Certifications, Reports and Compatibility

Applications

- Standardize hoteling desks in hybrid offices with a driverless dock and side-locking cable that prevents disconnects in shared spaces
- Equip workstations with a single 8K 60Hz or dual 4K 144Hz displays and 2.5GbE networking
- Move away from driver-dependent docking to native and uncompressed video over USB4, eliminating software-related compatibility risks tied to OS updates and long-term support
- Reduce lifecycle costs by combining lower upfront pricing with zero driver management overhead, improving total cost of ownership as deployments scale across hundreds of users

Features

- **Standardize on USB4 Across Mac and Windows**: USB4 is natively supported on M4 / M5 MacBook Pro, MacBook Air, and Windows business laptops, making it the right time to consolidate on a single driverless dock and eliminate compatibility exceptions
- **Faster Rollouts with Fewer Tickets**: Install quickly with true driverless plug-and-play performance across macOS and Windows; Avoid OS-specific workarounds, reduce help desk tickets, and ensure consistent behavior in shared and hot-desking environments
- **One Dock for Every Workstation**: Support up to dual 4K 144Hz or single 8K 60Hz, 2.5GbE, and 100W laptop charging through a single USB4 or Thunderbolt 4 / 5 host connection; Simplify centralized IT management with PXE Boot and Wake-on-LAN
- **Secure and Organize Your Deployment**: Protect your fleet using integrated lock slots and flexible surface or VESA mounting options (sold separately); Keep desks and meeting spaces organized while reducing workspace disruptions
- **The IT Pro's Choice**: Rigorously tested in our Innovation Lab across 100+ monitors and major laptop brands

before it reaches your environment; Deliver reliable, cross-platform performance backed by free lifetime 24/5 multilingual technical assistance

Hardware

Warranty	3 Years
4K Support	Yes
Fast-Charge Port(s)	No
Displays Supported	2
Interface	USB4 (40Gbps)
Bus Type	USB-C
Compatible Lock Slot	Kensington Standard Slot (K-Slot) Kensington Nano Slot Noble Wedge Slot
Chipset ID	Intel - JHL8140 Infineon - CYPD5235-96BZXI Parade - FL5500 Realtek - RTL8156B

Performance

Wake On Lan	Yes
Maximum Data Transfer Rate	USB 10Gbps
Maximum Digital Resolutions	8K 60Hz 4K 240Hz
Type and Rate	USB 10Gbps
UASP Support	Yes
Compatible Networks	2.5G/1G/100Mbps/10Mbps
PXE	Yes
Full Duplex Support	Yes

MTBF		45,663 Hours
Connector(s)		
External Ports	1 - RJ-45	
	1 - USB 2.0 Type-A (4 pin, 480Mbps)	
	2 - DisplayPort	
	1 - USB 3.2 Type-C (24 pin, 10Gbps, DP Alt-Mode Video)	
	2 - USB 3.2 Type-A (9 pin, Gen 2, 10Gbps)	
	1 - USB 3.2 Type-C (24 pin, Gen 2, 10Gbps)	
Host Connectors	1 - USB4 (40Gbps)	
Software		
OS Compatibility	Windows 10, 10 ARM, 11, 11 ARM	
	macOS 11, 12, 13, 14, 15, 26	
	Ubuntu 24.04 and up	
	ChromeOS	
Special Notes / Requirements		
System and Cable Requirements	A host device with an available USB4, TB4, or TB5 port (to ensure full dock functionality, the host device's USB-C port must support USB Power Delivery and DP alt mode).	
Note	A 4K-capable display is required to achieve UHD resolution (4K is also known as 4K x 2K). A 8K-capable display is required to achieve 8K UHD resolution Thunderbolt 3 (TB3) is not supported (other than on TB3-based Apple M1/M2/M3 Standard chipsets). M1 and M2 Standard chipsets will work with a single display, while M4/M5 Standard and M1/M2/M3/M4 Pro/Max chipsets will work with dual displays. M3 Standard chipsets will work with dual displays while in clamshell mode. Achieving refresh rates above 4K 60Hz may require DSC (Display Stream Compression) support from both the monitor and the host GPU; video capability is host dependent. The bit depth and color depth may be adjusted to enable higher refresh rates, and results may vary depending on OS updates. If monitor recognition issues occur, connect the monitor with the	

lowest refresh rate first, as high refresh rate monitors may consume all available bandwidth.

For external display compatibility over a single USB4/Thunderbolt connection on different Windows systems, please consult the computer manufacturer's website.

DP++ is not supported.

Indicators

LED Indicators	1 - Power LED: Off - The dock is turned off or not connected to power Solid Orange - The dock is on, but no host connection is detected Solid Blue - The dock is powered on and a host connect is detected
----------------	--

Power

Power Source	AC Adapter Included
Power Delivery	100W
Input Voltage	100 - 240 AC
Input Current	2.5A
Output Voltage	21V DC
Output Current	6.4A
Center Tip Polarity	Positive
Power Consumption (In Watts)	134.4W

Environmental

Operating Temperature	0C to 45C (32F to 113F)
Storage Temperature	-10C to 70C (14F to 158F)
Humidity	10% ~ 85% RH

Physical Characteristics

Color	Space Gray
Material	Plastic

Cable Length	3.3 ft [1 m]
Product Length	7.5 in [190 mm]
Product Width	3.1 in [80 mm]
Product Height	1.1 in [28.5 mm]
Weight of Product	0.7 lb [0.3 kg]

Packaging Information

Package Length	4.8 in [12.3 cm]
Package Width	10.8 in [27.5 cm]
Package Height	3.4 in [8.7 cm]
Shipping (Package) Weight	2.5 lb [1.1 kg]

What's in the Box

Included in Package	1 - USB4 Docking Station
	1 - USB4 Host Cable
	1 - Universal Power Adapter (NA)
	1 - Product Documentation

Warranty Information

Warranty	3 Years
