PRODUCT INFORMATION

OVERVIEW	The RAM® Safe-Case™ for Apple iPad 10th & 11th Gen (RAM-TE-AP40) is a rugged, modular enclosure designed for high-security environments. Built from durable two-piece steel, this key-locking tablet case protects against theft, tampering, and tough environmental conditions—ideal for demanding field or industrial applications. Custom-fit for the iPad 10th & 11th Gen features precision cutouts for full access to the device's lock button, USB-C port, and rear camera. Ventilation slots and speaker openings maintain device functionality without compromising protection. The enclosure features versatile mounting options with integrated hole patterns for flush mounting, compatibility with RAM® double ball mounts, or 75x75mm VESA stands. For added docking functionality, the Safe-Case™ supports the installation of a GDS® Uni-Conn™ button—enabling rear pogo pin charging when paired with any compatible GDS® dock (look for the octagon icon on product listings).
