

Latitude Portfolio

World's most intelligent¹, secure², and
manageable commercial PCs³.

Accelerate from ideas to innovation

Confidently work from everywhere with the world's most intelligent¹, secure², and manageable commercial PCs³ sustainably designed for productivity on the go.

Best collaboration and connectivity experience⁴

Look and sound your best wherever you work with up to 8MP resolution, high-dynamic range (HDR) technology, intelligent audio that reduces background noise, and 5G options⁵.

Best business productivity⁶

Powered by up to Intel® Core™ Ultra processors combined with Intel vPro®, fast DDR5 memory options and advanced thermals to keep systems cool, these PCs can handle today's multi-tasking demands.

Sustainably designed

Our sustainable Latitude portfolio works toward meeting our goals, so you can meet yours. Among other innovations this year, Latitude has the world's first commercial PCs to use recycled cobalt in their batteries⁷.

AI-enhanced performance and efficiency

Unlock AI-enhanced performance and efficiency with Intel® Core™ Ultra processors and Copilot in Windows 11.

Intel® Core™ Ultra processor

The new Intel® Core™ Ultra processor combined with Intel vPro® delivers a secure hardware platform with premium performance and optimized power efficiency, ready to handle the next generation of AI workloads and the versatile management options that businesses require to stay ahead of the game.

Enjoy the next generation of performance hybrid architecture for supercharged computing with a battery that lasts thanks to a three tier multi-processing unit. Business users can manage complex workloads by sending the right task to the right engine at the right time with a CPU for lightweight low-latency AI tasks, GPU¹ for media and visual AI rendering, and NPU, a dedicated AI engine, for sustained AI and AI offload.

AI-enhanced apps

Apps using AI run faster and smoother, delivering more battery life.

Collaboration: Use up to 38% less power when utilizing AI-enhanced collaboration tools during Zoom calls.²

Creativity: 132% faster performance when running on-device AI photo editing on Adobe.³

Security: Detect malware with less than 1% CPU utilization using CrowdStrike.⁴

Copilot in Windows 11

Effortlessly jumpstart your workflow with the Copilot Hardware Key on your device, saving you time by providing quick access to the tools you need to start your workday.

Copilot in Windows⁵ is your AI assistant at work. Supercharge your productivity and achieve more with less time and effort, while keeping sources private and protected. Copilot brings intelligent tools to your desktop so you can get better answers, sharpen skills, find fresh solutions, and create in new ways.

Confidently work anywhere with Latitude

Mobile designs

Small and light devices for at-the-desk or on-the-go versatility

Variety of premium features

Options for Collaboration Touchpads, ultralight designs, Mini-LED Battery-Saving Backlit Technology, 16:10 aspect ratio displays, up to 8MP IR cameras, and more.

AI PCs

Enjoy power-efficient performance for various, complex business workloads with Intel® Core™ Ultra processors.

Seamless connectivity

Broad range of Wi-Fi options including Wi-Fi 7³ as well as mobile broadband.⁴

HDR technology on the camera

Latitude PCs are the World's First Commercial PCs to offer HDR technology in cameras that increase the camera's dynamic range to better capture video in challenging lighting conditions.¹

Scalable and flexible form factors

Select from laptop, 2-in-1, or detachable options with sizes ranging from 13" to 16". Laptop and 2-in-1 form factors available on the same system BIOS for simplified ordering and management.

Industry's most secure commercial PCs²

Powerful security built-in with Dell SafeID, Dell SafeBIOS, lock slots, and smartcard reader options.

Rigorous MIL-STD testing for durability and reliability

Sustainable innovation

Intentionally designed to lower environmental impact with low-impact packaging, innovation with sustainable materials, responsible IT asset retirement, and environmental certifications and registrations that demonstrate our commitment to climate-related and energy-efficiency standards.

Most manageable commercial PCs⁵

Help your IT Admins save time, money, and resources when managing a fleet of PCs

Accessories designed and tested to work better together

Dell has all the tools to build your perfect setup everywhere - including keyboards, mice, docks, webcams, audio solutions and more.

Latitude 9000 series

Innovation meets ultra-premium design

Ideal for C-suite executives, account managers, consultants, and small and medium business owners who are driven to build and grow their businesses with strategic vision; the Latitude 9000 series 2-in-1s are designed for productivity without compromise. Packaged in a stunning design, and with innovations exclusive to the 9000 series, these devices offer the performance, connectivity, and collaboration tools needed to power your day, wherever you work.

World's smallest 14" commercial PC¹

Easily work from anywhere on the world's smallest 14" commercial PC. The Latitude 9440 and 9450 fit a 14" screen in a 13" chassis¹ while still featuring an expansive display with plenty of room for productivity thanks to a 16:10 InfinityEdge design.

Ultra-premium design

Meticulously crafted using a high-precision CNC machining process, your device's sleek aesthetic is complemented by a stunning graphite color and seamless, diamond-cut edges. As the world's only commercial PC with a Zero-Lattice Keyboard¹, the luxurious design not only extends to the device's interior, but also features Battery-Saving Mini-LED Backlit Technology that reduces the keyboard's power usage by up to 75% and extends battery life.¹

World's most collaborative commercial PC¹

Enjoy seamless collaboration with clients and colleagues with the world's only Haptic Collaboration Touchpad¹, which puts critical Zoom and Microsoft Teams⁴ conferencing controls at your fingertips. Look your best on conference calls with an FHD IR camera featuring HDR technology, and enjoy loud and clear audio with quad speakers, including two top-firing and two bottom-firing speakers.

Intentionally designed to lower environmental impact

Latitude 9000 series products are designed with a variety of sustainable materials including post-consumer recycled plastic, bio-based plastic, ocean-bound plastic, and low emissions and recycled aluminum.² Your PCs also meet the highest environmental standards for energy efficiency and climate impact.³

Latitude 7000 series

Premium design and performance with a range of options

Ideal for team leaders, directors, project or product managers who are driven to connect teams and ensure collaboration; the Latitude 7000 series devices are designed with both a premium look and performance. A broad range of features provide seamless collaboration and connectivity for both at-the-desk work or on-the-go versatility.

Variety of premium designs

For the ultimate in portability, select a Latitude 7350 or 7450 Ultralight laptop, the world's lightest 13.3" and 14.0" premium commercial laptops¹. These devices are available in a stunning River color with a magnesium chassis. The Latitude 7000 series also offers aluminum laptops in classic Titan Gray available on the 13.3", 14.0", & 16.0". For added versatility, select a 2-in-1 form factor available on the 13.3" and 14.0".

Variety of premium features

Enjoy 5% more room for productivity with a taller 16:10 aspect ratio display (vs. a 16:9 aspect ratio). Optional Battery-Saving Mini-LED Backlit Technology reduces power drain by the keyboard up to 75% and increases battery life³.

Seamless collaboration

Look your best on every conference call with an FHD or FHD IR camera featuring HDR technology that accurately captures image detail in challenging lighting conditions. For crisp and clear conferencing audio; Latitude 7350, 7450, and 7650 also have the best audio quality ever in a 7000 series with up to 100% more bass and 41% improvement in loudness in gen-over-gen comparison.² Ultralight configurations also feature a Collaboration Touchpad that puts critical Microsoft Teams and Zoom³ conferencing controls at your fingertips.

Intentionally designed to lower environmental impact

The Latitude 7350 is the world's first premium commercial PC to use 50% recycled cobalt in its battery.⁴ Latitude 7350 and 7450 Ultralight configurations contain up to 90% recycled magnesium in the chassis⁵ while Latitude 7350, 7450, and 7650 aluminum configurations will start shipping with 50% low emissions and 50% recycled aluminum in chassis in 2024.⁶ The Latitude 7000 series meets the highest environmental standards for energy efficiency and climate impact.⁷

Latitude 7350 Detachable

World's most versatile commercial detachable¹

Ideal for on-the-go professionals who need a versatile device that can easily adapt to a variety of needs and environments, the Latitude 7350 Detachable is designed with the performance of a laptop and the versatility of a tablet. Equipped with ample premium features and available with customized accessories to enhance your experience, the Latitude 7350 Detachable provides performance wherever you need it.

Versatile design

Use your device as either a tablet or a laptop with the addition of the optional Latitude 7350 Detachable Collaboration Keyboard. Naturally take notes with the Latitude 7350 Detachable Active Pen, which securely stores and charges to 100% in the pen garage of the Collaboration Keyboard in a quick 30 seconds.² Lightweight and durable with corner bumpers, built-in kickstand, elastic pen holder, comfortable hand strap, and detachable shoulder strap; the Dell EcoLoop Protective Case for the Latitude 7350 Detachable keeps your device protected while on the go.

World's most collaborative commercial Detachable¹⁰

Look your best on calls with clients and colleagues with the best user-facing camera with 8MP resolution and HDR technology amongst other Detachables⁶. The world's first commercial detachable with a Collaboration Touchpad (sold separately) puts critical Microsoft Teams and Zoom⁷ conferencing controls at your fingertips.

Performance of a laptop

Enjoy laptop-level performance and keep your device running smoothly, wherever you work, thanks to advanced thermal solutions, such as additional intake vents under the kickstand that maximize airflow when the kickstand is open. Intelligent thermal modes allow your device to run up to 51% faster in laptop mode³, 38% quieter in tablet mode⁴, and up to 5C cooler in tablet mode.⁵

Intentionally designed to lower environmental impact

Inspired by Dell's vision for circular design, the Latitude 7350 Detachable is the world's most serviceable detachable¹ and features easy-to-remove pop-openable displays, removable batteries, as well as upgradable WWAN & SSDs, making serviceability easy and fast. The Latitude 7350 Detachable is also the world's first premium commercial PC to use 50% recycled cobalt in its battery⁸ and meets the highest environmental standards for energy efficiency and climate impact.⁹

Latitude 5000 series

The perfect balance of performance, privacy and scalability

World's smallest mainstream business laptops¹ offering scalable performance, broad range of security and productivity options, and are designed with sustainability in mind. These devices are ideal for professionals in specialized and complex fields who prioritize efficiency and results, requiring flexible performance options to accommodate hybrid work styles.

Scalable productivity

Find ultimate flexibility that fits the needs of any workforce in the most scalable mainstream business laptops². Latitude 5000 offers latest Intel® Core™ Ultra processor options as well as DDR5 upgradeable memory on 14/15" and LPDDR5/x memory on 13". Choose from a range of display options and stay productive with up to 32% longer battery life on average than the previous generation³.

The most sustainable Latitude 5000 series yet⁴

Latitude 5000 laptops are designed with a variety of sustainable materials⁵ including post-consumer recycled plastic, ocean-bound plastic, bio-based plastic and reclaimed carbon fiber, and this year, will start shipping with 50% recycled cobalt in the battery⁶. These devices in 100% recycled, renewable and recyclable packaging with multipack options for even lesser waste⁷.

Stay protected

The industry's most secure commercial PCs⁸ offer scalable built-in security solutions that enable you to work from everywhere with peace of mind. Latitude 5000 features a range of security options including Dell SafeID, Dell SafeBIOS, fingerprint readers, lock slots, contact and contactless smart card readers, Control Vault 3+, camera privacy shutters and more.

Connect and collaborate seamlessly

Look your best on every conference call with new, available FHD or FHD IR cameras featuring high-dynamic range (HDR) technology that accurately captures image detail in challenging lighting conditions. Plus, Wi-Fi 6E⁹ and available mobile broadband options make hybrid work easy. Quickly connect to peripherals with a selection of ports including Thunderbolt™ 4.0 USB-C¹⁰, HDMI 2.1¹⁰ and USB-A.

Latitude 3000 series

Essential productivity with a premium feel

A range of essential features built for any business and any budget. Ideal for task-oriented professionals who are driven to produce results who require enterprise-level security, essential intelligence and collaboration features that help them stay productive.

Performance for any business

Latitude 3000 series offers essential and reliable performance options within a compact design. Available in 14" and 15" screen sizes, it comes in a soft charcoal color for a modern look. Boost your productivity with new DDR5 memory and get up to 13% greater battery life⁴ on average than previous generation.

Reliable connectivity

Enjoy high-speed connectivity with available Wi-Fi 6E¹ and conveniently connect anywhere with available 4G mobile broadband option on 15". Network Optimization² joins the best available network, prioritizes conferencing apps and delivers fast data and video downloads with the world's first simultaneous multi-network connection.

Tools that make collaboration easy

Look your best on conference calls with new, available FHD or FHD IR cameras featuring high-dynamic range (HDR) technology that accurately captures image detail in challenging lighting conditions. Collaborate without distractions with intelligent audio features from Dell Optimizer.

Manageable and secure

Most manageable³ commercial PC helps your IT Admins save time, money, and resources when managing a fleet of PCs. Latitude 3000 offers security features such as optional fingerprint readers, TPM chips, lock slots and more.

Dell Optimizer

We make it intelligent. You make it yours.

Powering the world's most intelligent commercial PCs¹ with AI-based optimization software that learns and responds to the way you work.

Experience the world's most intelligent collaboration experience²

Ease into your meetings with the collaboration touchpad. Use the touchpad surface to gain quick access to frequently used Zoom and Microsoft Teams features such as screen share, chat, camera and microphone, to enjoy a better conferencing experience.

Get up to 18% in power savings⁶

Save energy without sacrificing performance for ultimate efficiency with Power Optimization. Achieve power savings when you set your PC to Quiet Mode on your thermal management settings – giving you up to 2.4 watts of power savings compared to default mode.⁵

Work smarter with an intelligent ecosystem

Enjoy easy pairing and management of your Dell monitors and accessories with the integration of Dell Display Manager and Dell Peripheral Manager

Intelligent privacy anywhere

Get to work faster and keep your sensitive data private with our Presence Detection technology- which wakes your PC when you approach and locks it when you walk away.

Experience 2x faster network performance³

Network Optimization provides the world's first simultaneous multi-network connection for faster data and video downloads⁴, and joins the best network⁵ available.

Up-level audio

Intelligent Audio senses your surrounding sand improves the conferencing experience by removing unwanted sounds, alerts you when your voice quality is poor, and provides a better collaboration experience for you and all call participants.

Sustainability on Dell Latitude

Delivering innovative technology and solutions to collectively lower our environmental impact.

1st

World's first commercial PCs to use recycled cobalt in their batteries.¹

100%

Latitude notebooks ship in 100% recycled or renewable packaging and select devices offer mutipack options for reduced packaging and transportation waste.²

Greatest variety of sustainable materials

The new Latitude 5000 series is designed with the greatest variety of sustainable materials of any mainstream business laptop, featuring components made with recycled plastics, reclaimed carbon fiber, recycled cobalt, recycled aluminum, bio-based material, and ocean-bound plastics.³

Most durable and serviceable

Latitude 7350 Detachable is the World's Most Serviceable detachable⁵ with easy access to batteries and displays, as well as upgradable WWAN & SSDs. This detachable is most durable⁶ and has passed extreme environmental testing.

Lifecycle Management

Dell APEX offerings and Asset Recovery Services make it easier for our customers to modernize responsibly, and reduce over-provisioning and e-waste, on schedule and within budget. Dell makes it easy to access and replace parts to get the most life out of our products.

Powered for sustainability

Latitude notebooks ship with the new 65W adapter designed with 95% post-consumer recycled plastic in the case and 98% recycled aluminum in the thermal shield.⁴

Simplify IT

Our most secure¹ and most⁶ manageable offerings make IT management a breeze

SECURITY

Improve fleet-wide security with multiple layers of defense

Reduce the attack surface and enhance long-term cyber resilience with [Dell Trusted Workspace](#)

Dell offers the industry's most secure commercial PCs¹ with protections competitors cannot match:

Be secure from first boot

Rigorous, state-of-the-art supply chain controls and Dell-unique [Secured Component Verification](#) reduce the risk of product tampering.

Spot ticking timebombs

Early-alert feature Indicators of Attack, offered [only by Dell](#), scans for behavior-based threats.

Stay protected from evolving threats

Only Dell offers off-host BIOS and firmware verification, providing greater security than other PCs. The latest Intel vPro[®]-based PCs provide an estimated 70% attack surface reduction.⁴

Layer on advanced threat protection with software from our ecosystem of best-of-breed partners.

Only Dell integrates device telemetry with industry-leading software to improve fleet-wide security.

[Learn More >](#)

MANAGEABILITY

Manage your fleet of PCs - reliably and easily

Help secure and optimize your endpoints and deliver end-user productivity with [Dell Manageability Solutions](#)

[Dell Trusted Update Experience](#) makes it simple to update endpoints, packing the latest BIOS, driver, and firmware versions. Dell is the only Top-5 PC vendor that:

Publishes² a device drivers and downloads release schedule:

IT Admins can deploy fleet-wide device updates on a predictable timeline.

Performs³ integrated validation of all driver and BIOS modules in an update:

IT Admins can expect a trusted, system compatible update deployment, across a fleet of devices.

1. High-Efficiency Video Coding (HEVC) content playback on the system and on an external display as well as HEVC content streaming is supported on configurations with a discrete graphics card, built in 4K panel, Dolby Vision or CyberLink Blue-ray player; for other configurations HEVC content playback on the system will require a separate purchase and download of software HEVC codec or third-party media players.
2. Based on Intel[®] internal testing on generic devices, as measured by system on chip (SOC) package power during 1x1 Zoom call with background blur on NPU on Intel Core Ultra 7 165H processor comparing to 13th Gen Core i7 1370P processor. Learn more here: Intel[®] Core™ Ultra Processors - 1 | Performance Index
3. Based on Intel[®] internal testing on generic devices, as measured by an AI video editing workload using Adobe Premier Pro Beta on Intel Core Ultra 7 165H processor, comparing to 13th Gen Intel Core i7-1370P processor. Learn more here: Intel[®] Core™ Ultra Processors - 1 | Performance Index
4. <1% CPU usage when running on-device AI based security like CrowdStrike. Based on Intel and CrowdStrike testing. Results may vary. These results should not be taken with the understanding that the ratio of CPU usage, memory usage, or inference time between CPU only and CPU+NPU will remain the same with a different/smaller model – even one using the same neural architecture as the model under test. This is also not a general claim about the performance of other models on the NPU, even other CNNs. The result should only be taken as an understanding that, for this specific Convolutional Neural Network (CNN) model developed by CrowdStrike, a smaller distilled model of the same design would likely have an average inference time after the first of $\leq \sim 25\text{ms}$ and a CPU overhead $\leq \sim 1\%$. Note that featurization/tokenization were not measured as part of this test. The model was tested using the OpenVINO framework. Learn more here: <https://www.crowdstrike.com/blog/crowdstrike-and-intel-research-advance-endpoint-security/>
5. Timing of feature delivery and availability varies by market and device. Use Copilot with a Microsoft Account or use Copilot with commercial data protection at no additional cost by signing into a work or school account (Microsoft Entra ID) with Microsoft 365 E3, E5, F3, A3 or A5 for faculty, Business Premium, and Business Standard. Coming to more Entra ID users over time.
