Product Discontinuation Date: July 1, 2024
Service & Support Discontinuation Date: June 30, 2027
Product Replacement: [ScanPal EDA10A Tablet](#)

The PC43K is a comprehensive, easy-to-use and fully integrated kiosk solution combining tablet, label printer, scanner and configurable workflow software, from one vendor to fit any business model. The PC43K's all-in-one compact modular design for parcel shops, retailers, airlines, hospitality and other consumer interactions provides a flexible self-service platform that automates processes and improves the customer experience.

- Full system integration and centralized support from Honeywell ensures regular patches and up-to-date security.
- The compact, modular design of the PC43K facilitates integration and performance in any consumer environment.
- The Android mobile operating system enables easy integration and configuration of business-specific applications.
- Dramatically reduce integration costs with pre-integrated hardware.

The PC43K all-in-one kiosk solution includes a tablet, printer, scanner, and software from a single vendor, making it extremely easy to use and develop custom applications to fit any business model. The PC43K comes with an integrated scan engine, ScanPal EDA71 tablet on an articulating arm, PC43 direct thermal printer, I/O board and wall/desk mount to ensure that it is ready for direct consumer operations. The ScanPal EDA71 tablet is loaded with the world's most advanced and widely adopted

mobile operating system, Android 8. The Android operating system is the most flexible platform for any ISV or mobile application developer to customize and develop applications that fit any business model. This enables our customers to easily configure and develop custom applications to take full advantage of the PC43K solution. Security is a key element of the PC43K solution. Capable of full mobile device management (MDM) support, and with security patch releases for Android and centralized support from Honeywell, the PC43K is a complete, all-in-one kiosk solution. With native support for comprehensive printer command languages, the PC43 direct thermal printer is simple to use and maintain. It comes with all necessary configuration applications such as a printer firmware updates app, which enables you to update the printer to the latest firmware to ensure that it is secure and performing to its optimal level.
