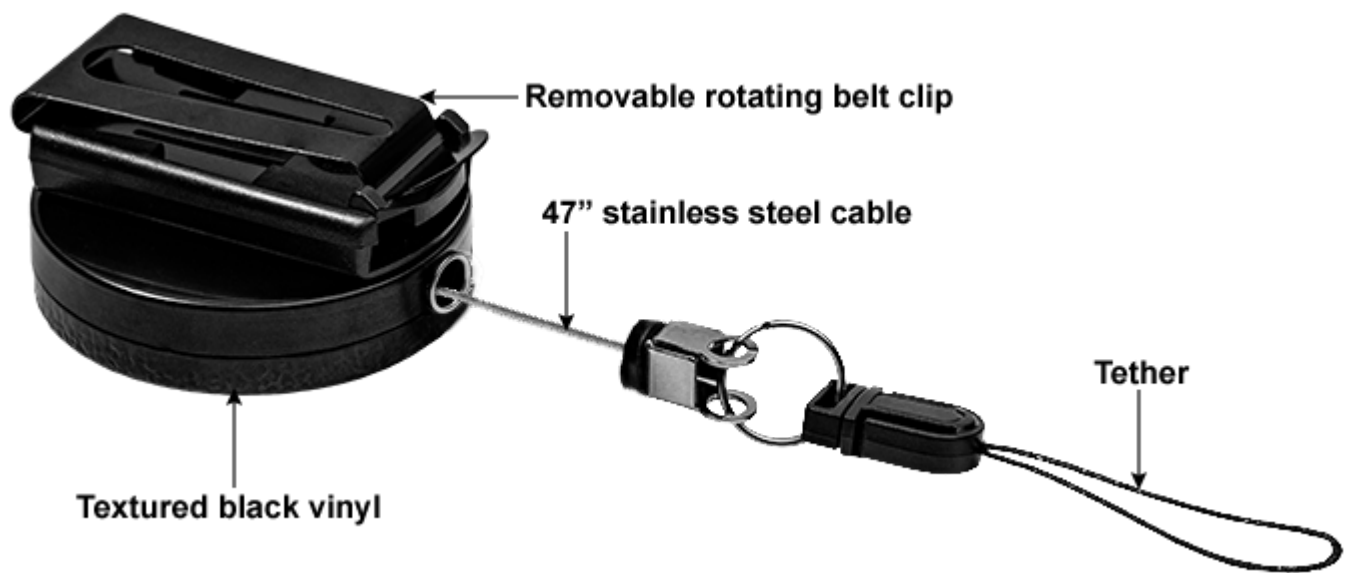

The Retractable Clips feature a stainless steel cable, quick-draw retractor, and a convenient pull-reel mechanism, keeping your scanner within reach and ready for use at all times. Designed for versatility, they include a rotating belt clip for secure attachment to belts, pockets, or vests and a cell phone attachment for additional carrying options.

Choose the Right Clip for Your Needs:

- **Durable Retractable Clip** – Designed for [SocketScan](#) and [DuraScan](#) 600, 700, and 800 Series. Features an 80z retraction force and a 47-inch reach for smooth, reliable extension.
- **Industrial Retractable Clip** – Built for [XtremeScan](#) Industrial data readers, with a 160z retraction force and 48-inch reach, making it ideal for supporting heavier, rugged devices in demanding environments.

Both versions offer a stable, hands-free carrying solution for your data reader and can be easily detached when needed.
