3-in-1 2.0 Combination Lock Extension for Desktop Peripheral Kit

Resettable, Part Number: K63378WW | UPC Code: 0 85896 03911 2
Serialized, Part Number: K63379WW | UPC Code: 0 85896 03921 1
Serialized(Pack of 25pcs), Part Number: K63375WW | UPC Code: 0 85896 04051 4

One lock extension. One tip. Broad compatibility.

Managing devices with different security slot formats—standard, nano, or wedge-shaped—often requires multiple lock types or interchangeable tips, increasing complexity and administrative burden. For deployments using the Desktop & Peripherals Locking Kit 2.0 (K64424WW), securing additional peripherals can also require separate standalone locks and extra anchor points.

The 3-in-1 2.0 Combination Lock Extension expands the kit by allowing more devices to be secured along the same primary cable, simplifying standardization and reducing clutter. Its true single-tip design fits all three slot types—no adapters required.

A resettable 4-dial combination offers 10,000 possible codes, while the self-coiling carbon steel cable provides strong, organized physical security.

- **Secures additional devices without adding extra anchor points**
- **One lock tip fits standard, nano, and wedge-shaped slots**
- **360° rotating head enables one-handed locking without blocking ports**
- **Proprietary cleat lock for secure internal grip**
- **6' (1.8m) self-coiling cut-resistant carbon steel cable**
- **Resettable 4-number dial with 10,000 combinations**
- **Meets or exceeds rigorous industry standards**
- **Register & Retrieve™ combination retrieval program**
- **5-year limited warranty**

3-in-1 2.0 Combination Lock Extension for Desktop Peripheral Kit

Resettable, Part Number: K63378WW | UPC Code: 0 85896 03911 2
Serialized, Part Number: K63379WW | UPC Code: 0 85896 03921 1
Serialized(Pack of 25pcs), Part Number: K63375WW | UPC Code: 0 85896 04051 4

Compatible with Desktop & Peripherals Locking Kit 2.0

Works with the Desktop & Peripherals Locking Kit 2.0 (K64424WW) to secure additional devices to the same primary anchor cable while supporting standard, nano, or wedge-shaped security slots—standardizing protection across mixed environments without extra anchor points.

One Tip Fits All Major Security Slots

Innovative single-tip lock extension fits standard, nano, and wedge-shaped security slots without interchangeable parts—adding broad device compatibility.

One-Handed Locking and No Port Blocking

The 360° rotating lock head allows you to attach and secure the lock with one hand from any angle—even in tight spaces—without blocking adjacent ports.

Proprietary Cleat Lock

Engineered as an alternative to traditional scissor-style lock tips, our proprietary cleat lock firmly grips inside the slot for a secure hold. This internal cleat design ensures the lock remains firmly engaged.

Self-Coiling Carbon Steel Cable

Easily transportable and cut-resistant, stretching up to 6' (1.8m) and shrinking down to three inches (76mm). Protective sheathing helps keep attachment points such as desks and tables free from scratches.

Resettable 4-Number Dial

Delivers 10,000 possible combinations with simple code reset capability for secure, customized access.

Verified & Tested

Each Kensington lock is precision engineered to meet or exceed rigorous industry standards for strength, physical endurance, and mechanical resilience.

Register & Retrieve™

Register & Retrieve™

Kensington's online registration program allows for quick, secure, and free combination retrieval in case you forget your code.

5-Year Limited Warranty

5-Year Limited Warranty

Built to last and warrantied by Kensington, the inventor of laptop locks and recognized authority in device security.
