Lexmark Products

ECotone

Product and quality assurance process

Ecotone cartridges have been 100% remanufactured in Canada since 2000 by our team of qualified experts. We primarily use North American raw materials, and the cartridges are produced following strict quality control guidelines, ensuring the highest level of quality and reliability.

*STMC – (Standardized Test Methods Committee)

STMC indicates to the consumer that the cartridge they purchase has been manufactured according to specific standards regarding its quality and performance.

*CGSB – Certification # CGSB53.148.2011

Proudly made in
CANADA

Remanufactured Lexmark cartridges provide an eco-friendly and cost-effective alternative to new cartridges. Reworked from used cartridges, they are cleaned, refilled, and tested to ensure print quality comparable to the original.

By choosing these cartridges, users contribute to the reduction of plastic waste and save money while enjoying reliable performance.

TreeCanada

Partners with Tree Canada, a collaboration that highlights our commitment to sustainability.

For every 10 cartridges sold, one tree is planted.

This partnership is essential as it contributes to reforestation and the protection of our environment. By choosing our products, you actively participate in preserving our planet and creating a greener future for all.
