# What We Do. Who We Are.

## For nearly four decades, ViewSonic has been a trusted leader in professional display solutions.

We empower modern business environments and help shape the future of corporate and education spaces—including lobbies, conference rooms, training rooms, executive offices, classrooms, and huddle spaces. Our innovative technologies drive success across industries such as finance, healthcare, manufacturing, and retail.

More than just display hardware, we deliver integrated solutions that combine software, services, and seamless compatibility with enterprise systems—helping customers scale with confidence. Our leadership in desktop displays has expanded to include interactive displays, Direct View LED, and more—each backed by U.S.-based support, expert engineering, and robust customer care programs designed to ensure long-term success.

# ViewSonic Business Ecosystem

Every business has unique needs. At ViewSonic, we design and build solutions that go above and beyond to address the challenges businesses face every day. With an expansive portfolio of ViewBoard interactive displays, Direct View LED displays, non-touch commercial displays, projectors, monitors, and software, ViewSonic is your one-stop shop for complete business display solutions.

## ViewSonic Hardware Solutions

Perfect for use in meeting rooms, huddle spaces, and business communication.

# All-in-One Direct View LED Displays

With larger-than-life images, ViewSonic® Direct View LED displays make a sizable impression in any boardroom, lobby, training room, and more. They boast seamless and stunning video wall images in up to 4K resolution, with Chip-on-Board (COB) panels for enhanced detail. An advanced Glue-on-Board (GOB) surface treatment with an LED IP54 rating and IK06 impact resistance makes these robust displays ideal for public spaces.

- **Flexible Sizing:** Fixed 16:9 screens up to 231" and configurable solutions up to 760" allow for unique aspect ratios and resolutions.
- **Glue-on-Board (GOB) Technology:** Provides a protective shield that safeguards the LEDs during installation and daily use. The IP54 rating of the LED module surface ensures resistance to dust, and moisture, making it perfect for busy public spaces.
- **Front Serviceable:** Enjoy easy maintenance thanks to LED modules that are accessible from the front of the display.
- **Brilliant Visuals:** Up to 4K Ultra HD, 120% Rec. 709 color, and PIP/PBP multi-source viewing.
- **Built-In Collaboration:** ViewBoard® Cast™ enables wireless sharing and real-time annotation from any device.
- **Easy Device Management:** ViewSonic Manager™ offers remote, cloud-based control for monitoring, updates, and content delivery.
- **Expert Support Included:** Presale consultation, supervised installation, certified technicians, and a 3-year limited warranty ensure peace of mind.

# LDS Series

## Foldable and Mobile Video Wall on Wheels

Need flexibility on the move? The LDS138-151 mobile display brings Direct View LED technology to any space with ease. Featuring a foldable 138” screen, GOB surface protection, and a robust, height-adjustable stand, it’s perfect for dynamic presentations and portable digital signage in corporate and educational settings. Simply roll it in, unfold, and power on.

- **Easy Setup:** Experience effortless setup in just minutes — no wall mounting or complex installation needed. Simply unfold, plug into a standard 20-amp outlet, and you’re ready to impress with vibrant visuals anywhere.
- **Mobile and Foldable:** This display effortlessly glides between classrooms, event spaces, and meeting rooms with smooth, 360-degree silent wheels. Its innovative foldable design enables the display to fit into large passenger elevators, while an included flight case provides secure protection during transport between venues.
- **Durable and Reliable:** A commercial-grade motorized stand and patent-pending hinge design provide enhanced stability, even with heavy usage. Glue-on-Board (GOB) technology offers incredible surface protection with IP54-rated dust and moisture resistance and IK06 impact resistance.
- **Integrated Control Bar:** A user-friendly control bar is built into the floor stand, maximizing the screen area and keeping the display front clean and uncluttered.

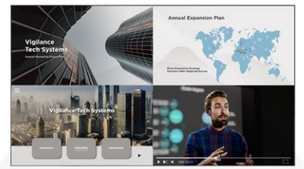

# LDM Series

## Pre-Configured, All-in-One Simplicity

Say goodbye to complicated installs and hello to streamlined setup. The ViewSonic® LDM series offers all-in-one Direct View LED displays with exceptional picture quality, various size options, and easy installation—all at a more accessible price point. Ideal for higher education lecture halls, corporate boardrooms, and lobbies, these displays combine visual excellence with practical usability.

- **Immersive Screen Sizes:** Choose from 136”, 163”, and 231” options.
- **Flexible, Hassle-Free Installation:** A modular, user-friendly design ensures quick and easy setup. The system control bar comes pre-attached to the bottom of the display for standard installation. Optional accessory kits are available for hidden or separate installations.
- **Durable Design:** Glue-on-Board (GOB) technology provides a protective shield that safeguards the LEDs during installation and daily use.
- **Easy Content Sharing:** Picture-by-Picture (up to 4 sources) and Picture-in-Picture capabilities offer dynamic collaboration. Built-in Wi-Fi and pre-installed vCast™ software allow for wireless content sharing from multiple devices.

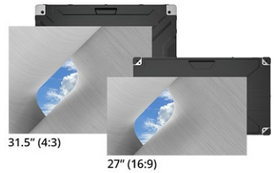

# LDC Series

## Configurable All-in-One Direct View LED Displays

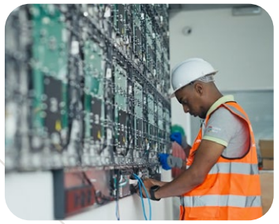

The LDC series breaks free from traditional 16:9 constraints, allowing you to design the perfect video wall for your specific needs. Whether you require a unique aspect ratio or digital signage of extraordinary dimensions, the LDC series delivers.

- **Flexible Cabinet Size:** The LDC series lets you design a Direct View LED video wall perfectly tailored to your space. Every Direct View LED video wall is comprised of multiple LED tiles within an LED cabinet. Depending on your desired screen size and aspect ratio, the quantity of LED cabinets will vary.
- **Pixel Pitch:** Choose from four distinct LDC Direct View options – 1.2, 1.5, 1.8, and 2.5 pixel pitch – to design a video wall that delivers the optimal viewing experience for your space and audience. These pixel pitch variations cater to a range of viewing distances, ensuring stunning visuals no matter where viewers stand.
- **Resolutions:** Regardless of the shape, size and configuration of your video wall, rest assured that it will deliver amazingly vibrant and stunning images in 1080p, 4K and non-standard resolutions.
- **Tough and Reliable Glue-on-Board (GOB) Technology:** GOB surface treatment with IP54 and IK06 ratings protects against dust, moisture, and impact.
- **Trusted Partnership from Design to Post-Installation:** An experienced ViewSonic Field Solutions Architect will guide you through every step—design, site prep, product and spec recommendations, and installation prep—at no extra cost. We'll also verify site readiness and provide on-site supervision during installation.

# CDE Non-Touch Large Format Digital Displays

From small huddle spaces to expansive boardrooms, our CDE31, CDEUW, and CDEG3 series of non-touch digital displays offer the flexibility needed for diverse business communication scenarios. Available in screen sizes ranging from 43" to 105" with brilliant 4K resolution and robust 24/7 operation, these displays enhance collaboration and information sharing in any meeting space.

- **CDE31 Series:** An all-in-one 4K display platform built for 24/7 usage, seamless collaboration, stunning signage, and PC-free performance in any meeting space.
- **CDEUW Series:** These displays boast 24/7 performance, and massive 92" and 105" screen sizes with a panoramic 21:9 aspect ratio, ideal for inclusive and productive meetings in conference rooms and Microsoft Teams Rooms by providing 33% more screen space than traditional displays.
- **CDEG3 Series:** 24/7 4K performance with OS-free flexibility, secure instant-on operation, enterprise-level security, and future-proof connectivity—ideal for scalable, low-maintenance deployments.

4K Ultra HD Resolution

Multi-Screen Tiling

24/7 Operation

Commercial-Grade Durability

# CDE31 Series

The ViewSonic CDE31 series of digital displays makes meetings more efficient and signage more impactful—right out of the box. With instant-on performance, built-in 4K playback, and a secure Android platform, there's no need for extra hardware or wasted setup time. A single USB-C cable simplifies connectivity by delivering power, 4K video, and data—reducing clutter and speeding up installation. And 500-nit brightness with anti-glare glass keeps content clear in any light. Certified for top control systems and built for 24/7 reliability, these displays offer incredible all-around performance.

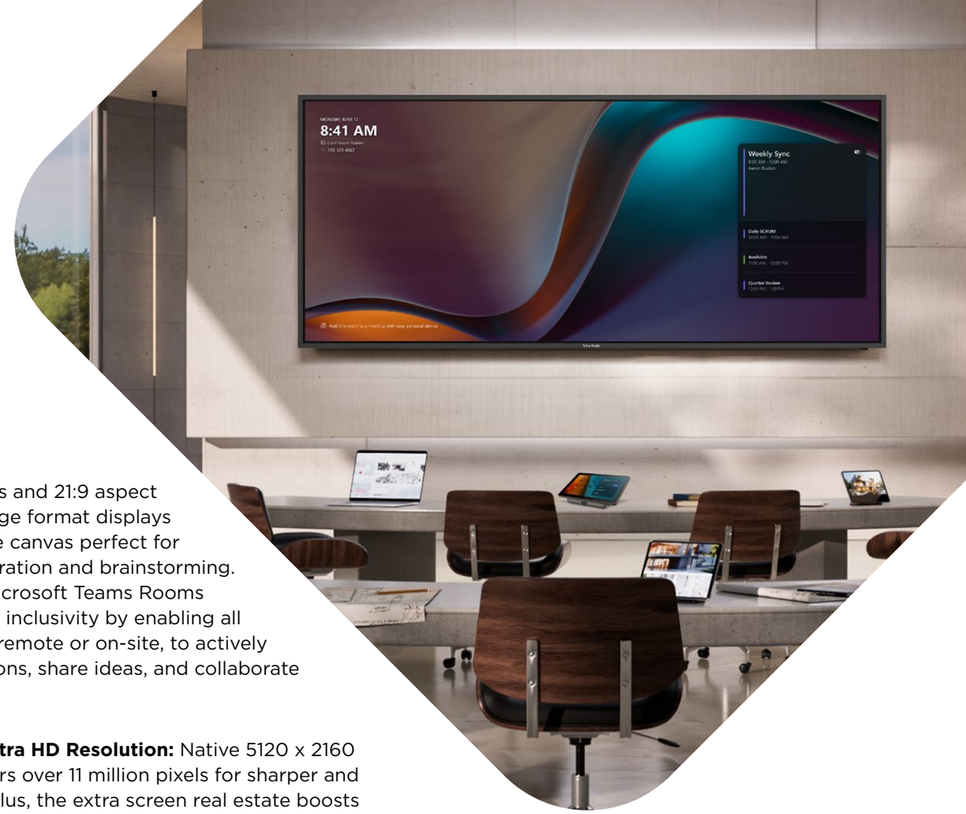

- **4K UHD Clarity:** Deliver sharp text, vivid graphics, and lifelike video in landscape or portrait mode.
- **Instant-On (<10 sec):** Boots up fast for zero wait time and immediate content delivery.
- **Built-In Performance:** Run apps and signage locally—no lag, no external media player needed.
- **One-Cable USB-C:** Power, video, and data through a single 65W cable to cut clutter and simplify setup.
- **500-Nit Brightness:** Ensure visibility in bright rooms, lobbies, or retail environments.
- **24/7 Operation:** Commercial-grade design built for continuous, around-the-clock use.
- **Flexible Orientation:** Mount in portrait or landscape without sacrificing image quality.

**CDE31 Series**
43" CDE4331
55" CDE5531
65" CDE6531
75" CDE7531
86" CDE8631
98" CDE9831

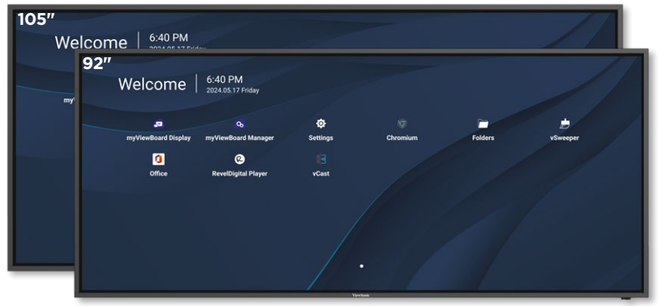

# CDEUW Series

With huge screen sizes and 21:9 aspect ratio, our ultrawide large format displays deliver a nearly infinite canvas perfect for meeting room collaboration and brainstorming. The combination of Microsoft Teams Rooms and Front Row fosters inclusivity by enabling all participants, whether remote or on-site, to actively participate in discussions, share ideas, and collaborate in real time.

- **Incredible 5K Ultra HD Resolution:** Native 5120 x 2160 resolution delivers over 11 million pixels for sharper and clearer visuals. Plus, the extra screen real estate boosts multitasking by allowing you to open applications side-by-side without sacrificing readability.
- **Simple Screen Sharing:** AirSync software lets you wirelessly mirror your screen from any device to a CDEUW display using our secure app or web browser. AirSync also supports built-in casting like Miracast, Airplay, and Google Cast.
- **Versatile and Flexible Installation:** Uniform bezels and versatile portrait/landscape mounting deliver a seamless, professional look for a variety of installation needs.
- **Device Management** ViewSonic Manager™, an easy-to-use web-based application, allows you to securely set up, manage and maintain all of your displays from a centralized dashboard.
- **Powerful Sound:** Immersive 2.1 sound system with 60W total power (two 30W speakers + 30W subwoofer) delivers crystal-clear dialogue and rich, room-filling bass—perfect for dynamic presentations, video conferencing, and multimedia playback.

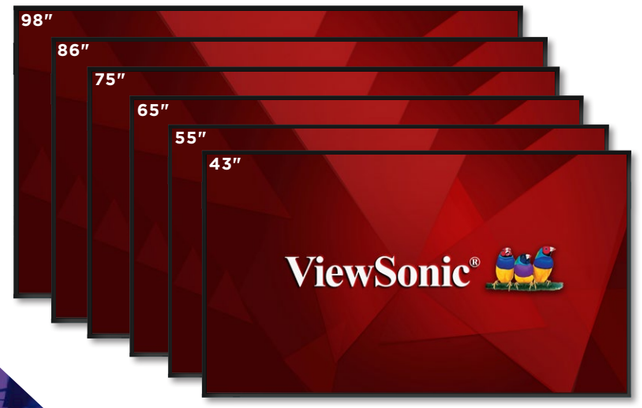

**Ultrawide Series**
92" CDE92UW
105" CDE105UW

# CDEG3 Series

The CDEG3 series of digital displays features a fully OS-free design—to minimize risk and simplify compliance. With instant-on 4K visuals, swappable compute options, and versatile connectivity, it's the secure, flexible display platform built to scale across your organization.

- **Enhanced Security:** An OS-free architecture with no pre-installed software reduces potential vulnerabilities and helps IT teams uphold rigorous security and compliance requirements.
- **Pure Visual Performance:** Delivers true 4K UHD resolution, 500-nit brightness, and 24/7 reliability—uninterrupted by OS overhead—for clear, vibrant content in any space.
- **Fast Startup (<7 Seconds):** Boots in under seven seconds so meetings begin immediately. Just power on, connect, and present without delay.
- **Plug-and-Play BYOD:** Works seamlessly with any laptop, mini PC, media player, or OPS module. No lock-in, no retraining, and no compatibility headaches.
- **Low-Maintenance for IT:** No resident OS means fewer patches, updates, or image management tasks, freeing IT to focus on higher-value work.
- **Enterprise-Ready Durability:** Built with commercial-grade components, a metal chassis, and backed by an industry-leading warranty for long-term, around-the-clock performance.

**CDEG3 Series**

# ViewBoard® Interactive Displays

**Elevate your meeting spaces with ViewSonic® ViewBoard® interactive displays**—designed to streamline collaboration, enhance presentations, and boost productivity. With high-precision touchscreens and digital whiteboarding, teams can brainstorm, present, and annotate in real time.

Integrated TeamOne software enables real-time annotation and shared whiteboard access across any device and location. Plus, ViewSonic Manager™ software enables remote device control for streamlined IT workflows.

# ViewBoard® IFPUW Series

With huge touchscreens and a 21:9 aspect ratio, the ViewSonic® ViewBoard® IFPUW series of ultrawide interactive displays offers a collaborative canvas that is wider than it is tall. This ensures that content remains easily accessible and interactive for users of all heights.

- **21:9 Aspect Ratio Ideal for Inclusive Meeting Spaces:** These ultrawide collaboration displays boost multitasking by allowing you to open applications side-by-side without sacrificing readability. When paired with Microsoft Teams Rooms and Front Row, the IFPUW series fosters greater inclusivity by enabling all participants to seen, heard and understood.
- **Incredible 5K Ultra HD Resolution:** Native 5120 x 2160 resolution delivers over 11 million pixels for sharper and clearer visuals.
- **ViewSonic TeamJoin™ Solutions for Microsoft Teams Rooms:** We provide affordable one-touch video conferencing solutions certified for Microsoft Teams Rooms. These optional items include touch consoles, computing engines, 4K PTZ cameras, and more,  ensuring seamless collaboration in any environment.
- **TeamOne Collaboration on a Grand Scale:** ViewSonic TeamOne™ software transforms this massive touchscreen into an infinite digital whiteboard.  Sketch freely, annotate ideas, share documents and images – all without ever running out of room.

# ViewBoard® IFPG1 Series

For businesses that prioritize network security and meeting room simplicity, ViewSonic® ViewBoard® IFPG1 interactive displays are designed without an OS to minimize cyber threats and safeguard user data. This OS-free design allows users to connect their preferred devices and keep presentations engaging.

- **No Operating System, No Threats:** Without an OS, malware has nowhere to run, minimizing the risk of cyberattacks.
- **Always Up-to-Date:** No OS updates means no security vulnerabilities from outdated software.
- **Reduced Data Leaks:** No local data storage minimizes the chances of data breaches.
- **Wired Connections, Enhanced Security:** Wired connections eliminate Wi-Fi risks such as unauthorized network access and data interception.
- **ViewSonic TeamOne™ Software:** This intuitive and robust software suite delivers an infinite digital whiteboarding canvas for secure, scalable, real-time collaboration and productivity for any team, anywhere.

# ViewBoard IFP51 Series

Enhance team collaboration with the ViewSonic® ViewBoard® IFP51 Series—interactive displays available in 55″ to 86″ sizes. Powered by Android™ EDLA, they offer instant access to Google and Microsoft 365 tools. With responsive 50-point touch, integrated software, and powerful audio, the IFP51 series is ideal for presentations, whiteboarding, and hybrid meetings. EPEAT Gold and ENERGY STAR certifications make it a smart, sustainable choice for modern workplaces.

- **Secure by Design with Android EDLA:** Stay protected with built-in Google security, data encryption, and easy management tools that keep your network and devices safe.
- **Built-In Access to Google & Microsoft Tools:** Jump right into Google Drive, Docs, Slides, and more—plus Microsoft 365 apps like Word and Teams—all from one place.
- **Collaboration Software Included (No Extra Cost):** Enhance productivity with a suite of pre-installed ViewSonic solutions, including myViewBoard® for interactive whiteboarding, ViewSonic Manager™ for streamlined IT asset management, and ViewSonic AirSync™ for wireless content sharing.
- **Sign In and Start Fast:** QR code, NFC, or SSO login means no more delays—just tap in and get going.
- **Smooth, Natural Writing for Everyone:** Write or draw with fingers or pens—palm rejection keeps things accurate, even when multiple presenters join in.
- **ViewSonic TeamOne™ Software:** This intuitive and robust software suite delivers an infinite digital whiteboarding canvas for secure, scalable, real-time collaboration and productivity for any team, anywhere.

# ViewBoard® IFP110

ViewSonic® ViewBoard® IFP110 interactive displays feature expansive 110” touchscreens with thin bezels and 4K Ultra HD resolution, making them stunning centerpieces for multipurpose rooms, boardrooms, libraries, and other locations.

- **Simpler Setup and Maintenance:** This 110” screen replaces four 55” touch displays in a 2x2 layout. This translates to a simpler setup process and lower costs for calibration and maintenance.
- **All-in-One Design for Immersive Content:** An embedded OS provides everything you need for multimedia content playback without requiring additional components.
- **TeamOne Collaboration on a Grand Scale:** Optional ViewSonic TeamOne™ software transforms this massive 110” touchscreen into an infinite digital whiteboard.  Sketch freely, annotate ideas, share documents and images – all without ever running out of room.

# Slot-In PCs for ViewBoard® Interactive Displays

Turbocharge your meeting room setup by easily adding an optional slot-in PC to your ViewBoard interactive display. From providing additional computing power to Google Play Store access, ViewSonic offers a full lineup of solutions, including Windows PCs, EDLA-certified options, and more.

- **Windows® 11 Pro:** All of our slot-in PCs are equipped with Windows 11, so you can enjoy Microsoft's latest features.
- **Android™ EDLA-Certified:** Our VPC-A31-O1 slot-in PC delivers access to hundreds of apps through the Google Play Store. With a single sign-on, teachers can store and share files on Google Drive, edit files in Google Docs, share spreadsheets in Google Sheets, deliver presentations on Google Slides, and so much more.
- **Chromebox OPS:** Transform your presentations with the ViewSonic® VPC13-C33-G1 OPS slot-in module. Designed to integrate seamlessly with ViewSonic ViewBoard® interactive displays, this powerhouse PC delivers an intuitive, smooth, and highly reliable user experience.
- **Powerful Processing Power:** Featuring next-generation Intel i5 and i7 processors, these slot-in PCs provide quick performance for smooth delivery of lesson plans and multimedia content
- **Faster Data Acess:** Our slot-in PCs feature SSD storage for faster loading times, more durability and less noise when compared to traditional hard drives
- **ViewSonic TeamOne™ Software:** This intuitive and robust software suite delivers an infinite digital whiteboarding canvas for secure, scalable, real-time collaboration and productivity for any team, anywhere.

# Additional Accessories for ViewBoard® Interactive Displays and CDE Digital Displays

## Wireless Internet Module

**VB-WIFI-005**
Delivers faster Wi-Fi and support or Bluetooth 5.2

**VB-WIFI-005**
USB Wi-Fi Module for IFP105S, IFP33, IFP32 & IFP32-2 series only, 802.11 a/b/g/n/ac, 2.4GHz & 5GHz Dual-Band, BT5.0

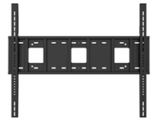

## Wall Mounts

**WMK-047-02**
Sturdy, VESA-compatible wall mount with mini-PC bracket for displays up to 98”

**VB-WMK-003**
Sturdy, VESA-compatible wall mount for displays up to 105”

**VB-WMK-004**
Sturdy, VESA-compatible wall mount for 75” to 110” displays

## Mobile Carts

**VB-STND-001**
This ADA-compliant rolling stand can be easily maneuvered to fit the needs of your classroom. Adjust your trolley to your preferred height, position it in different locations to maximize space or simply share your ViewBoard® display between classrooms.

**VB-STND-007**
This motorized trolley cart supports 55”, 65”, 75” and 86” displays that weigh up to 165 lbs. and comes with motorized height adjustment.

**VB-STND-008**
This motorized trolley cart supports 55”, 65”, 75” and 86” displays that weigh up to 165 lbs. and features electric tilt and motorized height adjustment.

**VB-STND-009**
This mobile cart can safely support 55” to 105” displays that weigh up to 265 lbs. and features VESA-compatible adjustable mounting brackets.

## Microphones, Speakerphones and Webcams

**VB-MIC-201**
Omnidirectional USB expansion wired microphone

**VB-CAM-201**
Zoom-certified 4K video bar system

# ViewShare WPD-900 Wireless Casting Kit

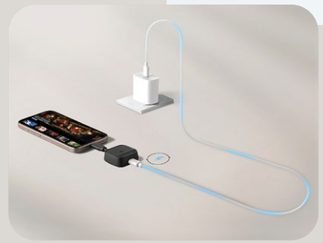

Whether you're in a meeting or a classroom, the award-winning ViewShare® WPD-900 lets you present wirelessly with confidence. No complicated setup. No tech headaches. Just seamless sharing.

- **Instant Presentations:** Plug in and start casting instantly without the need for network setup, software installation or app downloads required.
- **Universal Compatibility:** Works seamlessly with almost all mobile devices via Miracast and AirPlay.
- **Internet-Free and Wi-Fi-Free Connection** Connect your devices directly to one another without needing the internet or a Wi-Fi router. This gives you a steadier, more secure connection and enables easy, peer-to-peer (P2P) seamless sharing.
- **Pass-Through Charging:** Charge your device and share your screen simultaneously via the external USB-C port.
- **Long-Range Wireless Transmission:** Wirelessly cast content from up to 98 feet away - ideal for larger conference rooms, classrooms, or auditoriums.

# ViewSonic TeamJoin™ Solutions

ViewSonic® TeamJoin™ video conferencing solutions enable you to initiate video conferences with just one touch, enhancing collaborative efficiency. These solutions are certified for Microsoft Teams Rooms and can be paired with our 21:9 aspect ratio displays to optimize the meeting experience for all attendees.

**Designed for Microsoft Teams**

Our conference room solutions are all integrated with Microsoft Teams to provide optimized setup, enhanced security, crisp audio and crystal-clear video performance. Our Microsoft Teams Rooms certified portfolio offers a one-stop solution that can easily scale based on your needs and meeting space size.

- **Computing Engine:** The ViewSonic® MPC51WT is a nimble compute system with a 12th generation Intel Core™ i5 processor for optimized business productivity and collaboration. The processor also supports three HDMI v2.1 outputs and up to three displays.
- **Touch Console:** The MRC111T touch console offers intuitive touch control and easy meeting scheduling. This 11.6” touch display offers an easy-to-use Microsoft Teams interface that allows you to start, join, and manage meetings—all from your fingertips.
- **4K PTZ Camera:** Capture every angle with the UMC211T 4K PTZ Camera—featuring dual-lens panoramic + PTZ coverage, AI auto-framing, speaker and presenter tracking, and simple plug-and-play setup for professional, dynamic meetings in any space.
- **Speakerphone:** Deliver clear, natural conversations with the UMS301T Speakerphone—featuring 360° voice pickup, AI noise suppression, full duplex audio, and scalable daisy-chain coverage for seamless meetings in rooms up to 323 square feet.

# Business Monitors

With easy setup and fast deployment, ViewSonic business monitors improve productivity and help lower total cost of ownership for your enterprise. Our diverse portfolio includes monitors with advanced connectivity options like Thunderbolt™, USB-C, and Ethernet, streamlining workstation setup, simplifying device management, and driving greater workplace efficiency.

**VG Series**

Advanced ergonomic features, future-proof connectivity options, and integrated docking stations in select models make ViewSonic VG series monitors incredibly adaptable. Easy deployment and eco-friendly packaging help lower your total cost of ownership.

**VP Series**

Ideal for executives, professional creatives, and more, ViewSonic® ColorPro® VP monitors deliver high resolutions and incredible color accuracy for a optimum performance.

**TD Series**

With innovative touch displays ranging from desktop and portable models, to front-of-room podium displays and wayfinding kiosks across your business campus, we offer a variety of interactive touchscreen options to fit your different needs.

**VA Series**

Backed by the ViewSonic reputation for quality and reliability, these monitors deliver rock-solid dependability and outstanding performance at a great value.

# Monitors Designed for Comfort and Productivity

With advanced ergonomic features, flexible display configurations, and future-proof connectivity options, ViewSonic® VG series monitors help to boost productivity, while easy deployment and eco-friendly packaging help to lower your total cost of ownership.

- **USB-C Docking Monitors:** With RJ45 wired Ethernet connection, a USB hub for your accessories, and USB-C single-cable connectivity with up to 100W power delivery, these monitors eliminate the need for expensive docking stations.
- **Versatile Connectivity:** With HDMI, DisplayPort, and USB hubs, these monitors deliver plug-and-play connectivity for whatever devices your business uses including PCs or laptops.
- **Reduced Environmental Footprint:** These monitors are shipped in environmentally friendly, biodegradable, paper-based packaging that cuts down on recycling costs and delivers a reduced environmental footprint.
- **Streamlined Workflows:** Boost productivity with ViewSonic® vDisplay Manager™, an intuitive desktop software available for all ViewSonic VG and VP series monitors. Beyond seamlessly integrating On-Screen Display (OSD) controls and basic settings, this powerful tool delivers features such as Screen Split, Auto Launch, and Smart Backlight, which allow you to customize screen layouts and settings in order to maximize comfort and efficiency.

# Professional Monitors

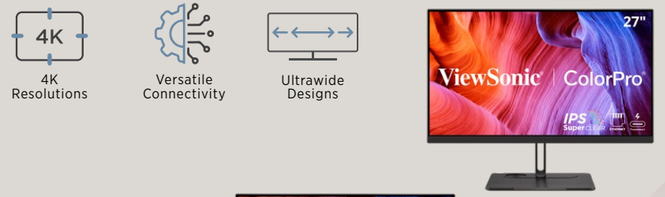

ViewSonic® VP series monitors empower professionals with unmatched clarity and expansive screens. Factory-calibrated for exceptional color accuracy, VP displays deliver stunning visuals ideal for executives making critical decisions or creative professionals tackling demanding design and engineering tasks. Experience visual perfection and maximized real estate, boosting productivity for every step of your workflow.

- **Stunning Visuals:** Factory-calibrated for stunning accuracy out of the box, these displays boast up to 1 billion colors and support a wide color gamut. High resolutions up to 5K ensure exceptional detail.
- **Loaded with Connectivity:** Whether PC or Mac, HDMI, Thunderbolt 4, or USB Type-C, ColorPro monitors are loaded with versatile connectivity options that deliver maximum flexibility for any ecosystem.
- **Boost Productivity:** Optimize your workflow with a range of sizes, resolutions, and form factors (21:9 aspect ratio, curved screens) to suit any task. From everyday spreadsheets to intricate design work, find your perfect fit. Select models even feature G-Sensor auto-rotation, seamlessly switching between portrait and landscape modes to keep you focused and productive.
- **Designed with Purpose:** Prioritizing both style and function, sleek designs integrate thoughtful features like improved cable management and easy-access controls, keeping your workspace organized. Ergonomic stands offer exceptional flexibility for positioning, promoting user comfort and focus during extended work sessions.

# Designed for Surface Monitors

Connect to your Microsoft Surface on a deeper level and upgrade your workspace with a ViewSonic® VG245, VG275 or VP275-4K monitor. Specially developed based on the Microsoft Designed for Surface (DfS) Program, these are the first DfS-certified monitors that work seamlessly with any USB-C Surface product.

- **Designed for Surface:** Designed for Surface (DfS) products undergo extensive testing and validation with Microsoft for optimal use with Microsoft Surface products.
- **Single-Cable Solution:** Connect directly to your Surface device via USB-C, reducing the reliance on multiple wires, cables, and adapters. In addition to audio and video transfer, USB Type-C also provides quick 60W charging over a single cable.
- **A More Comfortable Workspace:** With advanced ergonomic features including swivel, pivot, height adjust, and tilt, this monitor provides a greater range of adjustment for increased productivity and comfort.
- **USB Hub:** USB-A ports offer connectivity options for your Surface and DfS peripheral accessories such as a mouse and keyboard.

# Windows Hello and Zoom-Certified Monitors

With a Windows Hello-certified IR camera and Zoom-certified video conferencing performance, the ViewSonic® VG57V series of docking monitors ensures clear and secure meetings, whether you're in the office or working remotely.

- **Windows Hello Certified:** IR integrated camera supports convenient facial recognition for a safe, password-free, single user sign-on.
- **Clear Communication:** A Zoom® certified Full HD pop-up camera, microphone and front-firing 5W speakers ensure you look and sound as good on video as you do in person.
- **Simplify your Setup:** USB-C delivers fast data, audio, video and up to 100W power delivery over a single cable. RJ45 Ethernet lets you connect to your wired network.
- **Feature-Packed Camera:** An ergonomic camera with adjustable LED lights helps you find the perfect angle for your videos without losing your optimal monitor positioning.
- **Double Your Screen Real Estate:** DisplayPort out allows for easy daisy chaining to additional monitors. *Daisy chain is not supported on VG3457CV model.

# ViewSonic TeamOne™ Software

TeamOne™ by ViewSonic

ViewSonic TeamOne™ is an intuitive and robust software suite that delivers an infinite digital whiteboarding canvas for secure, scalable, **real-time collaboration and productivity for any team environment, anywhere.**

- **Collaborate in Real-Time:** TeamOne is web-based, allowing real-time collaboration and annotation across devices and locations for seamless teamwork.
- **Jumpstart Projects with Templates:** TeamOne offers built-in, customizable templates to visualize workflows, data, and charts, fostering clear communication and decision-making.
- **Easy Access Anywhere:** Log into TeamOne from any web browser—no software installation needed. This hassle-free accessibility allows every group member to instantly join collaborative sessions from any device of their choice, free from technical delays.

# ViewSonic Manager™ Software

Manager
by ViewSonic

**ViewSonic Manager™ is our FREE software** option included with select ViewSonic displays. It's an easy-to-use and robust web-based application that helps IT seamlessly monitor and maintain individual displays across an entire organization from a single control panel.

- **Urgent Alert Broadcast:** Send critical alerts to devices using ViewSonic and third-party integrations (no additional API or APK needed for integration).
- **Cloud-Based Access:** Manage devices remotely from any web browser.
- **Easy Device Enrollment:** Quickly enroll devices using PINs, serial numbers, or QR codes.
- **Device Monitoring and Control:** Monitor and control devices 24/7 from a central dashboard.
- **App Management:** Install, remove, and manage apps remotely.

**ViewSonic Manager™ Advanced is our UPGRADED subscription software** with enhanced management and automation features.

- **Broadcast Content:** Display images, videos, and messages across multiple devices simultaneously for digital signage or announcements.
- **Task Scheduling:** Automate device management tasks, including power on/off, content scheduling, and more to optimize efficiency and device lifespan.
- **User Permissions:** Assign specific roles and access levels for different users to control device management and content distribution.
- **Remote Desktop:** Provide IT support remotely through a centralized dashboard to reduce downtime and improve efficiency.

# ViewSonic AirSync™ Software

AirSync
by ViewSonic

This wireless casting software allows you to wirelessly mirror your screen from any device to a larger display using our secure app or your web browser. AirSync also supports built-in casting like Miracast, Airplay, and Google Cast, making it easy to share content quickly and securely.

- **Flexible Casting:** Thanks to touchback control, you can manage casting to the meeting room display directly from a laptop or tablet (supports up to 10 devices).
- **Secure Moderator Mode:** Control the content on display by keeping up to six participants in a virtual waiting room before approving screen sharing.
- **Split Screen:** Simultaneously show multiple screens of multiple devices on the main front-of-room display. This is great for collaboration and discussions.
- **Display Grouping:** Broadcast the main display across up to 10 large, networked screens for synchronized viewing.
- **Universal Compatibility:** Users can participate from any compatible device (MacBook, iPad, Windows laptop, Android tablet) using AirPlay, Miracast, Google Cast, or a compatible web browser.

# ViewSonic Display Portal

The ViewSonic® Display Portal serves as a centralized hub for ViewSonic monitor software. It simplifies the process of finding, learning about, and downloading various monitor controllers, model-specific features, and utility tools for different monitors.

- **Simple Monitor Management:** The ViewSonic Display Portal makes monitor management a breeze. It instantly detects your monitor model and shows all the compatible software available for immediate download or use.
- **Stay Up to Date:** An easy-to-use Firmware Update feature allows you to quickly download and install the latest firmware updates. This ensures optimal functionality and access to the newest features, and keeps your monitor performing at its best.
- **Explore the Portal:** An Explore feature includes the latest news about ViewSonic monitor and software solutions to help you create an efficient and productive workspace. Access insightful thought leadership articles, blog posts and more.

# Digital Kiosks and ePosters

Perfect for up-close, high-impact messaging, ViewSonic® all-in-one digital kiosks and ePosters feature eye-catching images within sleek and slim designs to grab attention in busy, high-traffic areas.

- **Versatile Signage Solutions:** Ranging in sizes from 10” to 55”, our ePosters are designed for wayfinding directories, cafeteria menu boards, check-in kiosks in admin offices, and more.
- **Reliable and Durable Designs:** Built for the rigors of everyday school life, select ePosters feature scratch-resistant surfaces that ensure a durable, consistent, high-quality viewing experience.
- **Clean and Clear Messaging:** Our Health Flex kiosks feature a 24” touchscreen, media player and hand sanitizing dispenser holder, making them ideal for admin offices, hallways and wherever you’d like to deliver messaging and a chance for students and passersby to sanitize their hands.
- **Small Screens with a Big Purpose:** The ViewSonic® EP1052T is an all-in-one multi-function meeting room scheduler, video conferencing controller, and communication signage display wrapped into a single versatile 10.1” touchscreen

# Digital Podium Solutions

Whether for large lecture halls, auditoriums, or smaller classrooms, the ViewSonic® digital podium works with any projector or display and includes a ViewBoard® VBS200-A Smart AV Controller and a myPodium™ ID2456-4K interactive pen display. This easy-to-install, easy-to-use setup allows you to wirelessly cast lessons to your front-of-classroom display and annotate directly on your lessons, sketch ideas, and create a richer learning experience.

- **Better Engagement:** Educators can annotate directly on their lessons, sketch ideas, and manipulate content while everything is mirrored on the projector screen. This allows teachers to interact with their students and improves classroom engagement.
- **Cross-platform Compatibility:** Compatible with Windows, Android, Chrome and Mac OS, the myPodium ID2456-4K delivers cross-platform touch support for any compatible BYOD device.
- **Included Device Management:** The VBS200-A Smart AV Controller includes ViewSonic Manager™ software, which gives users centralized control for their school's projectors and displays— all in one place. This instantly upgrades existing technology by enabling projectors to receive remote startup/shutdown commands, broadcast announcements, receive urgent alerts, and more.

# Complete Projection Solutions

From small meeting rooms to multipurpose rooms and large conference rooms, our projection solutions have got you covered. Whether you're looking for high brightness, LED, laser, or great price-performance models, we have the projector to perfectly fit any business environment or need.

**Complete Projection Solutions**

These projectors offer maintenance-free brightness and stunning visuals, eliminating the need for replacement lamps. Eco-friendly and energy-efficient, these LED and Laser projectors reduce energy usage and costs, while instant power on/off allows users to start presentations without delay.

**Lamp-Based Projectors**

Packed with useful features, these cost-effective lamp projectors allow you to outfit your meeting rooms affordably. Better yet, many of our lamp-based projectors can utilize existing ceiling mounts for easy upgrades or replacement.

**Short Throw and Ultra-Short Throw Projectors**

Perfect for tight spaces and smaller meeting rooms. Short throw and ultra-short throw lenses enable large images to be projected from short distances without creating shadows on-screen.
