

TREK 11.6" CUSTOMER-FACING DISPLAY BUYER'S GUIDE

Looking to add a sleek, high-performance CFD to your Trek setup? This guide breaks down the available options, mounting configurations, and accessories to help you choose the best fit for your environment.

We offer two Trek 11.6" CFD models:

- 11.6" Touch CFD with NFC | Ideal for interactive checkout experiences and SoftPOS-ready payment flows.
- 11.6" Non-Touch CFD | Great for simple price and transaction visibility.

Both models support flexible installation options: mount directly to the TREK terminal, use a standalone display stand, or attach via standard 75 x 75 mm VESA. Just choose your preferred setup and build your shopping cart below.

What You Need To Know

The Trek 11.6" Customer-Facing Displays require a **mounting solution** and a **USB-C cable**, both sold separately.

1

Rear-Mounted to TREK Terminal

Attach the CFD directly to the back of the main TREK terminal.

- **Mount:** 938PW010100010 | Trek 11.6" CFD Rear Facing Mounting Arm
- **Cable:** 938PW010100009 | Trek USB Type-C Alt Mode Cable (0.8 m)

2

Separate Stand

Install the CFD on its own, freestanding POS stand. Ideal for more flexible counter setups.

- **Stand:** 938PW010100007 | Trek Series POS Stand (All Screen Sizes)
- **Cable:** 938PW010100008 | Trek USB Type-C Alt Mode Cable (1.8 m)
