

Wet Erase

CHISEL TIP CHALK MARKER

- For use on sealed, non-porous surfaces such as glass, metal, plastic, porcelain, glazed pottery, and fiberglass
- High-opacity liquid chalk marker is acid-free and produces solid lines you can't see through
- Decorate windows and mirrors; temporarily label storage containers and gardening supplies; or create unique crafts
- Ink won't wash off in the rain, yet easily wipes away with a clean, damp cloth
- Chisel tip for fine to medium lines
- Not suitable for use on chalkboards
