Magnetic Charging and Storage

The iPad stylus attaches firmly to the side of all iPads released since 2018 meaning it's always on hand and ready for use. Dual mode charging allows this stylus to charge while magnetically docked to iPads that support this feature, or using a USB-C cable if necessary. The stylus charges in just one and a half hours and features a standby time of 30 days and working time of 8 – 10 hours before needing to be recharged.

Drawing Precision with Palm Rejection and Tilt Sensitivity

The iPad Stylus Pen is designed for incredible precision and accuracy, making it ideal for composing notes, drawing, marking documents and more. Palm rejection technology and tilt sensitivity make this stylus even more versatile as a drawing and creative tool.
