

The revolutionary new protection for your carpet floors!

The new, innovative, safe and superior carpet friendly Chair Mat solution from Floortex

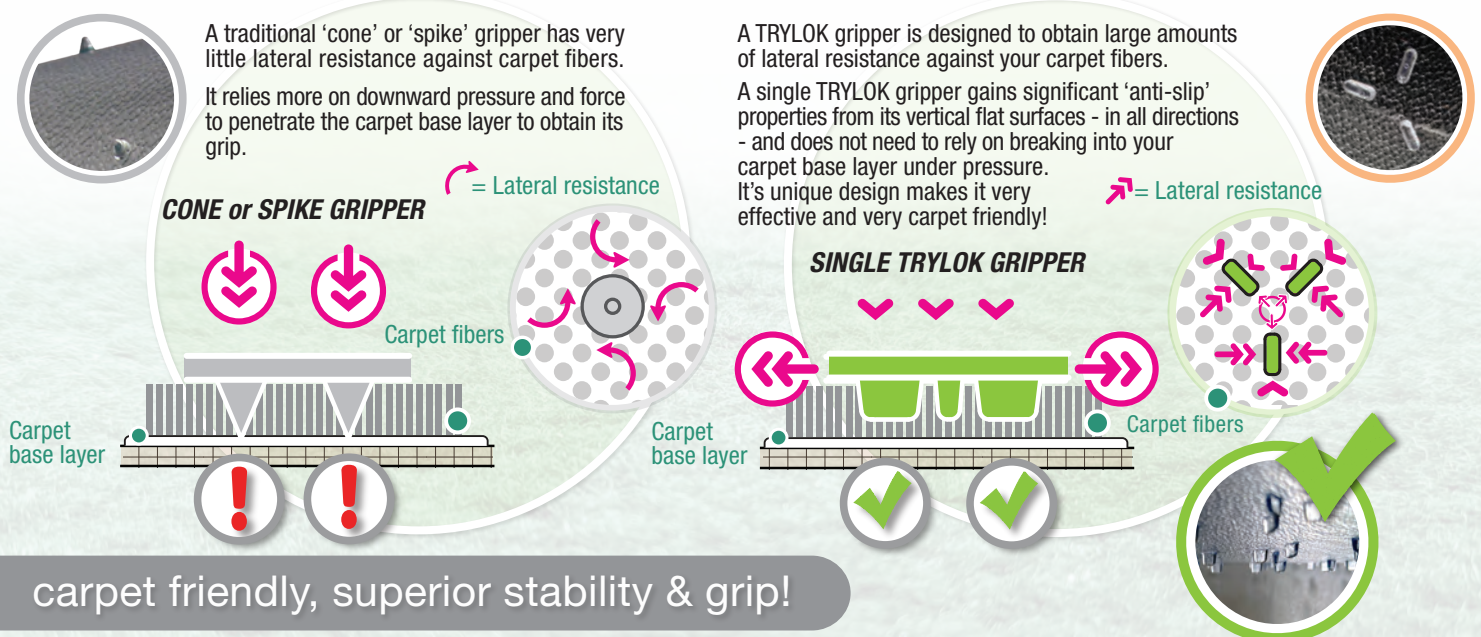

With up to 20% improved slide resistance compared to traditional spiked grippers, the new TRYLOK Chair Mat is the best option for protecting your carpet floors.

New TRYLOK grippers do not use a sharp spike to penetrate your carpet. Our innovative new design is far gentler to your carpet fibers and construction, by using superior multi-directional lateral resistance to provide effective, improved stability.

TRYLOK grippers push against the natural shape of your carpet fibres, rather than trying to penetrate them like a traditional 'cone' or sharp spike shaped standard gripper.

This new design gives superior grip AND reduces the damage that can be inflicted on your carpet over time during general use.

As well as increased and superior carpet gripping qualities, our new TRYLOK mats have also been designed with additional improved health and safety in mind.

Our precision engineering and manufacturing techniques, along with our excellent Quality Control procedures, mean a TRYLOK mat has no cut through of grippers or sharp spikes around the edges.

The innovative carpet friendly design and the grouping of our unique TRYLOK grippers allows us to have a 'gripper-free' border around the edges of each mat.

Unlike traditional spiked gripper carpet chair mats, you no longer have to worry about sharp spikes or painful accidents when unpacking, moving or positioning your TRYLOK chair mat!

Manufactured to Greenguard Certification standards and free of ortho-phthalates and harmful metal content, a TRYLOK mat gives you peace of mind as well as innovative, superior performance.

Good for you, your workspace and your carpets!

TRYLOK™ mats are easier to handle, unpack and move around. Gentle on your hands and your carpet!

- Up to 20% improved slide resistance compared to traditional spiked or 'cone' grippers.
- Gentle on your carpets with no sharp spike penetration.
- Guaranteed not to crack, chip, break or shatter under normal use and correct application.
- Precision manufactured with no split grippers.
- Gripper-free border around the mat edge for added safety while handling, unpacking and when in use.
- 100% free of harmful DIDP Phthalates. No cadmium, tin or lead content.
- Free of SVHC (Substances of Very High Concern).
- 50% of our manufacturing site's energy comes from on-site and external renewable sources.
- Manufactured to Greenguard standards for low indoor emissions.
- Contains up to 20% recycled material. 100% recyclable.
